Kerrie Bathje – 303-724-0049

9th and Colorado Blvd. Campus

Most all buildings are now vacated and all operations have been relocated to the Anschutz Medical Campus. For any parking related questions for this campus contact the Parking Office at Anschutz Medical Campus.

UC DENVER INTERCAMPUS TRANSPORTATION OPTIONS

ANSCHUTZ MEDICAL CAMPUS - DOWNTOWN DENVER CAMPUS - 9TH & COLORADO BLVD. CAMPUS

Anschutz Medical Campus Campus Circulator

On the Anschutz Medical Campus, there is a Circulator Shuttle that services various areas of the campus.

For departments or groups having special shuttle needs for events or meetings, special event shuttles can be arranged to transport people anywhere in the Denver area. A Special Event Shuttle Request Form and associated cost can be accessed by visiting:

<http://administration.ucdenver.edu/admin/facilities/parking/forms/eSpecialEventShuttleRequestForm.htm>

For additional information about Parking and Transportation services on the 9th & Colorado Blvd. and Anschutz Medical Campuses, including maps and shuttle information, please visit the Parking and Transportation website at <http://administration.ucdenver.edu/admin/facilities/parking/index.htm> or call the Parking and Transportation office at 303-724-2555. Questions pertaining to downtown parking can be directed to Claudette Iacino at 303-315-2290.

Van-On-Demand

This service provides shuttle transportation between the Downtown Denver Campus and the Anschutz Medical Campus. Those needing rides can call **303-521-2968** for service or place a reservation in advance. Reservations can be made up to one week in advance. The shuttles contain bike racks to make transporting a bicycle between campuses easily accomplished.

Reciprocal parking

Anyone who has a University of Colorado Downtown Campus, Anschutz Medical Campus, CU Boulder Campus, Colorado Springs Campus or Auraria parking permit may participate in the University's reciprocal parking program. This program allows permit holders to park in designated parking lots on any other CU campus and Anschutz Medical Campus at no additional cost. Please visit the reciprocal parking section of the Parking and Transportation website at:

<http://administration.ucdenver.edu/admin/facilities/parking/reciprocal.htm> for additional information about the reciprocal parking program and to learn the location of reciprocal parking lots on the CU and Auraria campuses.

Additional options

Through the Auraria Campus, the University's downtown Denver employees can purchase RTD's Eco Pass, which allows unlimited bus rides at a discounted rate. Auraria also offers a package called Eco Pass Plus which provides an Eco Pass and parking only for the days people need to drive their personal vehicle. With Eco Pass Plus, people can still participate in the reciprocal parking program. Please contact the Auraria Parking office at 303-556-2000 for more information.

Long-term transportation plans: Transportation Management Authority (TMA)

The major current and future partners at the Anschutz Medical Campus have formed the Transportation Management Authority (TMA). These partners are: University of Colorado Denver, University of Colorado Hospital, The Children's Hospital, The Fitzsimons Redevelopment Authority and the City of Aurora. It is expected that other entities will become involved as the campus grows.

The TMA was formed to address potential traffic congestion and accessibility issues for the Fitzsimons area. By late 2009, it is expected that approximately 30,000 people will be on the Anschutz Medical Campus daily, and while the campus will be served by two light rail stations by 2015, the potential for area-wide traffic congestion is an issue best addressed now. The TMA has been established to have a greater chance of accomplishing more than any one partner could accomplish alone.

A major function of the TMA is to serve as an advocate for the transportation needs of the Anschutz community. This involves working with RTD and other local transit providers to improve routing and services and working with governments on laws that can impact transportation in the Anschutz area. The TMA addresses transportation challenges, and gives the campus a unified voice for enhanced transportation investments and resources in the area. Other functions include conducting and supporting ridesharing promotional events, promoting alternative forms of transportation, helping to form and promote vanpools and carpools, manage parking resources, promoting the use of bicycles and more.

Please visit the Transportation Management Authority website for more information.

RTD Bus Service

RTD offers bus service between campuses. Two routes serve between the Downtown Denver Campus and the Anschutz Medical Campus. One route serves between the CU Boulder Campus and the Anschutz Medical Campus.

The related RTD services between campuses are as follows:

Route 10: Between the Downtown Denver Campus and 9th and Colorado Blvd. Campus for the limited need to go to the vacated campus. See page 8 for route information.

Route 15: Between the Downtown Denver Campus and the Anschutz Medical Campus (with a stop at Colfax and Colorado Boulevard near the 9th and Colorado Blvd. Campus). See page 9 for route information.

Route 15L: Between the Downtown Denver and the Anschutz Medical Campus. See page 9 for route information.

Route 20: Between the Downtown Denver Campus and the Anschutz Medical Campus. See Page 10 for route information.

Route 121: Between 9-Mile Park and Ride and Anschutz Medical Campus. See page 9 for route information.

Route DM: Between Boulder Station and Anschutz Medical Campus. See Page 11 for route information

For a complete list of schedules, visit the RTD website at www.rtd-denver.com

RTD Products

The Student Pass: Students within several departments of the University have voted in the RTD Student Bus Pass as a part of the student fees. Check with Student Affairs to see if you have the Student Bus Pass. Those students who have the Student Bus Pass can retrieve it from the ID Access and Badging Office on level 1 of Building 500 just south of the Food Court.

RTD bus passes and tokens are available to University of Colorado Denver faculty, staff and students at a discounted rate:

10 Ride packs:

- Local - \$15
- Express - \$26
- Regional - \$33

Monthly passes:

- Local - \$56
- Express - \$103
- Regional - \$132

Tokens: \$12.00 for 50 tokens

These RTD products may be purchased at the UC Denver parking office on the Anschutz Medical Campus (ground floor of Building 500, across from the information desk). A UC Denver ID badge is required at the time of purchase.

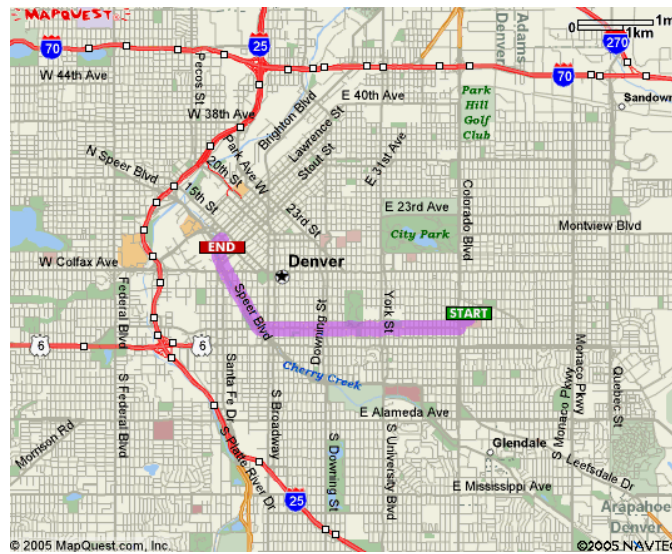

For convenience, there is an automated RTD information kiosk in the lobby of the Anschutz Parking Office.

Driving Directions

9th and Colorado Blvd. Campus to Downtown Denver Campus

Total distance is 4.2 miles; approximate travel time is 15 minutes

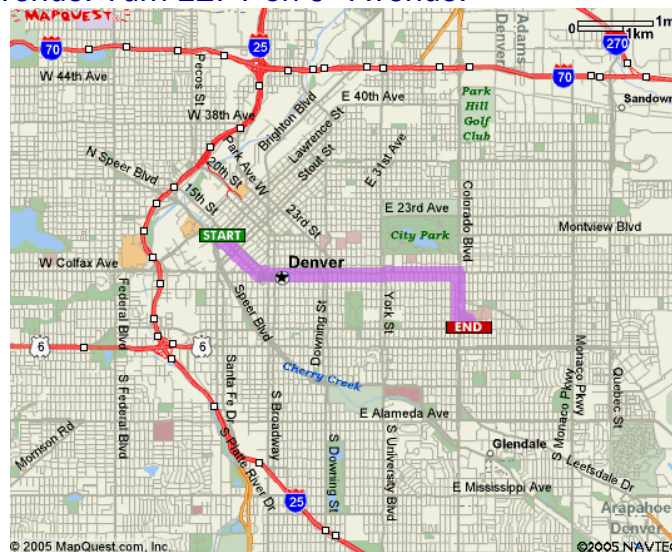

1. From 9th Avenue and Colorado Blvd. take Colorado Blvd. SOUTH to 8th Avenue.

Please visit <http://www.rtd-denver.com/> and click on schedules on top of page for exact schedule information.

Eco Pass / Eco Pass Plus

(Currently available only to Downtown Denver Campus employees)

Eco Pass - The Eco Pass is an annual RTD transit pass. With a photo ID card, you can ride all RTD services (excluding Special Services) 7 days a week for an entire year. You can ride:

- Local, Express and Regional buses
- SkyRide service to Denver International Airport
- Light Rail
- Call-n-Ride

Eco Pass Plus - The Eco Pass Plus is a program designed to give Eco Pass holders an opportunity to park in a permit lot on the Auraria Campus (reserved space and in and out privileges) on days they choose to take their vehicle to campus. This program works well for those who have meetings at odd times or lunch dates.

The Eco Pass Plus option has a minimum of two parking usages per month at the current daily parking rate per usage. You are charged via a credit card once a month based upon the number of times you park in a particular month. There is no obligation to use the program but if you sign up you will be charged for at least two days usage whether you use it or not.

For example: Eco Pass: \$32.00; Three days usage of the parking plus: \$15.00: So the total transportation cost for the month is \$47.00

The Auraria parking lot closest to the CU-Dravo and Lawrence Street Center buildings is lot M, where a few parking plus spaces are located.

Generally, if someone is interested in trying the program, Auraria gives them a free month to test it.

For more information about Eco Pass or Eco Pass Plus, please call the Auraria Parking Office at 303-556-2006.

Additional Services

NightRider (Downtown Denver Campus Only)

For your safety, the Auraria Parking and Public Safety Division offers an evening escort service for all students, staff and faculty of the Auraria campus.

This FREE 24-hour service is provided by calling 303-556-2000, Monday-Thursday from sundown until 10:00 p.m. and by calling 303-556-3271 on weekends and after hours.

The NIGHTRIDER will give you a ride from any campus parking lot to your building and back again. If you want to be a regular Nightrider, regular pickups can be arranged to fit your schedule.

Police Escort Anschutz Medical Campus

For your safety, University Police offer escorts and rides to and from your vehicle anytime you feel you require the need for added safety and security. On the Anschutz Medical Campus, call 303-724-4444.

Alternate Forms of Transportation

Bicycle racks and scooter parking are available on campus. Scooters and bicycles should only be parked and secured to the racks and in the designated areas. They should not be secured to light poles, trees, hand rails or any other object other than these racks as outlined on our website.

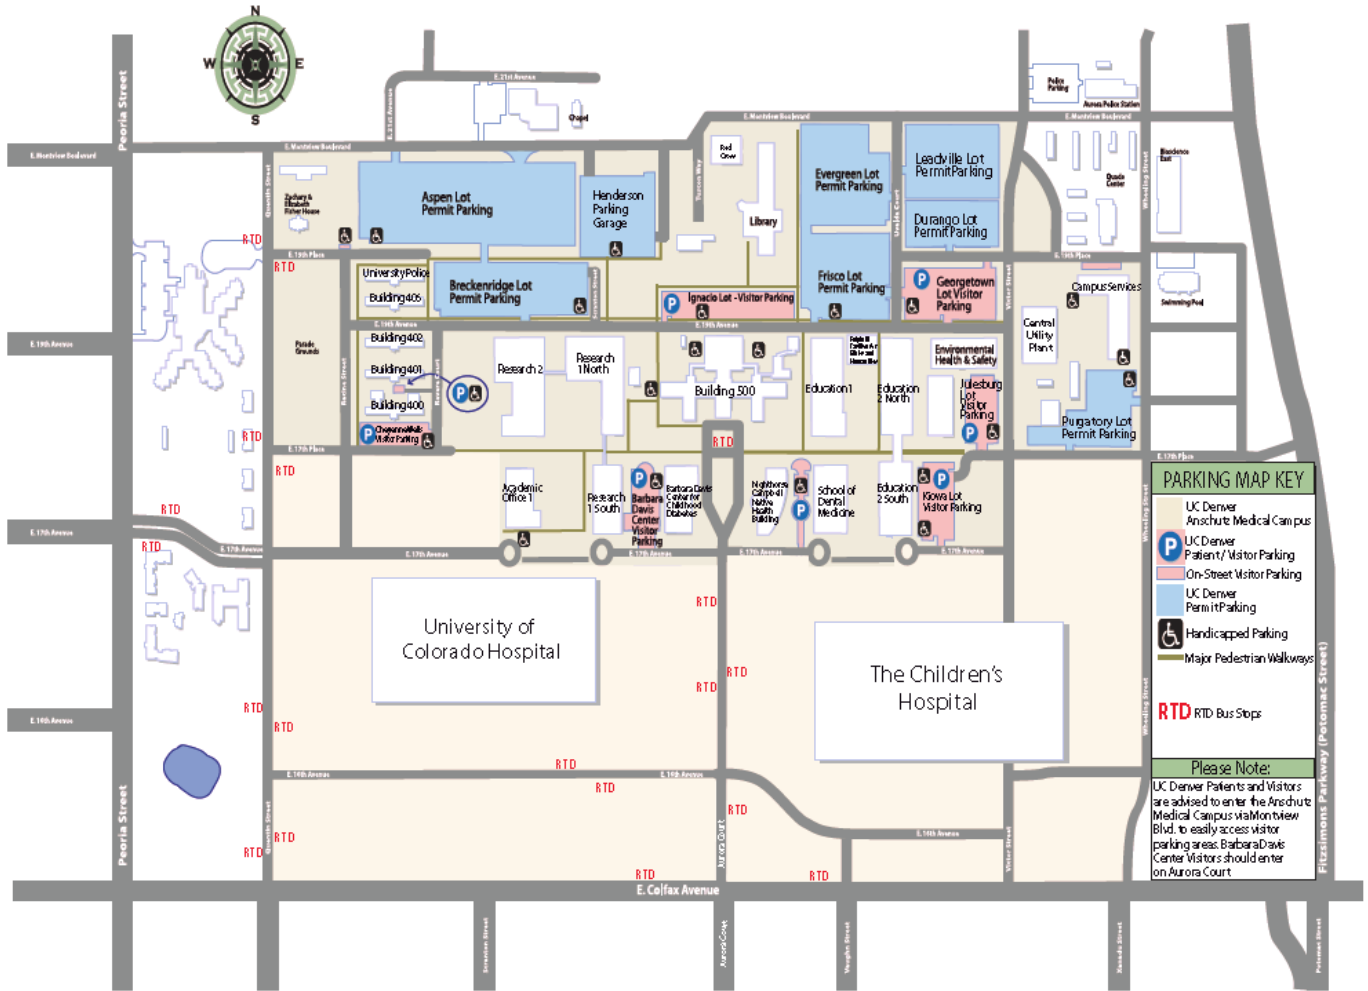

Please visit the parking and transportation website for locations and availability.

<http://administration.ucdenver.edu/admin/facilities/parking/maps.htm>

Please see designated Motorcycle parking for motorcycle permit holders only. The areas on campus have been outlined on a map for your convenience. For more information on obtaining a motorcycle parking permit please contact the Parking Office at 303-724-2555. Visitor motorcycles should be parked in a visitor pay parking lot with the receipt fixed to the motorcycle.
