Questions for Consideration:

1. Does UC Anschutz Medical Campus have any established buying agreements with furniture dealers or manufacturers? We work mostly with Colorado Correctional Industries (CCI).

2. Are there any pre-established furniture standards that will need to be followed? Not at this time.

3. Are there any pre-established finish standards that will need to be followed? The University Campus Standards will need to be followed.

4. Will program development of Appendix F (Academic 1 1st Floor Reno Program Plan) be part of the scope of the project or has Appendix F been approved? The CU Anschutz Space Guidelines: Workplace document included in the Appendix of the Program Plan has been approved by leadership. However, the experimental nature of the AO1 renovation will allow for the exploration of alternative workplace solutions as part of its scope.

5. RFP states the intent of the University to be inclusive regarding SDVMWBE and the SDVO Participation Report suggests a general goal of 3%. Can you elaborate on that intent? It is a goal and not mandatory.
