- 9:1 student to teacher ratio
- Multi-age groupings of children within a classroom
- Inquire and apply at compositiveprimary.org
- For other questions you may reach the school at info@compositiveprimary.org

Enrollment

Enrollment preference is given to children of parents working on the Anschutz Medical Campus including faculty, staff, and students of CU Anschutz, Children’s Hospital Colorado, UCHealth’s University Hospital, and the VA Medical Center. Those parents, regardless of income, are encouraged to apply on behalf of their children. Children must be age appropriate by September 1 for the classroom or grade to which they apply. School readiness is a consideration in admissions.

To inquire and apply, visit compositiveprimary.org

We believe in preparing our students not for a life of tests but for the test of life.

A workplace-based school Fitzsimons Innovation Campus Open Fall 2019
We are committed to supporting all children to lead lives of personal excellence, regardless of their parents’ education, socioeconomic status, country of origin, race, or ethnicity. Our students will reflect the workforce on the Anschutz Medical Campus, including service personnel and physicians, nurses, and support teams.

*Founder, Betsy Callaway Considine*

Compositive Primary is a workplace-based school opening on the Fitzsimons Innovation Campus in Fall 2019. Enrollment preference is given to children of parents working on the Anschutz Medical Campus including faculty, staff, and students of CU Anschutz, Children’s Hospital Colorado, UCH’s University Hospital, and the VA Medical Center.

Compositive’s curriculum integrates cognition, character, health and well-being, and community engagement. This approach is unique in that students are placed at the center of their own education, empowering them to become curious learners and contributing citizens.

With 20,000 square feet of indoor learning space on 3.6 acres, Compositive Primary offers year-round education in an intentional, rich learning environment. Our innovative model opens with 3- and 4-year-old classrooms, kindergarten, and first grade in 2019. Compositive will add a grade each year thereafter, so your child can grow in a place near you and your workplace.
