5280 Magazine's 2009 Top Docs

190 from University of Colorado Denver's School of Medicine

In order to select the top doctors and facilities, *5280* opened its survey to every metro-area doctor with a valid Colorado medical license practicing in the state. The survey listed a variety of specialties and asked the doctors who they would trust to treat them or a member of their family in each of the 80 categories. The ballot was posted online at www.5280.com.
