

Configuring Panopto for Blackboard

Recorded lectures can now be configured to be accessible via Blackboard.

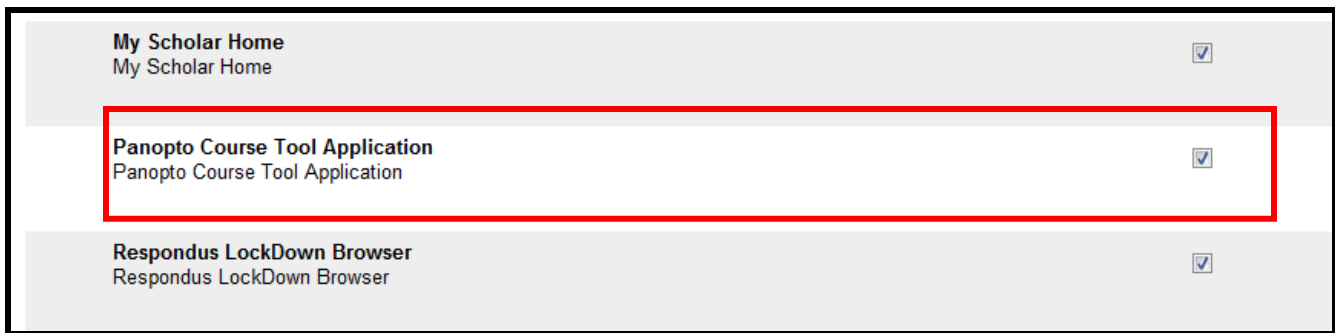

Step 1

Go to **Control Panel**, next **Managed Tools**, then **Building Block Tool Availability**.

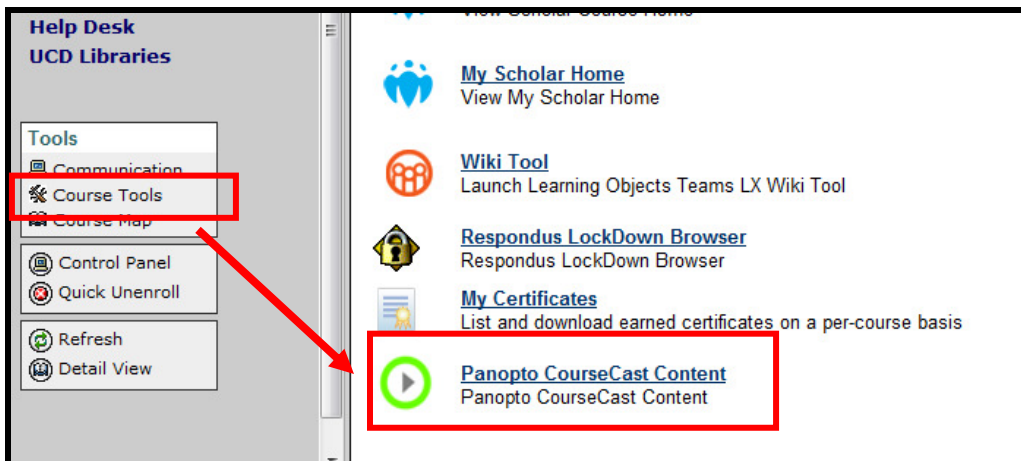

Step 2

Scroll down to **Panopto Course Tool Application** and check the box, then click **Submit** to update the changes made.

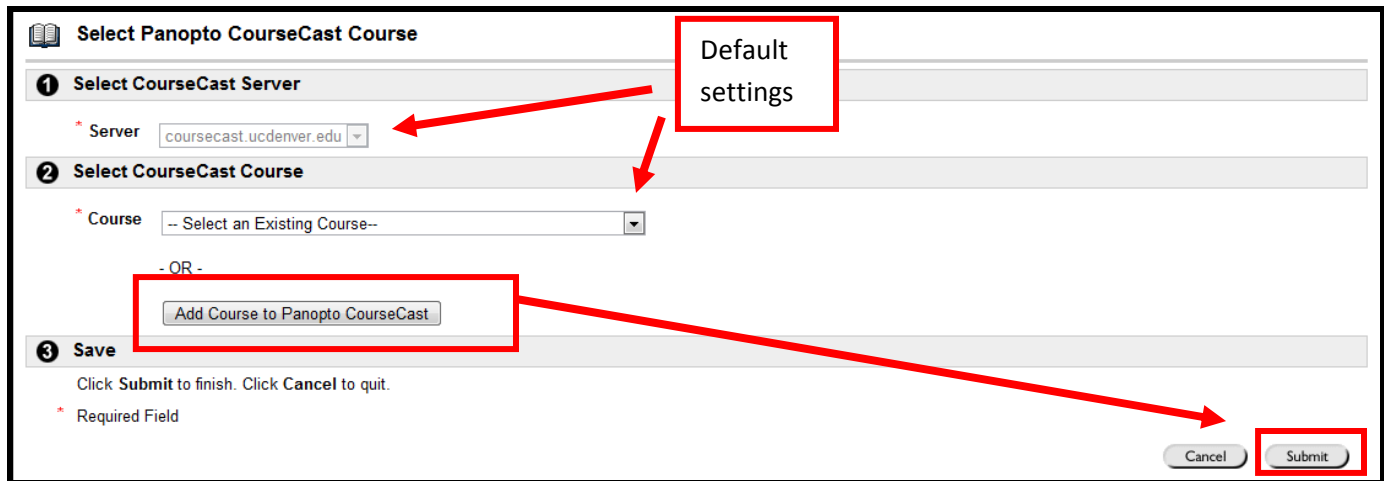

Step 3

Click on **Course Tools** from the navigation panel, then **Panopto CourseCast Content**, then select **Configure**.

Step 4

Select CourseCast Server: Leave this on the default setting
Select CourseCast Course: Leave this on the default setting
Click on **Add Course to Panopto CourseCast**, then **Submit**.

Select Panopto CourseCast Course

1 Select CourseCast Server

* Server

2 Select CourseCast Course

* Course

- OR -

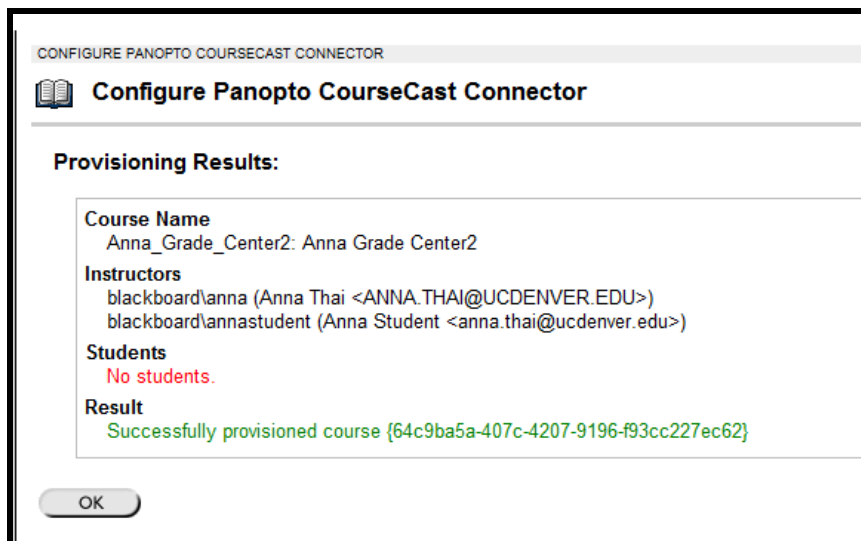

3 Save

Click **Submit** to finish. Click **Cancel** to quit.

* Required Field

Step 5

You have now completed the configuration process.

CONFIGURE PANOPTO COURSECAST CONNECTOR

Configure Panopto CourseCast Connector

Provisioning Results:

Course Name
Anna_Grade_Center2: Anna Grade Center2

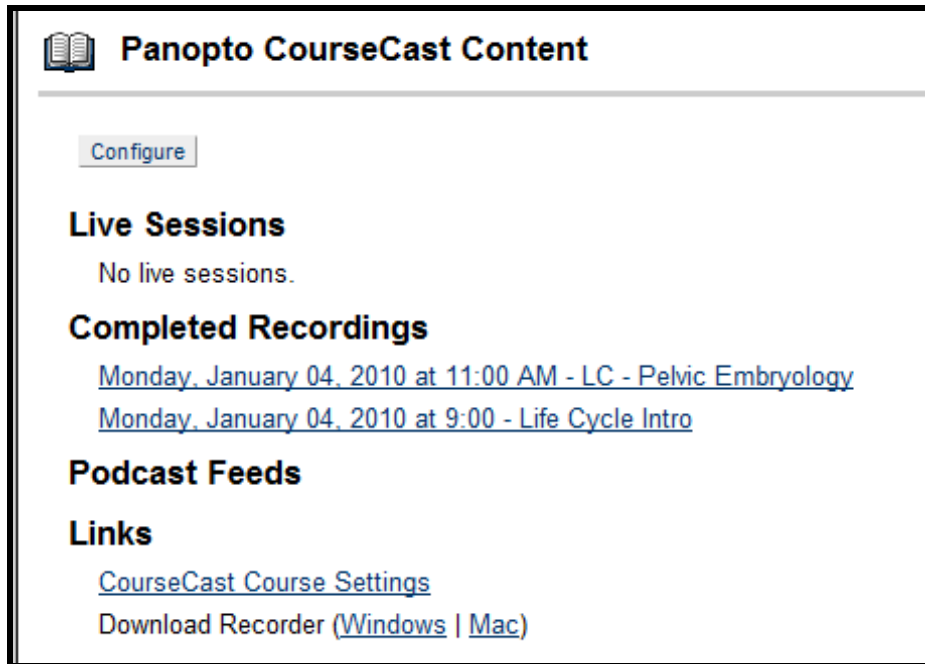

Instructors
blackboard\anna (Anna Thai <ANNA.THAI@UCDENVER.EDU>)
blackboard\annastudent (Anna Student <anna.thai@ucdenver.edu>)

Students
No students.

Result
Successfully provisioned course {64c9ba5a-407c-4207-9196-f93cc227ec62}

Step 6

After the first lecture recording has been made, students will need to go to **Course Tools** and select **Panopto CourseCast Content**. The below similar screen will appear.

The screenshot shows the 'Panopto CourseCast Content' interface. At the top left is a book icon. Below the title is a 'Configure' button. The main content is organized into sections: 'Live Sessions' with the text 'No live sessions.', 'Completed Recordings' with two blue hyperlinks: 'Monday, January 04, 2010 at 11:00 AM - LC - Pelvic Embryology' and 'Monday, January 04, 2010 at 9:00 - Life Cycle Intro', 'Podcast Feeds', and 'Links' with two blue hyperlinks: 'CourseCast Course Settings' and 'Download Recorder (Windows | Mac)'.

Step 7

You need to contact Educational Support Services – Paul Herndon (paul.herndon@ucdenver.edu) to inform him that the course has been created. He will need to rename the course folder on the Panopto server to conform to AMC naming conventions, and can add additional recorder accounts if needed.
