

Interested in STEAM Education?

(STEAM : Science, Technology, Engineering, Arts and Mathematics)

Want to Explore Education Grant Opportunities with your Colleagues?

If so, come to the first **STEAM Grant Summit**, hosted by the new CU Denver STEAM Consortium. These events will bring together faculty and staff to explore upcoming STEAM Education grant calls.

Date: Friday, September 8th, 2017

Place: Student Commons 4119

Time: 10:00 – 12:00

Coffee and Lunch will be Served

We will focus on two upcoming NSF calls aimed at building diversity and improving undergraduate STEM education across all disciplines. **STEAM** proposals are certainly welcome!

Improving Undergraduate STEM Education (IUSE)

Supporting innovative undergraduate education within and across disciplines.

Due Date:

Exploration and Design Tier (300K): Rolling
Development and Implementation Tier: 12/12/17

Dear Colleague Letter:

Expanding the INCLUDES National Network

Applying the best approaches, activities, and strategies to increasing diversity in STEM

Due Date: 11/13/17

[Click Here for the RFP](#)

New to the grant “game”? Never considered pursuing education funding?

Not sure where to start? NO PROBLEM!

Come with a 2-page “pitch”, an idea, or just to listen and chat.

The goal of each Grant Summit is to bring together faculty from all STEAM disciplines, with and without experience in grant writing, to share and discuss ideas for proposals. Experienced grant winners from across CU Denver will introduce the key parts of successful education grants and share tips and tricks for success and provide feedback during small-group brainstorming sessions.

As individuals and teams develop their ideas, the STEAM Consortium will be there to help your ideas turn into top-notch proposals. All CU Denver faculty and staff are welcome to attend.
