Undergraduate Research & Internship Presentations

Tuesday, December 5th, 2017
12:30-1:30pm | Bioscience 2 Classroom

Come hear from the undergraduate students who have been conducting an undergraduate research project or are completing an internship for academic credit!

These presentations are both a class requirement for the students and a great opportunity to learn more about what it looks like to do research or an internship as an undergrad.

Speakers:

Brian Choi | Undergraduate Research Project with Dr. Kambez Benam
Jessica Durr | Undergraduate Research Project with Dr. Brad Smith
Kailey Beck | Internship for credit with Bio2 Medical
