Department of Bioengineering

Research in Progress

March 30, 2018

Lectures

David Ramirez, PhD Candidate
Contrast Enhanced Ultrasound to Detect Insulitis and Beta Cell Mass Decline in Type 1 Diabetes

Trevor Pier, MS Candidate
Analysis of Sacroiliac Joint Fusion Devices in a Statistical Shape Model

Devin Benson, MS Candidate
Real Time Analysis of Upper Limb Kinematics During Manual Wheelchair Propulsion

Details

12:30-1:30pm | Bioscience 2 Room Y18-1008
Snacks will be served
Next date in lecture series: April 14th
