Standardized Seating Measurement: A Practicum

May 3, 2017
8:30am - 5:00pm
Ride Designs
8100 SouthPark Way, C400
Littleton, Colorado 80120

Update your understanding of international standards
In this hands-on workshop, participants will learn how to take linear and angular measurements of a seated person's body and their seating support surfaces, based on "A Clinical Application Guide to Standardized Wheelchair Seating Measures of the Body and Seating Support Surfaces."
.7 RESNA CEUs available.
