### What HSMP Global Public Health offers for you:

- A public health perspective of globalization and global health issues, programs and best practices.
- Training to use public health methods to address global health challenges.
- Depth in the area of HSMP, which provides training in organization, administration, management and evaluation of public and private sector health programs and health systems.
- Preparation for careers in leadership among a variety of sectors, including government, health care and non-governmental organizations.
- Tools needed to operate programs and organizations effectively.
- Tools to analyze and evaluate health policy.

October 29
### Sample Schedule – (MPH - HSMP Global Public Health Requirements)

#### Fall Semester—Year 1
- Health Care Economics: HSMP 6604, 3 credits
- Health Care Financial Management: HSMP 6610, 3
- Intro to Health Policy Analysis: HSMP 6616, 1
- Foundations in Public Health: PUBH 6600, 2
- Current Global Health Policy Issues: HSMP 6615, 2

**Total Credits:** 11

#### Spring Semester—Year 1
- Health Policy: HSMP 6605, 3 credits
- Comparative Health Systems: HSMP 6618, 2
- Public Health Core Course #1: 3
- Public Health Core Course #2: 3

**Total Credits:** 11

#### Summer Semester—Year 1
- Practicum: PUBH 6606, 2 credits
- Geographic Perspectives on GH: EHOH 6623, 1

**Total Credits:** 3

#### Fall Semester—Year 2 (Option 1)
- HSMP 6606 (Public Health Administration)
  - Management Selective:
    - Health Equity: HSMP 6602, 3 credits
    - Public Health Administration: HSMP 6606, 2
    - Public Health Core Course #3: 3
    - Public Health Core Course #4: 3
    - MPH Capstone Preparation: PUBH 6690, 1

**Total Credits:** 12

#### Spring Semester—Year 2
- Interpreting Health Policy & Management: HSMP 6617, 2 credits
- Cost Benefit/Effectiveness: HSMP 6609, 2
- Public Health in the Global Community: CBHS 6619, 3
  - *Note: offered odd years; may need to swap with a PH core course*
- MPH Capstone Integration: PUBH 6995, 1

**Total Credits:** 8

**Total Credits:** 45
### Fall Semester—Year 2 (Option 2)
**HSMP 6633 (Management of Nonprofit Organizations) Management Selective**

Total required Credits for Global HSMP Track: 45 credits

HSMP Required Classes

HSMP 6602 | Health Equity | 3.0 Credits | Campus: AMC - Fall
Addresses health inequities affecting the poor, racial and ethnic minorities, prisoners, rural residents, disabled, GLBTI and other populations. The course studies 1) measurement/data issues in health inequity research; 2) institutionalized, personally mediated and internalized causes; and 3) solutions/challenges.

HSMP 6604 | Health Care Economics | 3.0 Credits | Campus: AMC – Fall
Uses economic theory to analyze and understand the U.S. health care system. Topics include: demand and supply of health and health care, health insurance, hospitals, pharmaceuticals, and physicians. Analyzes institutional and legal incentives that affect physician, patient, and insurer decision-making.

HSMP 6605 | Health Policy | 3.0 Credits | Campus: AMC – Spring
Course focuses on important U.S. health policy issues and the analysis, implementation, communication skills for the practice of health policy. Evaluation is based on in-class labs, group projects, and analysis paper of a health policy case example.

HSMP 6606 | Public Health Administration | 2.0 Credits | Campus: AMC - Fall
Course provides an introduction to public health management and administration. Components aim to stimulate interactions around important problems and issues including managerial decision-making and increasing practical knowledge, tools, and strategies required by organizational decision-makers. Business plans are produced.

HSMP 6609 | Cost Benefit and Effectiveness in Health | 3.0 Credits | Campus: AMC – Spring (Prereq: HSMP 6604 or permission of instructor required)
Introduces students to the basics of economic evaluations of health care interventions or technology. Economic evaluations provide a method to assimilate different cost and health outcomes associated with medical treatments into a common metric.

HSMP 6610 | Health Care Financial Management | 3.0 Credits | Campus: AMC – Fall
Students will acquire the tools to incorporate financial, strategic, and mission-based objectives into capital investment decisions. The material also enables students to assess financing options and understand asset valuation techniques, create financial statements and perform pro-forma financial analyses.

HSMP 6615 | Current Global Health Policy Issues | 2.0 Credits | Campus: AMC – Fall
Students should be able to identify major actors and their roles in global health policy; discuss major policy issues focusing on poverty reduction using case study examples; and write a health policy analysis paper for the assessment of the course.

HSMP 6616 | Introduction to Health Policy Analysis and Communication | 1.0 Credit | Campus: AMC – Fall (students take one section for five weeks during the semester)
Introduces a framework for systemically and critically evaluating the health policy literature. Reviews effective oral and written communication skills for presenting policy.
analyses. Evaluation is based on a written analysis of a policy paper of the student’s choosing.

HSMP 6617 | Interpreting Health Policy and Management Research | 2.0 Credits | Campus: AMC – Spring
This course explores the methods used in health policy and management research. Students learn to read and interpret research, with an emphasis on understanding the strengths and weaknesses of different analytical approaches to become an effective consumer of the literature.

HSMP 6618 | Comparative Health Systems | 2.0 Credits | Campus: AMC – Spring
This course provides a framework for students to analyze the different ways that health care is organized and delivered in settings around the world, undertaking a detailed analysis of health care financing, workforce, quality and access, and population health.

HSMP 6633 | Management of Nonprofit Organizations in Public Health | 2.0 Credits | Campus: AMC - Spring
Course introduces nonprofit theory, focuses on nonprofit leadership and management, and explores nonprofit innovation and change within the context of public health. A highly practical and applied approach for students working in the nonprofit sector or with nonprofit partners.

PUBH 6606 | MPH Practicum | 2.0 Credits | Campus: AMC – Fall, Spring, or Summer

PUBH 6990 | MPH Capstone Preparation | 1.0 Credits | Campus: AMC – Fall or Spring (not offered in Summer)
The purpose of Capstone Preparation is to plan and develop a capstone project idea. By the end of the Capstone Preparation, each student will have submitted a capstone proposal that meets the requirements of the Health Systems, Management and Policy concentration for the MPH Degree and will have a detailed timeline for implementing the Capstone project to bring forward in the Capstone Integration course.

PUBH 6995 | MPH Capstone Integration | 1.0 Credits | Campus: AMC – Spring/Summer

Biostats Required Classes
BIOS 6601 | Applied Biostatistics I | 3.0 Credits | Campus: AMC – Fall, Summer
Applied biostatistical methods including descriptive and statistical inference; odds ratio and relative risk, probability theory, parameter estimation, tests for comparing statistics of two or more groups, correlation and linear regression and overviews of: multiple and logistic regression and survival analysis.

Community Behavioral Health Sciences Required Classes
CBHS 6610 | Social and Behavioral Factors and Health | 3.0 Credits | Campus: AMC – Spring, Summer
Considers social, behavioral, and cultural factors that affect the health of individuals and populations and contribute to health disparities. Development, implementation and evaluation of programs and policies to promote and sustain health environments and lifestyles are examined. Online in summer.

CBHS 6619 | Public Health in the Global Community | 3.0 Credits | Campus: AMC – Spring, Summer
This course is a study of population health issues around the world. It enables students to (1) assess the current health status of a country and (2) understand and critically appraise the magnitude and likely causes of various health-related conditions.

Environmental and Occupational Health Required Classes

EHOH 6614 | Occupational and Environmental Health | 3.0 Credits | Campus: AMC – Fall, Spring
Students will learn about the relationship between the environment, workplace and health. Topics include facets of industrial hygiene, air and water pollution, radiation monitoring, toxicology, occupational medicine, policy, environmental justice and sustainability. Methods include risk assessment, GIS and epidemiology.

EHOH 6623 | Geographic Perspectives on Global Health | 1.0 Credit | Campus: AMC – Summer
This course will review geographic concepts and tools taking a regional, holistic approach to understanding the world’s peoples, places, and processes in order to lay a foundation for an improved knowledge of global health.

Epidemiology Required Classes

EPID 6630 | Epidemiology | 3.0 Credits | Campus: AMC – Fall, Spring
This course provides an introduction to descriptive and analytic methods in epidemiology and their application to research, preventive medicine and public health practice.

Additional Elective courses that may be of interest (Beyond the required total 45 credits)

HSMP 6608 | Ethical/Legal Issues - Public Health | 2.0 Credits | Campus: AMC - Fall
This course explores the legal and ethical dimension of public health. It focuses on topics that generate legal and ethical controversies, including governmental duties to protect citizens, the nature and extent of the government’s ability to regulate conduct, and responses to epidemics.
HSMP 6613 | Addressing Health Equity in Colorado's Safety Net | 1.0 Credits | Campus: AMC – Fall

Explores real world health equity challenges as described by today's leaders and features guest lecturers who are leaders of organizations that are actually doing the work in communities across Colorado. Guest lecturers will describe the challenges of providing high quality medical, oral, behavioral and social services to some of Colorado's most diverse populations.

HSMP 6614 | Maternal and Child Health Program Management & Policy Analysis | 3.0 Credits | Campus: AMC - Fall

Students will learn and apply program management concepts and policy analysis methods to choose among potential policy and programmatic solutions to improve the health outcomes of pregnant women, infants, children, and children with special health care needs.

HSMP 6621 | IPED Development | 1.0 Credit | Campus: AMC - Spring (permission of instructor required)

This IPED course is part one of a two-semester course for students from public health, dental, medical, nursing and pharmacy schools. Students work in interdisciplinary teams to improve population health and quality of care, reduce costs and provide patient-centered care.

HSMP 6622 | IPED Development | 1.0 Credit | Campus: AMC - Fall (permission of instructor required)

This IPED course is part two of a two-semester course for students from public health, dental, medical, nursing and pharmacy schools. Students work in interdisciplinary teams to improve population health and quality of care, reduce costs and provide patient-centered care. Syllabus pending.

HSMP 6630 | Grant Writing for Public Health Professionals | 2.0 Credits | Campus: AMC - Spring

This course focuses on basic skills required to develop, fund and evaluate data-driven, evidence-based public health programs. The course involves the construction of a 3-step logic model: need, intervention, and outcomes. In addition, organization/individual capacity, partnerships, and budget are discussed.

HSMP 6670 | Special Topics | 2.0 Credits | Campus: AMC – Fall, Spring, Summer

See CSPH course schedule for specific times and semesters offered.

HSMP 7010 | Foundations in HSR (seminar) | 1.0 Credit | Campus: AMC – Fall, Spring (permission of instructor required)

Introduces students to the academic health services research literature. This seminar course requires students to participate in small seminars led by faculty on different health
services research topics plus attending larger HSMP departmental seminars. Evaluation is based on weekly papers.

HSMP 7605 | Managing a Learning Healthcare System: From Theory to Practice | 3.0 Credits | Campus: AMC - Spring

Students will develop knowledge and skills regarding how to implement and manage a Learning Healthcare System (LHS). A healthcare system is broadly defined, incorporating services delivered within traditional healthcare settings (e.g. hospitals, clinics) and within community settings that influence the health of the local population. The course will cover the history, current state, and future directions of the field.

CBHS 6623 | Nutrition in the Global Community | 2.0 Credits | Campus: AMC – Fall

Course provides information and opportunities for discussion regarding fundamentals of nutrition and historical and present-day issues related to global nutrition. Agencies that address nutrition issues domestically and globally, including philosophies, missions and strategies employed by these will be presented.

CBHS 6629 | Health and Human Rights | 3.0 Credits | Campus: AMC – Spring (Restrictions: Offered Odd Years)

Examines the relationship between health and human rights with an emphasis on the principles of confidentiality, autonomy, justice, and beneficence. Using case studies, students will discuss practical, concrete strategies for improving health and well-being while protecting rights.

CBHS 6632 | Public Health in the Caribbean and Latin America | 3.0 Credits | Campus: AMC – Fall

Course provides overview of global health issues related to community health assessment, program planning and implementation, and program evaluation by providing an intensive study of public health in the Caribbean and Latin America.

CBHS 6633 | Intensive Study of Public Health Services in Cuba | 3.0 Credits | Campus: AMC – Spring (Restrictions: Permission of Instructor Required)

Intensive study of public health system in Cuba, with 2-week trip. Examines health status; public health infrastructure; primary care and prevention services; environmental health; program effectiveness; resource allocation; and social, political, and economic factors influencing health/health services delivery.

EHOH 6621 | GIS for Public Health Research and Practice | 3.0 Credits | Campus: AMC – Summer

This course will expose students to the fundamentals of Health Geographic Information Systems (GIS), including hands-on software experience, across a variety of application areas in the health sciences, particularly focusing on integrating GIS technologies appropriately into research design and practice.

EHOH 6670 | Special Topics: Environmental and Occupational Health (International Travel and Health) | 1.0 Credit | Campus: AMC – Fall, Spring, Summer
Special interest areas of current environmental and occupational research and practice are presented and analyzed. The course format is lecture and discussion or seminar. Check the CSPH website for offerings and topics for this course each semester.

**EHOH 6710 | Disasters, Climate Change and Health | 3.0 Credits | Campus: AMC – Spring (Cross-Listed: GEOG 5710)**

This course provides a review of the impacts of all types of disasters and climate change on human health, using a broad framework of preparedness, mitigation, response, recovery, with an emphasis on vulnerability and adaptation.

**EPID 6624 | Public Health Surveillance | 2.0 Credits | Campus: AMC – Spring**

(Restrictions: Offered Odd Years; Prereq: EPID 6630)

This course focuses on characteristics, development, uses, and evaluation of major public health surveillance systems. History, goals, public health authority, analysis, interpretation, dissemination and privacy issues are covered. Key surveillance systems (communicable diseases, vital statistics, injury, cancer) are explored.

**EPID 6635 | Communicable Disease Epidemiology | 2.0 Credits | Campus: AMC – Spring (Prereq: EPID 6630)**

This course considers the epidemiology of selected communicable diseases. Methods for their prevention and control, and assessment of these methods will be treated primarily through case studies.

**EPID 6640 | Investigation of Disease Outbreaks | 2.0 Credits | Campus: AMC – Summer (Prereq: EPID 6630)**

The investigation of infectious disease outbreaks requires a range of public health and epidemiologic tools. Students apply descriptive and analytical epidemiologic methods to the detection, investigation and control of foodborne disease outbreaks.

**EPID 6670 | Special Topics: Epidemiology (Epidemiology and the Prevention of TB/HIV/STDs) | 2.0 Credits | Campus: AMC – Fall, Spring, Summer**

Special interest areas of current environmental and occupational research and practice are presented and analyzed. The course format is lecture and discussion or seminar. Check the CSPH website for offerings and topics for this course each semester.

**Practicum and Capstone**

---

October 29
| Practicum | • Public health experience outside the classroom  
• Work with preceptor in a practice setting  
• At least 120 hours  
• 2 credits (PUBH 6606)  
• Requires approval of Preceptor and Concentration Director or Academic Advisor  

Practicum Guide:  
http://www.ucdenver.edu/academics/colleges/PublicHealth/resourcesfor/currentstudents/academics/Pages/PracticeBasedLearning.aspx  

Contact: Katie Brumfield, Practicum Specialist – Colorado.sph.practicum@ucdenver.edu – 303.724.5585 – or – Heidi O’Mara, Senior Practicum Coordinator – Colorado.sph.practicum@ucdenver.edu – 303.724.5634 |
|---|---|
| Capstone | • Capstone proposal preparation in HSMP 6990 (1 credit); define a project idea and develop it into a proposal to be implemented in Capstone Integration, often a continuation of the Practicum  
• This course will not be offered in the Summer  

Capstone Integration:  
• Enroll in Capstone Integration: PUBH 6995  
• 250-word abstract summarizing the capstone project  
• Oral presentation at the Public Health Forum  
• Poster presentation at the Public Health Forum  

Final written deliverable Capstone Experience Guide:  
http://www.ucdenver.edu/academics/colleges/PublicHealth/resourcesfor/currentstudents/academics/Pages/PracticeBasedLearning.aspx  

• Requires approval of Academic Advisor and registration code from Capstone Faculty
