THINGS TO KNOW AFTER YOUR VISIT

FOLLOW UP INFORMATION FOR STUDY PARTICIPANTS

Thank you for your participation in a University of Colorado research study. Your contribution is highly valued. Many precautions have been taken to protect your health during your time at the study site. This includes ensuring that participants and research staff are healthy at the time of your visit and that social distancing requirements such as use of masks, spreading out appointment times, and extra cleaning measures are followed.

WHAT SHOULD I DO IF I GET SICK?

Contact your healthcare provider if you or anyone who came with you to the study begin to experience any of the following symptoms:

- cough
- fever
- muscle pain
- headache
- new loss of taste or smell
- shortness of breath/difficulty breathing
- chills
- repeated shaking with chills
- sore throat

Alert anyone that you have been in contact with in the last 48 hours before you began experiencing symptoms. If you get sick in the two days after your visit to the study site, contact the University of Colorado research team at xxx-xxx-xxxx.

To protect your privacy, you only need to inform the researchers that you participated in their study and the day that you were there.

For more information on what to do if you are sick, refer to the CDC guidelines:

WHAT CAN I EXPECT IF SOMEONE I CAME IN CONTACT WITH GETS SICK?

If anyone that you interacted with during today’s visit falls ill in the next 48 hours, you can expect to get a phone call alerting of you of this potential exposure. The CDC recommends* that people who have been exposed to COVID-19 should:

- Stay at home until 14 days after exposure
- Maintain a distance of at least 6 feet from others
- Self-monitor for symptoms
- Avoid contact with vulnerable people.

Contact your healthcare provider if you begin to experience symptoms.

Contact xxxxx with any questions.

If you have any concerns about the safety measures in place during your visit, contact Cathy.Bradley@cuanschutz.edu.
