Dr Wilson, a physician whose career spans countries and cultures, served as director of the Center for Global Health from 2004 through 2010. The model and leadership of Calvin L Wilson, MD, has inspired this scholarship so that students from the University of Colorado and international students have an opportunity to engage in a culturally diverse clinical and/or research experience during their graduate training. Philosophically, this scholarship is grounded in a deep commitment to the long-lasting, positive value of international health care as it relates to broadening personal and academic perspectives. We are honored to be able to offer you the opportunity of this program scholarship.

Application deadline: March 13, 2017 (end of day)

Please submit with supporting materials in one email to: Michelle.Shiver@ucdenver.edu

Criteria for eligibility for this scholarship:

- You are a full-time, currently enrolled graduate student in good standing in one of the University of Colorado health-related programs.

- Preference given to projects in resource-poor and underdeveloped countries of the world, especially in the regions of sub-Saharan Africa, Asia and Latin American.

- Preference given to students in final year of study, but applications will be considered from a student in any year.

- If you received the Calvin Wilson Scholarship during the 2016 (previous) scholarship cycle, you are not eligible to apply for the 2017 cycle.

- If an applicant has received another scholarship administered by the Center for Global Health and is awarded this Calvin Wilson Scholarship, they must choose between the two scholarships. Only one Center for Global Health administered scholarship each application cycle is allowed.

- The number of awards given and amount of each scholarship award will be at the discretion of the Scholarship Committee. However, in general the award process will prioritize the number of students over the amount of the award. As an example, if $3000 is available for distribution in a year, it is preferable that three awards of $1000 each be given over one award of $3000. It is acceptable to give single awards to teams of students collaborating on a project, in addition to individuals, paid at the time of presentation and submission of report of your study following the completion of the work.

- You have a faculty supervisor at the University of Colorado and on site, and both agree on the project proposal (for foreign students, you will need to have a faculty supervisor at your home institution and at the University of Colorado).

- The Scholarship does not require that the student receive academic credit for the experience.

- Students should plan sufficient time to realistically complete their work (an absolute minimum of 6 weeks abroad). This work may include all or some of the following: scientific/controlled study, clinical work, language study and cultural adaptation.

- Proposals to fund international electives that include only clinical experience will not be considered. The elective should ideally include a combination of clinical experience compatible with the academic level of the student, language learning as appropriate, and socio-cultural immersion.
The Proposal must include:

1. Completion of the **application** information (see below). Regarding the budget – please itemize amount for airfare, estimated food/lodging and specified other expenses. We will not consider “miscellaneous” as a category. Remember to include the cost of supplemental health insurance. For University of Colorado and on site faculty contacts, please include complete information – name, title, university/department affiliation, telephone number, address, email address. You must include your anticipated dates of travel, as well as the number of weeks you plan to spend on the study.

2. **Personal statement** of how this fits into your overall educational plan (approx 1 page)

3. **Abstract** – maximum of one hundred words (very brief summary of the work you plan to do while there.)

4. **Description** of your work – clearly describe any pertinent background material; your intent, goals and intended outcomes, and a brief description of why you selected the work and the destination (i.e. what difference will it make that you do this?).

5. The description should not exceed five double-spaced typed pages.

6. A description of the review process planned for research on human subjects (if applicable). Any research project sponsored through the University of Colorado needs to at least go through an expedited review by COMIRB. Comment on **COMIRB approval** or at least a reasonable timeline to have this completed prior to your departure from the U.S. This is something that should be discussed with your University of Colorado faculty sponsor.

7. **References** used to describe any of the above.

8. Copy of any **surveys** to be used in the study, if applicable.

9. **3 letters of recommendation** – One from your University of Colorado faculty sponsor, one from your on-site sponsor in the country of study; the last can be from anyone, but should be from another person involved in your project if applicable.

10. Copy of your **CV**.

- You will be notified of the decision of the review and selection committee by April 28, 2017.

- If you are accepted for this Scholarship, you agree to present your findings at a University of Colorado forum, either the year you return or within six months of your return. Foreign students will be asked to give a presentation at the University of Colorado before returning to their home countries.

- With the assistance of your supervising faculty, you will write a report/scholarly paper. The report/scholarly paper will be a maximum of four pages. This report/scholarship paper will contain your overall learning and reflection on your learning. A copy of this report/scholarly paper is to be submitted to the Cal Wilson Committee (via e-mail to Michelle Shiver).

- Scholarship monies will be distributed **after** your presentation at a University of Colorado forum and your scholarship report/scholarly paper has been submitted. Per University scholarship policy, the monies will be disbursed into your bursars account at the University of Colorado. The monies will automatically go towards any outstanding balance in your account. If an outstanding balance does not exist, the financial aid office will request the monies be sent to you via check or direct deposit (whichever method you have established with their office).

- A copy of any paper published through this effort will be forwarded to us for our Scholarship files.

Thank you for your interest in international health science. Should you have questions regarding this Scholarship, please contact N Michelle Shiver, Administrator, Center for Global Health, email [Michelle.Shiver@ucdenver.edu](mailto:Michelle.Shiver@ucdenver.edu)
