Overall In Action
Social Determinants of Health

- Genes & Biology: 10%
- Physical Environment: 10%
- Clinical Care: 10%
- Health Behaviors: 30%
- Social & Economic Factors: 40%
Reframing Social Determinants

Health starts—long before illness—in our homes, schools and jobs..
Environment

Your neighborhood or job shouldn’t be hazardous to your health.
Poverty & Education

Your opportunity for health starts long before you need medical care.
Implicit Bias
Representative Government
