The School of Public Affairs (SPA) offers a thesis option for students meeting certain eligibility criteria. The thesis is undertaken in lieu of CJ 5561, Capstone/Advanced Seminar. These Guidelines set forth the eligibility criteria as well as an outline of the process to be followed in satisfying the requirements of the option.

**ELIGIBILITY**

The thesis option is available for MCJ students who have achieved an exceptional academic record and who wish to pursue independent research in greater depth than would normally be possible in CJ 5561. The option is particularly suitable for students who wish either to pursue the PhD degree or to enter a research or policy environment upon completion of the MCJ degree.

Minimum eligibility requirements include:

1. Matriculation in the MCJ program
2. Successful completion of all core and required concentration courses
3. Overall GPA of 3.75 or higher
4. Demonstrated ability to pursue research work, as evidenced by two submitted research papers developed in SPA courses or elsewhere
5. Preliminary identification of a thesis topic or area of interest
6. Agreement from CJ faculty member to serve as chair of the thesis committee
7. Agreement from faculty members to serve on the thesis committee

Minor exceptions to the above criteria may be made in exceptional cases and must be approved by the MCJ Program Director.

Eligible students will be expected to follow a prescribed process in completing the requirements of the thesis option. An overview of the process and procedures is provided below.

**PROCESS**

A student wishing to undertake the thesis option applies formally through her/his faculty academic advisor, first, to establish eligibility with respect to the above criteria, and, second, to identify appropriate faculty members to serve as the student’s three person Thesis Committee. The Thesis Committee will consist of a major member, a minor member and an outside member. The major advisor must be a full-time member of the SPA faculty; the second committee member may hold adjunct faculty status and the outside committee member may be a faculty member of another school or college at the UCD, at another University or an individual from the preferred community. (NOTE: Although the formal procedure entails application through the academic advisor, the student is encouraged to make informal contacts with appropriate subject-matter faculty to determine interest and availability.) Before the student will be allowed to enroll for thesis credit, the Thesis Committee must formally approve a written thesis proposal; including a thesis plan, proposal meeting, and a timetable for completion.
THE PRELIMINARY STEPS SHOULD BE INITIATED THE SEMESTER BEFORE THE STUDENT PLANS TO ENROLL FOR THESIS CREDIT.

Upon approval of the proposal, the student will be allowed to enroll in CJ 6950 Master’s Thesis, normally in two consecutive semesters (including summer semester), for a total of six academic credits. The grade of “In Progress” will be awarded until the thesis has been completed and approved. During this time, the student will work with the Committee in implementing the thesis plan. Upon completion, the student is required to present the final thesis work at a one-hour open colloquium.

The thesis document will be prepared in accordance with Guidelines for Preparing Master’s and Doctoral Theses available on the UCD Graduate School website http://www.cudenver.edu/Academics/Colleges/GradSchool/Pages/Graduate%20School.aspx. See also Graduate School Student Resources: http://www.cudenver.edu/Academics/Colleges/GradSchool/Pages/Student%20Resources.aspx.

In accordance with the Guidelines, the Graduate School requires 3 copies of your thesis.

PROCEDURE

1. Consultation with Faculty Advisor: When a student is thinking about writing a thesis, he/she should contact his/her academic advisor to establish whether or not the eligibility criteria are satisfied (see Part I) and to determine whether or not a thesis fits within the student’s overall academic program. This should be initiated a semester in advance of taking thesis credit. Following approval by the advisor, the following subjects should be broached:

   a. Possible research topic
   b. Approach to studying the research topic
   c. Time frame for completion
   d. Possible committee members

The outcome of this part of the process should be identification of the research topic and general plan as well as the identification of appropriate subject matter faculty to serve as major and minor members of the Thesis Committee.

2. Selection of Thesis Committee: The purposes of the Thesis Committee is to:

   a. Assist the student in completion of the thesis proposal
   b. Formally approve the thesis proposal
   c. Assist the student in implementing the thesis plan
   d. Review drafts of the thesis; and
   e. Approve the final copy of the thesis.

The student should select a major advisor who is knowledgeable about the research topic. He or she must be a full-time member of the SPA faculty. The student should be sure that the thesis advisor is interested in the topic, has time available, and is willing to
assume chair responsibilities. The thesis advisor will serve as Chairperson of the Thesis Committee.

In addition to the Thesis Advisor, the Thesis Committee is comprised of two additional members, the minor advisor, and the third committee member, who should be a fully qualified researcher in the subject matter of interest, but who needs not to be a full-time member of the SPA faculty. Adjunct SPA faculty members and full or part-time faculty members in other academic units at UCD are eligible.

3. Development of Thesis Proposal: After identifying a research topic, the student must prepare a thesis proposal. The proposal should contain the following:
   a. Literature Review
   b. Statement of the purpose and significance of the thesis
   c. Research hypotheses
   d. Discussion and justification of the methodology to be employed, including data sources
   e. Timetable for completion
   f. Necessary appendices (e.g., copy of survey or questionnaire)
   g. CITI course completion certificate and HSRC protocol approval

Committee approval of the thesis proposal is obtained through the completion of the Application for Thesis Option form provided as Attachment A. This document becomes a contract between the student and the School of Public Affairs and is part of the student’s permanent file. Five copies of the application should be submitted: one for each Committee member, one for the student and one for the student’s file.

4. Enrollment in CJ 6950 Master’s Thesis: Upon filing the required signed copies of the Application for Thesis Option form with thesis proposal attached, the student will enroll in CJ 6950 Master’s thesis, for an accumulated maximum of six credits taken over one or more semesters. These credits are in lieu of CJ 5561 Capstone/Advanced Seminar. To register for these hours please use the “Special Processing Form” available in the Student Services office. After you have obtained your committee chair’s signature, please submit directly to your student services team coordinator (Dawn Savage or Antoinette Sandoval) for processing. Registration must occur during registration add/drop period.

CJ 6950 is listed in the catalog for 3-6 credits per semester. The student is strongly advised to devise a timetable that will allow completion of the thesis over two consecutive semesters, possibly including the summer semester, in which case enrollment in CJ 6950 will be for three credits per semester. However, exceptions will be allowed, depending on circumstances. In any case, grades of “In Progress” (IP) will be awarded until the thesis is completed and formally approved, at which time a regular letter grade will be assigned. (See item 10.)

5. Conduct of Research: While enrolled in CJ 6950, the student will conduct the thesis research results under the supervision of the Thesis Committee. The student must be enrolled in this course in order to qualify for faculty support. All research must receive IRB approval.

6. Preparation of Thesis Draft: With guidance from the Committee, the student prepares a thesis draft in accordance with the timetable. In preparing this draft, specifications
provided in Guidelines for Preparing Master’s and Doctoral Thesis (2000) should be followed. Copies of this document are available on the UCD Graduate School website.

The student should expect that several drafts will typically be required before the Thesis Committee provides formal approval.

7. Preparation of Final Thesis Copy: When the draft thesis has been reviewed and verbally approved by the Thesis Committee, the student may begin to prepare the final copy. The final copy should be consistent with the Guidelines mentioned above. In addition, the Graduate School (CU-300) have special deadlines for thesis format review and submission that conform to the University dates related to graduation (please check with SPA office).

8. Completion of Approval of Thesis Form: After a final copy is completed, it must be formally approved by the Thesis Committee using the Approval of Thesis form provided as Attachment B. The signed Approval of Thesis form will be placed in the student’s file. The Committee also signs an approval page in the final thesis copy.

9. Thesis Colloquium: The thesis results will be presented at a one-hour open colloquium to which all members of the SPA community will be invited. Student must bring the Approval Page that will be inserted into final thesis, two copies on bond, and one on ordinary paper (bring more if you are having additional copies bound). Original committee member signatures are required.

10. Scheduling Thesis Presentation: When you finalize with your committee the date and time of your presentation, please submit the attached presentation and schedule form to your student services team coordinator (fax or email). When this form is submitted, your student services team coordinator will assign you to a conference space at SPA and reserve any media equipment requested. You will then be emailed a confirmation of arrangements.

11. Grading of Thesis: The thesis is graded by the Thesis Committee Chairperson in consultation with the members of the Committee. The thesis will receive a letter grade, which will take into consideration quality of the colloquium performance.

12. Duplication and Binding of Thesis: After final approval has been completed, the student should duplicate at least three copies of the thesis, according to Guidelines for Preparing Master’s and Doctoral Theses. Again, the student must meet Graduate School deadlines for thesis format review, defense date, and submission of final thesis. Please see your student services team coordinator for deadline dates.

13. Thesis Costs: The student needs to be aware of and plan for the incidental costs (e.g., supplies, reproduction, binding) that will be incurred in the process of writing and submitting the thesis. All such costs are the student’s responsibility.
