

Submitting a Video Assignment

There are a number of options for creating, editing, and submitting a video assignment, and a variety of resources are linked at the bottom of this document for your reference.

For the sake of simplicity we are focusing on only two options for this assignment.

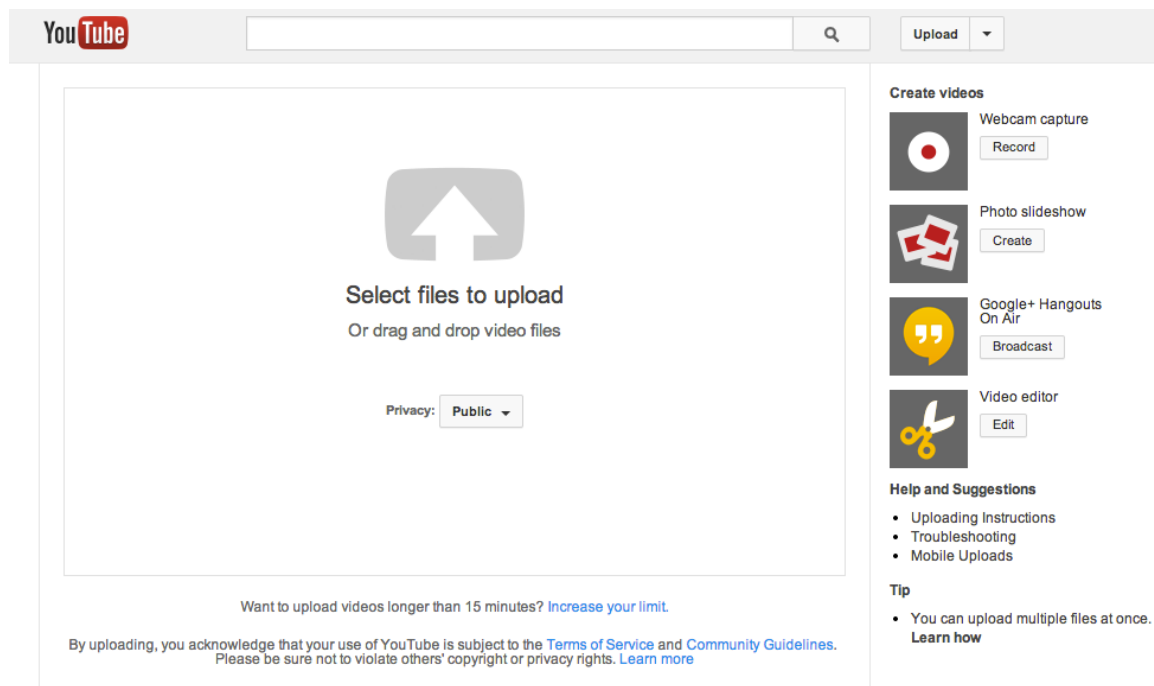

(1) **Thumb Drive:** submit your completed video file to your instructor on a thumb-drive.

(2) **YouTube:** upload your completed video to YouTube and submit the URL to your instructor.

YouTube Quick Start

YouTube videos can be set to private, and you can share directly/only with your instructor. YouTube allows direct recording from a webcam. To use YouTube you will need a free [Google Account](https://accounts.google.com/SignUp). (<https://accounts.google.com/SignUp>)

Go to [Youtube.com](https://www.youtube.com) and click on  (top center). You will be prompted to login and then the following page will load.

Note you have options for recording directly from a webcam and for video editing (click and follow the prompts to use these tools – or see YouTube resources at the end of this document).

Submitting a Video Assignment

To upload a video, drag your video file to the upload icon in the middle of the screen where it reads '**Select files to upload**' and drop it over the icon.

Once the upload is complete you will be able to set your video preferences, including your privacy settings. Videos are public by default.

Select your **Privacy Settings**

- **Public** videos are publicly viewable and findable by anyone. (not private)
- **Unlisted** videos are publicly viewable, but not listed anywhere for the public to easily find. You email them the video link. (less private)
- **Private** videos are only viewable by people you indicate. You grant permission and email them the video link. (more private)

Select your video's privacy setting with the drop-down menu under **Privacy settings** (upper right). If you select **Private**, you will have an option of adding people who have permission to see your video – add your instructor's email address.

Change this

Privacy settings ?

Public

to this

Privacy settings ?

Private

Only people you choose can view

elizabeth.mahon@ucdenver.edu

+ Add more people

The image shows two screenshots of a video upload interface. The top screenshot shows the 'Privacy settings' dropdown menu set to 'Public'. The bottom screenshot shows the 'Privacy settings' dropdown menu set to 'Private', with a list of people who can view the video. One person, 'elizabeth.mahon@ucdenver.edu', is listed with a blue background and a close button. Below the list is a '+ Add more people' link.

Click on **Save** (lower right).

Your YouTube video is now ready. The link to your video is located near the top of the window next to the video title.

Copy this link and send it to your instructor.
