

## *How it works*

The Circle of Giving is a great way for members to become actively involved in and impact the work of the faculty in the School. Members each make a donation which is then pooled together in order to make influential gifts to the School that help faculty extend the impact of their work.

Members will choose how to spend these resources by reviewing proposals submitted annually by the School's faculty.

Giving this way maximizes the impact of charitable dollars supporting our students and faculty.

## *Our Mission*

The mission and vision of the School of Education & Human Development is to prepare and inspire education and mental health leaders to have a profound impact in fostering student opportunity, achievement and success in urban and diverse communities. Through innovative research and partnerships, we strive to be passionate agents of change, inspiring upcoming generations to learn from the past and shape the future.
