GRADUATE

DENVER’S BUSINESS SCHOOL

The future of business education in the Rocky Mountain region is here, at the University of Colorado Denver’s Business School. Located in Denver’s vibrant downtown, the Business School’s extensive range of degree programs and innovative industry specializations keep pace with the needs of students and businesses in the region and beyond. Flexible class schedules, AACSB accreditation, and a focus on real-world application make the Business School a top choice for working professionals. Graduates leave with skills and knowledge that prime them for careers of significance.

A GLOBAL PERSPECTIVE

An MS in International Business (MSIB) from the University of Colorado Denver’s Business School opens opportunities for dynamic careers in global business. MSIB students learn cutting-edge knowledge and skills to help them conduct business across borders.

Our innovative MSIB curriculum combines solid grounding in business foundations, knowledge of international business environments and operations and proficiency in a foreign language. Our degree emphasizes action learning, such as interactive case studies, international consulting projects, internships, and study-abroad trips.

A CONNECTED FUTURE

To be successful in the international business arena, it is important to develop an awareness of the issues connected with operating businesses within and across different economies, different political systems, and different cultures. International business graduates tend to be open-minded, flexible, curious, adaptable and independent.

Many U.S. businesses have gone global in the past decade, with growth continuing at a steady pace. Future opportunities are virtually endless. Foreign language proficiency is a clear asset for any position in a global company.

The University of Colorado Denver is the only school in Colorado, and one of only 17 nationwide, granted the U.S. Department of Education’s prestigious designation as a Center for International Business Education Research (CIBER), an honor earned in large part through the excellence of the international business program.

“...The opportunity to engage with faculty and share ideas with a dynamic peer network allowed me to blend theoretical course material with practical implementation. Today, I work with a diverse team around the world to increase exports of high-quality U.S. agriculture products. The knowledge and experiences I gained in the MSIB program have given me the background to address critical global issues and help businesses compete in a global economy.”

Patty Lalich, MBA + MSIB, Director of Programming and Planning Development, U.S. Meat Export
