RISK 6129: Practical Enterprise Risk Management

Course Description: Enterprise risk management involves identifying the risks and opportunities faced by a firm, assessing them, developing and implementing a plan to address them, and then monitoring progress. In this course, students will learn the basics of ERM while working with risk management professionals to develop and present such a plan to an ongoing business.

RISK 6309: Strategic Risk Management

Course Description: This course introduces strategic risk management, the process of managing the uncertain and unknown risks to a firm’s plan to add value to its owners and society.

RISK 6509: Global Risk Management

Course Description: This is a unique 3-week international intensive course offered during Maymester, including a visit to London. It is a distinctive immersion to explain how risk is transferred globally, through standard insurance markets, surplus lines markets, Lloyds of London and reinsurers.

RISK 6800: Special Topics: Cyber Risk Management & Cyber Warfare

Course Description: This course will focus on the evolution of cybercrime, cyber warfare and cyber terrorism, how state and non-state actors utilize asymmetrical warfare to infiltrate government and corporate networks, to manage the risks associated with information technology and mitigate the effects of cybercrime and cyber warfare.

RISK 6809: Principles of Risk Management & Insurance

Course Description: This course prepares students for advanced work in insurance and risk management. The course first covers the nature of risk and risk fundamentals, insurer operations and insurance regulation. It then considers the principal techniques of managing risk exposures and the basis of decision making in management of business and personal risks.

RISK 6909: Corporate Risk Management

Course Description: This course provides an overview of the corporate risk management process. It considers the ways companies identify their risk exposures, the tools used to measure and mitigate those exposures including the latest developments in alternative risk transfer, and ultimately, how risk management adds value to the firm.
