<tr>
<td>Children’s Hospital – <a href="http://www.childrenscolorado.org">http://www.childrenscolorado.org</a></td>
</tr>
<tr>
<td>At Children’s Hospital Colorado, we see more, treat more and heal more kids than any hospital in our seven-state region. We're experienced and forward-thinking when it comes to the latest methods for diagnosis and treatment. This translates into less invasive treatment, less time, and less stress on you and your children. Since we are always pioneering new ways of curing childhood diseases, your child will receive the most effective care years before it may become available at other hospitals.</td>

<tr>
<td>Denver Health – <a href="http://www.denverhealth.org">http://www.denverhealth.org</a></td>
</tr>
<tr>
<td>Denver Health is a comprehensive, integrated organization providing level one care for all, regardless of ability to pay. Twenty-five percent of all Denver residents, or approximately 150,000 individuals, receive their health care at Denver Health. One in three children in Denver are cared for by Denver Health physicians as well. As Colorado's primary safety net institution, Denver Health has provided billions of dollars in uncompensated care. Denver Health is an integrated, efficient, high-quality health care system serving as a model for other safety net institutions across the nation.</td>

named University of Colorado Hospital the best hospital in Colorado in 2012. The hospital’s physicians are affiliated with the University of Colorado School of Medicine, part of the University of Colorado system. Based on the expansive Anschutz Medical Campus in Aurora, CO, the hospital is where patient care, research and education converge to establish the future of health care delivery. UCH is one of five Colorado hospitals that make up University of Colorado Health (UCHealth). (UCHEALTH.ORG)

Veterans Administration Hospital - http://www.denver.va.gov
Since 1951 the Eastern Colorado Healthcare System has provided quality care to veterans of our community and surrounding areas. From surgery to diagnostics, primary care to rehabilitation, depend on us for care focused on America's heroes - focused on you! Construction of our 1.1m sq foot, $800m replacement facility is well under way! Concrete is being poured, steel is being put in, and we're working hard to open in 2015.

HEALTHCARE CORPORATIONS
Air Methods – http://www.airmethods.com
We built our reputation on a commitment to quality patient care and safety in aviation operations. Since 1980, we have been dedicated to air medical transport and have grown to become the most experienced air medical operator in the industry. We continue to maintain our industry-leading position. While we call Centennial Airport in Englewood, Colorado home, our operations expand from Alaska to Key West. Currently, we have more than 300 bases of operations that serve 48 states.

Catholic Health Initiative – http://www.catholichealthinit.org
Catholic Health Initiatives is a national nonprofit health system with headquarters in Englewood, Colo. The faith-based system operates in 18 states and includes 86 hospitals; 40 long-term care, assisted- and residential-living facilities; two academic medical centers; two community health-services organizations; two accredited nursing colleges; and home health agencies. Currently, CHI ranks as the nation’s third-largest faith-based health system, with annual operating revenues of more than $12 billion and approximately 85,500 employees. In fiscal year 2012, CHI provided more than $715 million in charity care and community benefit, including services for the poor, free clinics, education and research.

CereScan – http://www.cerescan.com
Our goal is to help improve your quality of life through better science. We specialize in state of the art functional brain imaging utilizing a proprietary process including the latest generation high-resolution gamma camera, the industry’s leading brain image reconstruction software, specially trained board-certified physicians and research-based knowledge to provide unparalleled diagnostic medical reports. This superior process, combined with our warm, patient centered focus of care enables CereScan to provide patients and professionals with the highest level of neuroimaging in the country.

Coram Specialty – https://www.coramhc.com
When it really matters, the people, products, and services that Coram provides can have a lasting positive impact on our patients’ lives. As an industry leader, Coram cares for patients through a national network of more than 85 locations, including over 65 ambulatory infusion suites. Coram provides infusion therapies and services to over 20,000 patients each month, supporting care through all phases of their healthcare continuum. With over 30 years of experience providing infusion care, Coram employs a knowledgeable, dedicated clinical staff to manage patients with complex infusion needs.

DaVita, Inc. – http://www.davita.com
DaVita is the dialysis division of DaVita HealthCare Partners Inc., a Fortune 500® company that, through its operating divisions, provides a variety of health care services to patient populations throughout the United States and abroad. A leading provider of kidney care in the United States, DaVita delivers dialysis services to patients with chronic kidney failure and end stage renal disease. DaVita strives to improve patients’ quality of life by innovating clinical care, and by offering integrated treatment plans, personalized care teams and convenient health-management services. As of March 31, 2013, DaVita operated or provided administrative services at 1,991 outpatient dialysis centers located in the United States serving approximately 156,000 patients. The company also operated 41 outpatient dialysis centers located in five countries outside the United States.

iTriage Health - https://www.itriagehealth.com
iTriage LLC, headquartered in Denver, Colorado, is a global health care technology company founded in 2008 by two emergency medicine physicians. The company’s market-leading platform and mobile/Web applications offer a proprietary Symptom-to-Provider pathway that empowers consumers to make better health care decisions.

McKesson Health Solutions – http://www.mckesson.com/
By partnering with clients and listening to their needs, McKesson Health Solutions delivers unique solutions for integrated care management that enable payors, providers and patients to come together to transform the business and process of care. McKesson Health Solutions helps organizations bolster their care management processes, control chronic health conditions, guide level-of-care decisions, determine risk, forecast future needs, and manage their claims payment cycle. Crafted under the scrutiny of hundreds of consultative physicians and nurses, the company’s solutions are renowned for clinical integrity and are built on the highest level of technological expertise and operational excellence.
Mobile Physician Technologies – [http://www.par3emr.com](http://www.par3emr.com)
Our mission is to promote the adoption of clinician-centric electronic medical record technology to revolutionize the quality of resident care in LTC and ALFs. We create an opportunity for nursing home EMR software to improve provider communication and share information. Using innovative EMR software with electronic drug regimen review from Mobile Physician Technologies to reduce medication errors, we increase physician participation into patient care decisions to improve resident safety.

PharmaFutures, Inc. – [http://pharmafutures.org](http://pharmafutures.org)
PharmaFutures is a multi-year, investor-led dialogue between the pharmaceutical industry and its investors about how to manage a rapidly changing operating environment to deliver long-term value both to society and to shareholders. The project was initiated in 2004 as a scenario-planning exercise and has evolved to a more practically oriented, solutions-focused exploration of the link between sustainable pharmaceutical business models and global health outcomes.

Physicians Ally, Inc. is interested in all aspects of helping physicians with the business of running a profitable practice. We are constantly evaluating the physician practice marketplace for areas of need, and have identified that “Compliance Planning” is a big area where physician practices might like some help.

TriZetto – [http://www.trizetto.com](http://www.trizetto.com)
TriZetto delivers world-class information solutions that enable healthcare organizations to work more efficiently and collaboratively to deliver better health. TriZetto solutions reach 200,000 care providers, streamline processes for more than 360 payers and touch over half the U.S. insured population. TriZetto solutions help health plans and TPAs increase administrative efficiency, improve the cost and quality of care, and succeed in the retail healthcare market. TriZetto solutions help physicians and health systems simplify business processes and execute strategies for population health management, accountable care, and value-based initiatives. TriZetto’s healthcare expertise, innovative solutions and comprehensive services help simplify healthcare.

Vizient – [https://www.vizientinc.com/](https://www.vizientinc.com/)
We are the nation’s largest member-owned health care services company. Backed by network-powered insights in the critical areas of clinical, operational and supply chain performance, Vizient™ empowers members to deliver exceptional, cost-effective care at every turn. Together with our members, we are fueling new business models and new approaches to care—all through the power of brilliant connectivity. Through our networks, Vizient connects members with opportunities to learn, improve and build together. We deliver brilliant, data-driven resources and insights—from benchmarking and predictive analytics to cost-savings—to where they’re needed most: the frontlines of today’s dynamic health care ecosystem. We exist to help you adopt world-class practices and solutions more quickly and effectively, while balancing the demands of clinical care and financial performance. We help solve your financial, operational and quality of care needs so you can focus on what you do best: serving your patients and communities to drive a better quality of life.

Volante Capital invests in health care services companies to improve quality, increase efficiency, and create greater transparency. Volante helps to create extraordinary shareholder value in health care companies. Through our efforts, we are proud of the significant impact our portfolio companies have on people’s health. We also look for opportunities that provide disruptive innovation in healthcare.

Welltok – [http://welltok.com](http://welltok.com)
Welltok, the leading consumer health enterprise Software as a Service company, empowers consumers to achieve their optimal health. Its award-winning CaféWell Health Optimization Platform connects consumers with available and relevant benefits, resources and rewards by designing personalized action plans. Additionally, the company’s technology-enabled services leverage both advanced analytics to derive meaningful consumer insights and multi-channel communications to reach consumers through the right channel with the right message.
