COMPANIES

Agilent - http://www.home.agilent.com
As the world’s premier measurement company, Agilent offers the broadest range of innovative measurement solutions in the industry. The company's four businesses - Chemical Analysis, Life Sciences, Diagnostics and Genomics, and Electronic Measurement — provide customers with products and services that make a real difference in the lives of people everywhere. And at Agilent Research Laboratories, we conduct research that anticipates customer needs and produces breakthroughs that power growth.

Alcatel Lucent - https://www.alcatel-lucent.com
Alcatel-Lucent is at the forefront of global communications, providing products and innovations in IP and cloud networking, as well as ultra-broadband fixed and wireless access to service providers and their customers, enterprises and institutions throughout the world. Bell Labs, an integral part of Alcatel-Lucent and one of the world’s foremost technology research institutes, are responsible for countless breakthroughs that have shaped the networking and communications industry. Alcatel-Lucent has been recognized by Thomson Reuters as a Top 100 Global Innovator, named by MIT Technology Review as amongst 2012’s Top 50 “World’s Most Innovative Companies” and ranked Technology Supersector Leader by the Dow Jones Sustainability Index in 2012 for making global communications more sustainable, affordable and accessible, all in pursuit of the company’s mission to realize the potential of a connected world.

Arrow – http://www.arrow.com
Arrow Electronics is a global provider of products, services and solutions to industrial and commercial users of electronic components and enterprise computing solutions, with 2012 sales of $20.4 billion. Arrow serves as a supply channel partner for over 100,000 original equipment manufacturers, contract manufacturers and commercial customers through a global network of more than 470 locations in 55 countries. A Fortune 150 company with 16,500 employees worldwide, Arrow brings technology solutions to a breadth of markets, including telecommunications, information systems, and transportation, medical, industrial and consumer electronics.

Avaya – http://www.avaya.com/usa
Avaya is a leading global provider of next-generation business collaboration and communications solutions, providing unified communications, real-time video collaboration, contact center, networking and related services to companies of all sizes around the world. Avaya helps our customers bring people together with the right information at the right time in the right context, enabling business users to improve their efficiency and quickly solve critical business challenges. Because our solutions are based on open standards, our customers can decide what works best for them. Our objective is to give people the best collaboration experience, regardless of the devices, locations, or media they choose.

Convergys - http://www.convergys.com
As a leader in customer management for over 30 years, Convergys (NYSE: CVG) is uniquely focused on helping companies find new ways to enhance the value of their customer relationships and deliver consistent customer experiences across all channels and geographies. Every day our 75,000 employees help our clients balance the demands of increasing revenue, improving customer satisfaction, and reducing overall cost using an optimal mix of agents, technology, and analytics. Our actionable insight stems from handling billions of customer interactions annually for our clients. Among Fortune 500 companies, over half of the top 50 are clients that trust their most important relationships to Convergys.

CSG Systems International, Inc. (NASDAQ:CSGS) is a market-leading business support solutions and services company serving the majority of the top 100 global communications service providers, including leaders in fixed, mobile and next-generation networks such as AT&T, Comcast, DISH Network, France Telecom, Orange, T-Mobile, Telefonica, Time Warner Cable, Vodafone, Vivo and Verizon. With over 30 years of experience and expertise in voice, video, data and content services, CSG International offers a broad portfolio of licensed and Software-as-a-Service (SaaS)-based products and solutions that help clients compete more effectively, improve business operations and deliver a more impactful customer experience across a variety of touch points.
EMC – http://www.emc.com
EMC is a global leader in enabling businesses and service providers to transform their operations and deliver information technology as a service (ITaaS). Fundamental to this transformation is cloud computing. Through innovative products and services, EMC accelerates the journey to cloud computing, helping IT departments to store, manage, protect and analyze their most valuable asset — information — in a more agile, trusted and cost-efficient way. We work with organizations around the world, in every industry, in the public and private sectors, and of every size, from startups to the Fortune Global 500. Our customers include global money center banks and other leading financial services firms, manufacturers, healthcare and life sciences organizations, Internet service and telecommunications providers, airlines and transportation companies, educational institutions, and public-sector agencies.

Google – http://www.google.com/about/company
We've come a long way from the dorm room and the garage. We moved into our headquarters in Mountain View, California—better known as the Googleplex—in 2004. Today Google has more than 70 offices in more than 40 countries around the globe. Though no two Google offices are the same, visitors to any office can expect to find a few common features: murals and decorations expressing local personality; Googlers sharing cubes, yurts and "huddles"; video games, pool tables and pianos; cafes and "microkitchens" stocked with healthy food; and good old fashioned whiteboards for spur-of-the-moment brainstorming.

Hitachi Data Systems – http://www.hds.com
Hitachi Data Systems provides information technologies, services and solutions that help companies improve IT costs and agility, and innovate with information to make a difference in the world. Our customers gain compelling return on investment (ROI), unmatched return on assets (ROA), and demonstrable business impact. We have approximately 6,000 employees worldwide and we conduct business in more than 100 countries and regions. Our products, services and solutions are trusted by the world’s leading enterprises, including more than 70% of the Fortune 100 and more than 80% of the Fortune Global 100.

HP - http://www.hp.com
HP creates new possibilities for technology to have a meaningful impact on people, businesses, governments and society. The world’s largest technology company, HP brings together a portfolio that spans printing, personal computing, software, services and IT infrastructure to solve customer problems. HP (NYSE: HPQ)

IBM is a globally integrated technology and consulting company headquartered in Armonk, New York. With operations in more than 170 countries, IBM attracts and retains some of the world’s most talented people to help solve problems and provide an edge for businesses, governments and non-profits. Innovation is at the core of IBM’s strategy. The company develops and sells software and systems hardware and a broad range of infrastructure, cloud and consulting services. Today, IBM is focused on four growth initiatives - business analytics, cloud computing, growth markets and Smarter Planet. IBMers are working with customers around the world to apply the company’s business consulting, technology and R&D expertise to build systems that enable dynamic and efficient organizations, better transportation, safer food, cleaner water and healthier populations.

Integro – http://www.integro.com
Since 1995, Integro has been helping companies manage and control their ever-increasing data. An industry recognized product and services company, Integro specializes in solutions for Enterprise Content Management, Information Governance, Email Management, eDiscovery, and Records Management. Hundreds of companies trust Integro because of our proactive approach to managing email, records and enterprise content. Our solutions directly impact the bottom line, drastically reducing eDiscovery and IT management costs, supporting defensible disposal, minimizing risk, ensuring regulatory compliance, and boosting user productivity.

Latisys - http://www.latisys.com
Latisys was founded in June, 2007 by three highly experienced industry executives and in conjunction with Great Hill Partners and Catalyst Investors - with a mission to deliver industry-leading colocation, managed hosting and managed services to small-, medium- and enterprise-class businesses alike. Today, with high-density Tier III data centers located in all four U.S. time zones, Latisys customers not only receive local solutions to reduce their own capital expenditures for storage and ongoing maintenance, but a national reach for safe and secure managed backup and disaster recovery solutions. Latisys’ facilities have completed SOC 2 Type II and SOC 3 Audit Reports and are located in Irvine, CA (formerly InteleNet), Denver, CO (formerly Data393), Chicago, IL (formerly Stargate). And they recently expanded into the Greater
Washington DC area with a 123,000 sq. ft. data center campus in Ashburn, VA (formerly Pryme Technologies)

**MapQuest** – [http://company.mapquest.com](http://company.mapquest.com)

MapQuest is one of the leading mapping brands online, reaching 33.6 million web users in January 2013 and 16.1 million mobile users in December 2012, according to comScore Media Metrix and MobiLens. MapQuest’s mobile solutions are compatible with a variety of mobile devices, including iPhone and Android devices. MapQuest, Inc., a wholly owned subsidiary of AOL Inc, is based in Denver, Colo.

Over 65,000 customers worldwide rely on Oracle's complete, open and integrated enterprise applications to achieve superior results. Oracle provides a secure path for customers to benefit from the latest technology advances that improve the customer software experience and drive better business performance. Oracle Applications Unlimited is Oracle’s commitment to customer choice through continuous investment and innovation in current applications offerings. Oracle's next-generation Fusion Applications build upon that commitment, and are designed to work with and evolve Oracle's Applications Unlimited offerings. Oracle's lifetime support policy helps ensure customers will continue to have a choice in upgrade paths, based on their enterprise needs.

**Ping Identity** - [https://www.pingidentity.com](https://www.pingidentity.com)
Ping Identity believes secure professional and personal identities underlie human progress in a connected world. Our identity and access management platform gives enterprise customers and employees one-click access to any application from any device. Over 1,000 companies, including half of the Fortune 100, rely on our award-winning products to make the digital world a better experience for hundreds of millions of people.

**Raytheon** – [http://www.raytheon.com](http://www.raytheon.com)
Raytheon today is a unique technology company and a world leader in defense electronics, with a broad range of products, service and capabilities. The proud legacies of Raytheon, E-Systems, Texas Instruments Defense, Hughes Aircraft and others have come together to form one company with one vision: to be the most admired defense and aerospace systems company through our world-class people, innovation and technology. Raytheon Company, with 2012 sales of $24 billion and 68,000 employees worldwide, is a technology and innovation leader specializing in defense, homeland security and other government markets throughout the world. With a history of innovation spanning 91 years, Raytheon provides state-of-the-art electronics, mission systems integration and other capabilities in the areas of sensing; effects; and command, control, communications and intelligence systems, as well as a broad range of mission support services. With the hard work and dedication of tens of thousands of employees around the world, Raytheon is well equipped to meet the needs of its customers in more than 80 countries – today, tomorrow and well into the 21st century.

**SAP** - [http://www.sap.com](http://www.sap.com)
As market leader in enterprise application software, SAP (NYSE: SAP) helps companies of all sizes and industries run better. From back office to boardroom, warehouse to storefront, desktop to mobile device – SAP empowers people and organizations to work together more efficiently and use business insight more effectively to stay ahead of the competition. SAP applications and services enable more than 248,500 customers to operate profitably, adapt continuously, and grow sustainably.

**SendGrid** – [http://sendgrid.com](http://sendgrid.com)
Founded in 2009, after graduating from the TechStars program, SendGrid has developed a cloud based service that solves the challenge of email delivery by delivering emails on behalf of companies. SendGrid eliminates the complexity of sending email, saving time and money, while providing reliable delivery to the inbox. With over a decade of thought-leadership backed by a stellar record of delivering email, SendGrid is climbing to new heights.
