Local Anesthesia for Dental Hygienists

The Colorado Dental Practice Act was one of the first that allowed dental hygienists to administer both block and infiltration local anesthesia. The practice act states that specific training requirements must be met to receive Local Anesthesia privileges from the Colorado Board of Dental Examiners.

Our 24-hour course in local anesthesia has been designed to comply with the educational requirements of the Rules and Regulations of the Dental Practice Act of Colorado as well as many other state boards.

Through lecture, demonstration, laboratory and clinical experiences, participants will learn the management of pain through the administration of local anesthetic agents.

This course is a must for those of you who have not successfully completed a 24-hour course in local anesthesia, including block anesthesia, as part of your accredited dental hygiene program or in a formal continuing education course by an ADA accredited school.

Detailed information on course preparation will be sent to you upon receipt of registration and will include guidelines for types of patients required during the last clinic session.

Tuition: $745  
Registration Deadline: April 19, 2013

Textbook: *Handbook of Local Anesthesia*  
by Stanley Malamed, DDS

Participants are responsible for obtaining their own copy of the course textbook.

Location: Anschutz Medical Campus, Education 2 North, Aurora, Colorado  
C.E. Credit: 24 hours

Prerequisites for this Course:

Copies of the following must accompany your registration:

- A copy of your current dental hygiene license
- A copy of your current CPR certification card
- Proof of malpractice insurance

Course Faculty

Professor and Chair of Periodontics  
Department of Surgical Dentistry  
University of Colorado School of Dental Medicine

Michael G. Savage, DDS  
Professor and Chair of Oral Surgery  
Department of Surgical Dentistry  
University of Colorado School of Dental Medicine

Donna Stach, RDH, MEd  
Professor  
Department of Surgical Dentistry  
University of Colorado School of Dental Medicine

Course Objectives

At the conclusion of this course, you will be able to:

- Assess and treatment plan local anesthesia injections taking into account the patient’s medical status, dental treatment needs and anatomy, the pharmacology of drugs available and armamentarium.
- Safely and effectively administer local anesthetic injections - both infiltrations and blocks
- Evaluate the effectiveness of the local anesthesia and both recognize and appropriately manage any complications.

The University of Colorado School of Dental Medicine is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The University of Colorado School of Dental Medicine designates this activity for 24 continuing education credits.

Refund Policy: $75.00 of tuition payment (per registrant) is NON-REFUNDABLE unless the course is completely enrolled when the registration is received or the course is cancelled by the School of Dental Medicine. Refund of the remainder of tuition will be allowed only if refund request is received in writing TWO WEEKS PRIOR to course offering. The Office of Continuing Dental Education reserves the right to cancel a course if the need arises. A full refund will be made automatically if the course is not held. NO REFUNDS WILL BE MADE FOR NON-ATTENDANCE.

Registrants are responsible for their own travel, lodging arrangements and expenses.

Statement of Purpose and Policy: The Office of Continuing Dental Education at the University of Colorado School of Dental Medicine is financed entirely with revenues from its programs; it does not receive any operating funds from the state government. Its mission is to offer courses in response to the interest of the dental community to the highest standards of instructional quality, and to ensure a diversity in programs consistent with the university’s commitment to academic freedom. Therefore, course sponsorship does not necessarily indicate endorsement of course content by the University of Colorado School of Dental Medicine.
