Tobacco-tax surge makes state ballot

Chris Stille, a pediatrician at Children’s Hospital Colorado on behalf of the main group pushing it, Campaign for a Healthy Colorado: “Passing this measure will save lives. It will stop tobacco companies from getting more kids addicted, and it will make a historic investment in health care programs and medical research to help Coloradans most affected by smoking.”

16 Ways Your Body Adjusts to a New Climate

“The higher you go, the longer it takes to adjust,” says Benjamin Honigman, a professor of emergency medicine at University of Colorado School of Medicine.

*U.S. News & World Report, Aug. 24, 2016*
Oscar Reiss received his World War II medals at a ceremony arranged by Congressman Ed Perlmutter on Aug. 3. “In 1959, I moved to Denver for a position at the Webb-Waring Lung Institute, which was associated with the University of Colorado Medical School. We did some of the early research on emphysema and smoking. I also worked with medical students during this time.”
