OUT OF THIN AIR: **The Triumph & Tragedy of Fritz Haber** *Can Science Be Moral?*

JOSEPH GAL, PHD

Professor Emeritus, CU School of Medicine

In 1910 German chemist Fritz Haber, winner of the 1918 Nobel Prize in Chemistry, invented a method for the production of nitrogen fertilizers, thereby saving millions from death by famine. Haber also played a major role in the development of Germany's chemical warfare program in World War I.

Monday, September 10th
