Despite the rain, Strike out Stroke 2015 was a success. Autumn did an awesome job throwing out the first pitch, and Maggie was so patient through all the rain delays!

On July 1st a group of our teens got together to bowl, play games, and get to know each other. Many of them got together again later in the summer to try out rock climbing. It was a great experience for all! A special thank you to Braden Everly for attending! Braden suffered a stroke at the age of 12. Braden is now 25 years old and is a true inspiration!

Are you in need of financial assistance for treatment purchases for your child?  
1) Remember to check out the resources at CHASA http://chasa.org/. They offer financial assistance to families who have a child with a medical need for a foot or hand brace that is not covered or not fully covered by their health benefit plans. As funding permits, CHASA also awards scholarships to young athletes who have had hemiplegia since childhood that are competing in an athletic event.

2) The Professional Miracles Foundation is a local agency that seeks to help sick or disabled children and their families. They offer grants up to $2000. Our very own Jake Morgan was just awarded a grant to help purchase an adaptive bike! http://www.professionalsmiraclesfoundation.com/

World Pediatric Stroke Day is set for October 29th, 2015

Visit this link http://united4pediatricstroke.org/ to:

1) Be Visible! Put your pediatric stroke story on the map. Let’s show the world that Colorado supports pediatric stroke!

2) Be Heard! Share the graphics on the webpage. Let your voice be heard for pediatric stroke!

3) Unite for Change! Help to ensure that awareness and education grows for pediatric stroke. Check out the resources page to help educate others about pediatric stroke.
