Male and Female Volunteers Needed for a Research Study

This study will evaluate exercise function in people with and without type 2 diabetes.

To qualify you must:
- Be male or female between 30 and 70 years old
- Be generally healthy with or without type 2 diabetes (not using insulin)
- Be a non-smoker
- Currently exercise no more than once per week
- Have a Body Mass Index less than 23 or 25-40

You Can Check your BMI at http://www.nhlbisupport.com/bmi/

Study Procedures Include:
- Physical exam and blood draws
- Assessment of body composition, insulin sensitivity, blood vessel function, cardiac function, and exercise capacity
