Do You Have Type 2 Diabetes?

Volunteers needed for an exercise research study evaluating two FDA-approved medications

Purpose

This research study will evaluate the effects of two approved diabetes medications on cardiovascular function during exercise.

To qualify you must:
- Be a man or woman between 22 and 70 years old
- Be generally healthy, with type 2 diabetes
- Be taking metformin only for your diabetes
- Be a non-smoker
- Have a Body Mass Index greater than 25.0

Study Procedures Include:
- Physical exam, blood draws
- Three months of an FDA-approved diabetes medication at no cost
- Assessment of body composition, blood vessel function, cardiac function, and exercise capacity
