6th Annual Retreat of the Colorado Skin Research Program

September 30, 2017

Sponsored by:
Department of Dermatology
Skin Disease Research Center (SDRC)  Gates Center for Regenerative Medicine

Organizer:
Peter Koch, PhD

Coordinator:
Jaclyn Valentine

Table Mountain Inn
Golden, Colorado
Meeting Organizer:

Peter Koch, PhD  
Peter.Koch@ucdenver.edu  
www.medschool.ucdenver.edu/PeterKoch

Coordinator/Administrative Contact:

Jaclyn Valentine  
Jaclyn.Valentine@ucdenver.edu

Sponsors:

David Norris, MD  
David.Norris@ucdenver.edu
Dennis Roop, PhD  
Dennis.Roop@ucdenver.edu

Gates Center for Regenerative Medicine:

Dermatology Department:  
www.medschool.ucdenver.edu/derm
Skin Disease Research Center:  
www.medschool.ucdenver.edu/SDRC

Cores:

Flow Cytometry Core (Helm)  
www.medschool.ucdenver.edu/Flowcytometry
Morphology & Phenotyping Core (Koster)  
www.medschool.ucdenver.edu/Histology
Bioengineering Core (Koch)  
www.medschool.ucdenver.edu/Bioengineering
Genetic Analysis Core (Spritz)  
Richard.spritz@cudenver.edu

Resort Hotel:

Table Mountain Inn

<thead>
<tr>
<th>Time</th>
<th>Speaker</th>
<th>Topic</th>
</tr>
</thead>
<tbody>
<tr>
<td>9:55 am - 10:00 am</td>
<td>Peter Koch, PhD</td>
<td>How the retreat will work</td>
</tr>
<tr>
<td>10:00 am - 10:15 am</td>
<td>David Norris, MD</td>
<td>Welcome and Introduction: Advancing Skin Research through SDRC</td>
</tr>
<tr>
<td>10:15 am - 10:30 am</td>
<td>Richard Spritz, MD</td>
<td>Genetics of Vitiligo: Towards P3 Medicine</td>
</tr>
<tr>
<td>10:30 am - 10:45 am</td>
<td>Stanca Birlea, MD, PhD</td>
<td>Manipulating PIG1 and PIG3V Melanocytes to Study Candidate Gene Functions for Vitiligo Repigmentation</td>
</tr>
<tr>
<td>10:45 am - 11:00 am</td>
<td>Mingxia Huang, PhD</td>
<td>The Role of CtBP in skin inflammation</td>
</tr>
<tr>
<td>11:00 am - 11:15 am</td>
<td>Enrique Torchia, PhD</td>
<td>Exploring the Link Between Lipids and Inflammation in Precancerous Skin</td>
</tr>
<tr>
<td>11:30 am - 11:45 am</td>
<td>Kristin Artinger, PhD</td>
<td>The role of PRDM1 in Melanoma Initiation and Progression</td>
</tr>
<tr>
<td>11:45 am - 12:00 pm</td>
<td>Yiqun Shellman, PhD</td>
<td>SASH1 in Pigmentation and Melanocyte Biology</td>
</tr>
<tr>
<td>12:00 pm - 12:15 pm</td>
<td>Mayumi Fujita, MD, PhD</td>
<td>A novel phenotype of ALDH2 polymorphism: Drinking-Induced Skin Pigmentation</td>
</tr>
<tr>
<td>12:15 pm - 12:30 pm</td>
<td>Robert Dellavalle, MD, PhD, MSPH</td>
<td>An Update of the Global Burden of Skin Diseases</td>
</tr>
<tr>
<td>12:30 pm - 1:30 pm</td>
<td>Lunch</td>
<td></td>
</tr>
<tr>
<td>1:30 pm - 1:45 pm</td>
<td>Cheryl Armstrong, MD</td>
<td>TBD</td>
</tr>
<tr>
<td>1:45 pm - 2:00 pm</td>
<td>Trevor Williams, PhD</td>
<td>Transcriptional and signaling interactions driving embryonic skin development and patterning</td>
</tr>
<tr>
<td>2:00 pm - 2:35 pm</td>
<td>Wendy Bollag, PhD</td>
<td>Invited Presentation Phosphatidylglycerol: DAMPenning Skin Inflammation in Psoriasis</td>
</tr>
