Freezer Mill	9- Zhao
Bioanalyzer	Obsolete, being replaced by TapeStation - Hesselberth
Bioruptor	10-Dover
ddPCR	10-Sikela
Agilent Tape Station	10-Hesselberth

Departmental policy for servicing equipment.

1. The Department will assume responsibility for one ultracentrifuge on each floor.

2. For equipment used $\geq 50\%$ by one lab, that lab is responsible for service (other major users should contribute; to be arranged by mutual agreement).
3. For equipment used $\leq 50\%$ by any one lab the Dept. is responsible for service.
How to determine % use:
 1. Logs, when possible.
 2. Common sense (e.g. film developer, gel imager).
 3. Honest self-reporting (subject to verification)

Ratified by the Executive Committee (Bentley, DeGregori, Hodges, Sclafani) 21 Oct 11
