Please write at the top of your application “PEDIATRICS” if you are applying for the Pediatric track.

**Fellowship in Pediatric Sports Medicine**
The University of Colorado and The Children's Hospital are pleased to offer a 1-year post-graduate fellowship in pediatric sports medicine. Our mission is to train academically interested future leaders in sports medicine. The Primary Care Sports Medicine Fellowship has a designated pediatric track.

The fellowship experience is 52 weeks in duration, beginning July 1, and includes:

- **Clinical Activity**
  Fellows will be exposed to a variety of sports medicine conditions, from simple to complex, emphasizing non-surgical, rehabilitation, and a unique training in pediatric fracture care.

- **Research**
  Fellows will have dedicated research time with opportunities in evidence based clinical medicine or basic science research. Fellows will be expected to produce at least one publishable manuscript during their fellowship year.

- **Team Physician Experience**
  The fellow will be a team physician for a local high school and will also serve as one of the team physicians for the University of Colorado and the University of Denver varsity teams.

- **Academic Curriculum**
  The sports medicine curriculum is pediatric/adolescent focused and includes weekly lectures, journal club, anatomy review with cadaver dissections, and radiology conference.

- **Benefits**
  - The stipend is commensurate with a University of Colorado Medical School PGY-4 salary.
  - The fellow is provided malpractice insurance, medical insurance (for self and dependents) and 22 days of vacation.
  - The fellow is sponsored at two continuing education/academic courses.
  - The fellow is eligible to sit for the Sports Medicine Certificate of Added Qualification Exam (CAQ) through the American Board of Pediatrics (ABP).

**Requirements:**

- Applicants must have completed an accredited residency program in Pediatrics.
- Applicants must be licensed to practice in the State of Colorado and have a current DEA license.
- Fellows in our program must be a US citizen, lawful permanent resident, refugee, asylee or possess the appropriate documentation to allow fellows to legally train at the University of Colorado Denver School of Medicine.
Please write at the top of your application “PEDIATRICS” if you are applying for the Pediatric track.
