

## endowments

An endowed chair or professorship is among the highest honors awarded by The Children's Hospital and the University of Colorado Denver School of Medicine, reserved for only the most distinguished senior scientists or clinicians. The endowed chair or professorship recognizes and promotes excellence in pediatric medicine and signifies our commitment to support that work. Endowed chairs and professorships enable us to attract and retain the best specialists in a field.

### L. Joseph Butterfield Chair in Pediatrics

Supports the Chair in Pediatrics at the University of Colorado Denver School of Medicine and The Children's Hospital, sustaining research and medical education.

#### Stephen R. Daniels, MD, PhD

Professor and Chairman  
Department of Pediatrics  
University of Colorado Denver  
School of Medicine  
Pediatrician-in-Chief  
The Children's Hospital

### Hewit/Andrews Chair in Pediatric Liver Disease

Supports research and ensures that clinical trials are made available for children with viral hepatitis and other liver diseases.

#### Michael R. Narkewicz, MD

Professor  
Department of Pediatrics  
University of Colorado Denver  
School of Medicine  
Medical Director, Pediatric  
Liver Center  
Director, Clinical Services,  
Pediatric Gastroenterology  
The Children's Hospital

### Selby's Chair in Pediatric Cardiology

Supports the Section of Cardiology and assists in improving the lives of pediatric heart patients, helping them live normal and productive lives.

#### D. Dunbar Ivy, MD

Professor  
Section Head, Cardiology  
Department of Pediatrics  
University of Colorado Denver  
School of Medicine  
Director, Pulmonary Hypertension  
Program  
The Children's Hospital

### H. Peter Chase, MD, Endowed Chair

Supports the Clinical Director or the Pediatric Clinic Director of the Barbara Davis Center for Childhood Diabetes.

#### H. Peter Chase, MD

Professor  
Department of Pediatrics  
University of Colorado Denver  
School of Medicine  
Emeritus Executive Director, Clinical  
Director, and Pediatric Clinic Director  
Barbara Davis Center for Childhood  
Diabetes

*The Jules Amer Chair is unique, in that it emphasizes the importance of hospitals and community*

*physicians working together to create the best possible health-care outcomes for all children.*

## Jack and Viki Thompson Chair in Child Maltreatment and Family Health

Supports the Executive Director of the Kempe Center in the development of clinical, research and educational programs to prevent and treat child abuse and neglect.

### Robert B. Clyman, MD

Associate Professor  
Departments of Pediatrics  
and Psychiatry  
University of Colorado Denver  
School of Medicine  
Executive Director  
Kempe Center for the Prevention  
and Treatment of Child Abuse  
and Neglect

## Tanner Seebaum and Zachary Tschetter Chair in Neuro-Oncology

Supports the Director of the Pediatric Neuro-Oncology Program and ensures excellence in clinical care, medical education and research to improve the lives of pediatric brain tumor patients.

### Nicholas K. Foreman, MB ChB

Professor  
Department of Pediatrics  
University of Colorado Denver  
School of Medicine  
Director, Pediatric Neuro-Oncology  
Program  
The Children's Hospital

## Berger Fellowship at the Kempe Center

Prepares future leaders in the field of child abuse and neglect through the endowment of a two-year postdoctoral clinical or research training program.

### Tali Raviv, PhD

Berger Fellow  
University of Colorado Denver  
School of Medicine  
Kempe Center for the Prevention  
and Treatment of Child Abuse  
and Neglect

## Jules Amer Chair in Community Pediatrics

Promotes quality, cost-effective, population-based health outcomes for all children in optimal community practice settings through the activities of the Community Child Health Outcomes Program.

### James K. Todd, MD

Professor  
Section Head, Epidemiology  
Vice Chair, Advocacy  
Departments of Pediatrics  
and Microbiology  
University of Colorado Denver  
School of Medicine  
Professor  
Department of Epidemiology  
Colorado School of Public Health  
Director, Epidemiology, Clinical  
Outcomes and Clinical Microbiology  
The Children's Hospital

*The Children's Hospital Center for Cancer and Blood Disorders, supported in part by*

*The Postle Family Chair and The Ergen Family Chair, is considered among the best in America.*

## **Satish K. Garg and Kavita Garg Barbara Davis Center Young Adult Diabetes Clinical Research Professorship**

Supports clinical research related to type 1 diabetes and the development of new diagnostic and therapeutic tools related to clinical diabetes management at the Barbara

Davis Center for Childhood Diabetes.

### **Satish K. Garg, MD**

Professor  
Departments of Pediatrics and Medicine  
University of Colorado Denver  
School of Medicine  
Chief, Young Adult Diabetes Clinic  
Barbara Davis Center for  
Childhood Diabetes

## **Satish K. Garg and Bimla Garg Barbara Davis Center Young Adult Clinic Endowed Chair**

Supports a professorship in the prevention and treatment of diabetic complications and the development of new diagnostic and therapeutic tools at the University of Colorado Denver; and supports clinical research and clinical care for young adult patients (greater than 18 years) with diabetes at the Barbara Davis Center for Childhood Diabetes.

### **Satish K. Garg, MD**

Professor  
Departments of Pediatrics and Medicine  
University of Colorado Denver  
School of Medicine  
Chief, Young Adult Diabetes Clinic  
Barbara Davis Center for  
Childhood Diabetes

## **The Postle Family Chair in Pediatric Cancer and Blood Disorders**

Supports research into the cause and treatment of pediatric cancer and blood disorders in order to enhance and improve clinical care.

### **Jorge A. DiPaola, MD**

Associate Professor  
Department of Pediatrics and Genetics  
University of Colorado Denver  
School of Medicine

## **The Ergen Family Chair in Pediatric Cancer**

Supports the activities of the Director of the Center for Cancer and Blood Disorders to improve the treatment and therapies available to children with cancer.

### **Stephen P. Hunger, MD**

Professor  
Section Head, Hematology, Oncology  
and Bone Marrow Transplantation  
Department of Pediatrics  
University of Colorado Denver  
School of Medicine

*Endowed chairs lend prestige, visibility, and a continuous source of funding to the positions they support. They attract the best minds in pediatric medicine, providing a superb environment for patient care and advances in pediatric medicine.*

## The Children's Hospital Chair in General Pediatrics

Supports the care of underserved children, the education of those who provide primary care services, and research on how to advance quality care in a cost-effective manner.

### Stephen Berman, MD

Professor  
Section Head, General Academic Pediatrics  
Department of Pediatrics  
University of Colorado Denver School of Medicine

## The Ponzio Family Chair in Pediatric Neurology

Supports the activities of the Section Head of Child Neurology in order to advance clinical care, education, and research for children with neurological disorders.

### Amy R. Brooks-Kayal, MD

Professor  
Section Head, Child Neurology  
Department of Pediatrics  
University of Colorado Denver School of Medicine

## Eisenbarth Barbara Davis Center Endowed Chair

Supports basic and translational research in the field of the immunology of type 1 diabetes, with the central goals of disease prevention and beta cell replacement.

### George S. Eisenbarth, MD, PhD

Professor  
Departments of Pediatrics, Medicine, and Immunology  
University of Colorado Denver School of Medicine  
Executive Director, Barbara Davis Center for Childhood Diabetes

## Diane G. Wallach Chair in Pediatric Stem Cell Biology

Supports the Director of Pediatric Stem Cell Biology in order to develop this new program at The Children's Hospital in partnership with the Charles C. Gates Program in Regenerative Medicine and Stem Cell Biology at the University of Colorado Denver.

### Bruce Appel, PhD

Associate Professor  
Department of Pediatrics  
University of Colorado Denver School of Medicine  
Director, Pediatric Stem Cell Biology
