Healthy Mothers and Daughters Needed!!!
For Brain Imaging Research Study to Help Understand the Brain in Eating Disorders

We are seeking female mother and daughters who are:
- between the ages of 11 and 55 years old
- right-handed
- free of medication (BCP allowed)
- no serious medical conditions
- no permanent metal implants or braces/retainers
- at a healthy body weight

... WE NEED YOU!!!
For Structural Brain Imaging Research Study

Your Participation could help us to develop treatments & preventive measures for eating disorders, and earn you some extra money!

Principal Investigator Dr. Guido Frank, UCD/Children’s Hospital Colorado, COMIRB # 07-0816
