Algorithm for Initial Management of Acute Hypoxic Events

- Acute Hypoxic Event
  - Hand Ventilate FIO₂
    - ET Tube Cuff Leak
      - Repair/Replace ET Tube
  - ET Tube Cuff Leak
    - Difficult Bagging?
      - No Obstruction
        - Check: O₂ Source Ventilator Circuit
          - Correct Mechanical Problems
            - Primary Survey
              - Chest Tube
            - Secondary Survey
              - Tension Pneumothorax
                - Replace Airway
                  - Recent Events ABG CXR U.S. EKG
                    - Intervention Or Procedure
                      - New Complication
                        - Progression Underlying Disease
