Course Description
This program will provide attendees with the knowledge and skills to provide care for common injuries sustained by the rodeo athlete. It will cover acute care, late reconstruction and preventative methods to limit injury in the rodeo athlete. The meeting is intended for physicians, athletic trainers, and allied health personnel who participate in the medical care of the rodeo athlete in their local community, or provide medical coverage at local, regional and national rodeos. The meeting will have a special emphasis on case-based learning. Ample time for questions and discussion guided by experienced moderators is also provided.

Learning Objectives
This CME activity is designed to help the attendee reach a baseline knowledge level about a wide variety of injuries seen in the rodeo athlete. This will help the attendee develop treatment protocols and prevention strategies when caring for these athletes that is consistent with other providers participating in the care of the rodeo athlete. At the conclusion of this program, the participants should be able to:

1. Evaluate the shoulder and its surrounding tissue to identify various shoulder injuries and potential available treatment options.

2. Summarize the properties and therapeutic use of different types of athletic tape and their appropriate application in the rodeo athlete.

3. Organize a plan for reducing dislocated joints in the training room or rodeo arena.

4. Implement post concussive evaluation to determine ability to return to sport for the athlete who has sustained a concussion as part of their post concussive rehabilitation program.

5. Utilize an educational strategy with athletes and their companions who have sustained a mild TBI as well as other injuries, to appropriately inform them of the potential for change in severity of the injury and the subsequent need to seek follow up care.
Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of The University of Colorado School of Medicine and Justin Sports Medicine. The University of Colorado School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The University of Colorado School of Medicine designates this live activity for a maximum of 10.25 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Certified Athletic Trainers may claim up to 10.25 contact hours (CEUs) through the BOC under Level II – category D.

PTs, NPs and PAs may also claim continuing education hours through their respective boards and licensing organizations with the provided Certificate of Attendance.

All healthcare professionals are responsible for claiming only those hours actually spent participating in the continuing education activity.

The registration fee includes syllabus and CME certificate or certificate of attendance for non-physicians. Registration Form Attached.

Cancellation/Refunds: The full conference tuition is refundable, less a $50 processing fee, if your cancellation is received, in writing, by 11-30-18. (The $50 processing fee is nonrefundable regardless of the reason for cancellation.) Refunds will not be granted after this time or for non-attendance.

Rodeo Sports Medicine Conference reserves the right to cancel this conference in the event of an unforeseen circumstance, or if the minimum acceptable registration is not attained. In the event of cancellation, Rodeo Sports Medicine Conference is obligated to refund the registration fee only.

2018 Management of the Injured Rodeo Athlete

Day 1 – Monday, December 10, 2018

7:55 to 8:00: Opening Comments/Review of Objectives/Disclosures—Steve Morgan, MD

8:00am to 9:05am: Rodeo Injury Registry and General Health
Moderator: Mike Rich, PTA, ATC
Michael Gregory, ATC, LAT - Injury data and current model for sports medicine in Grand Canyon NIRA region. (10 Min)
Racheal Henshaw, ATC - Meal prepping and nutrition for athletes on the road. (10 Min)
Doug Wade MAMFT - Attending to the psychological issues of rodeo athletes. (10 Min)
Katie Morneau, PharmD - OTC medications applications and concerns (10 Min)
Katie Morneau, PharmD - Risks of self-medication and drug interactions (10 Min)
Katie Morneau, PharmD - Concerns with use/misuse of veterinary medications in humans and combination with medications/monitoring (10 Min)
Q&A 5 Min

9:05am to 9:55am: Spine
Moderator: Trigg McClellan, MD
Travis Kieckbusch, MD - Unusual presentation of cervical spine fracture in a Bull Rider, How does Leg Trauma become a Neck Injury (10 Min)
Shawn Ready, ATC, CSCS – C- Spine injuries non-discogenic (10 Min)
Trigg McClellan, MD – Return to Play/Ride Criteria following Cervical Spine Injuries (10 Min)
Paetyn Harris, ATC, LAT, RT(R) - Case study of bareback rider with an L1 fx leading to paralysis and rehab follow up back to walking(10 Min)
Q&A 10 Min

9:55am to 10:10: Refreshment Break Visit Exhibitors
10:10am to 11:00am: General Trauma

Moderator: Steve Morgan, MD

Kevin Owens, MD - Current Trends in Initial Care of Trauma Movement to MARCHE (Massive Hemorrhage, Airway, Respiration, Circulation, Head Trauma, Hyer/Hypothermia, Evac/Package for Transport (15 Min)

Paetyn Harris, ATC, LAT, RT(R) - Jaw dislocations and misplacement after impact (10 Min)

Nathan Jacobson, MD - Splenic Injury/Laceration in a bronc rider (10 Min)

Travis Chipman, LAT - Rapid Evaluation and Extrication of injured athlete from Bucking Chutes with possible spinal cord injury that is still mounted on horse. (10 Min)

Q&A 5 Min

11:00am to 12:30pm: Concussion

Moderator: Tandy Freeman, MD

Mikaela Boham, EdD, ATC, LAT - Baseline concussion symptoms in collegiate rodeo athletes (10 Min)

Mikaela Boham, EdD, ATC, LAT - Differences in reported concussion symptoms based on methodology of collection (10 Min)

Sheri Lampin, ATC - Post Concussion Vision Rehabilitation (10 Min)

Kylie Iizzy McKinney, ATC - Using the VOMS to help the Rodeo athlete understand the deficits of concussion related to their sport (event). (10 Min)

Anthony G. Alessi, MD - Sports Concussion: What do we really know? (45 min.)

Q&A 5 Min

12:30pm to 1:10pm: Lunch Visit Exhibitors

1:10 pm to 1:15pm Special Announcements Tandy Freeman MD

1:15pm to 2:30pm: Extremity Trauma

Moderator: Clark Duchene, MD

Michael Gregory, ATC, LAT - Myofascial restriction after being run over by horse (10 Min)

Tandy Freeman, MD - Elbow Dislocation/Fracture of Bull Rider (10 Min)

Rick Foster, MS, ATC - Nerve injuries in riding forearms of rough stock riders (10 Min)

Brendan MacKay, MD - Changes in forearm bone density due to unilateral loading in Rodeo rough stock riders. (10 Min)

Nathan Jacobson, MD - Calcaneus fracture/Achilles Avulsion in a Barrel Racer (10 Min)

Rob Hunter, MD - MCL Injuries, Who Needs Intervention? (10 Min)
Clark Duchene, MD - ACL Case Studies - Multiple videos of injury (10Min)
Q&A 5 Min

2:00pm to 2:30pm: Refreshment Break Visit Exhibitors

2:30pm to 4:00pm: Treatment and Panel Discussion Breakout Session Section 1
Moderator: Rick Foster, MD

Participants separate into 4 groups and rotate to the four breakout demonstration sections

Sheri Lampin, ATC - Vision charts and Brock string (see above)

Shawn Ready, ATC, CSCS - C-spine eval lab

Shayla Foster, ATC - Athlete Self Treatment of Brachial Plexus Injury and Self Mobilization of First Rib

Rob Hunter, MD - Knee Examination

Group reconvenes for Panel Discussion Q&A

Panel Q&A – Instructors and Moderator (10 Min)

4:00: Adjourn for Day

Day 2 – Tuesday, December 11, 2018

7:55 to 8:00: Opening Comments—Steve Morgan, MD

8:00am to 8:50am: Variety of issues
Moderator: Steve Morgan, MD

Kelly Whitney-Babcock, ATC, LMT - Instrument assisted soft tissue mobilization and its effect on tissue extensibility and appropriateness for use in rodeo athletes (15 Min)

Benjamin Thomasson, DO - Hip Pain in the Rodeo Athlete (15 Min)

Erik Nason, ATC - Myositis Ossificans: Prevention, treatment and surgical options (15 Min)

Q&A 5 Min
8:50am to 10:05am Shoulder
Moderator: Michael George, MD

Jon Buzzell, MD - Evaluation and management of shoulder instability (10 Min)

Paul Schwartz, MD – Shoulder Dislocation Diagnosis Management Techniques Post Reduction Rehabilitation in the Training Room (10 Min)

Jon Buzzell, MD - Distinguishing between Shoulder and Cervical Spine Pathology (10 Min)

Michael George, MD - Acute anterior glenoid fracture in a bull rider(10 Min)

Michael George, MD - Partial thickness rotator cuff tear in a team roper. (10 Min)

Ken Kladnik, ATC - Upper extremity strengthening exercises and creative ways cowboys can strengthen and rehab while on the road (10 Min)

Rick Foster, MS, ATC- Various bracing and strapping techniques for shoulder instability for competition (10 Min)

Q&A 5 Min

10:05am to 10:30 Break Visit Exhibitors

10:30am to 11:45am: Treatment and Panel Discussion Breakout Session Section 2

Moderator: Rick Foster, MS, ATC

Participants Separate Into 3 groups and rotate to the three breakout demonstration sections

Kelly Whitney-Babcock, ATC, LMT - Instrument assisted soft tissue mobilization

Rick Foster, MS, ATC- Various bracing and strapping techniques for shoulder instability for competition

Benjamin Thomasson, DO - Hip Pain Examination

Group Reconvenes for Panel Discussion Q&A

Panel Q&A – Instructors and Moderator (15 Min)

11:45am to 12:00pm – Course Wrap UP, Q&A, Evaluations

Moderator: Steve Morgan, MD

12:00pm: Course Adjourns
