Oasis Logger Instructions

Student Access

Log-in to Oasis

Under Degree Progress, click on Requirement Checklists

You will now see a list of the loggers available to you based on your course enrollment. Click on Show corresponding to the logger you are planning to update.

On the left you will see a list of required core clinical conditions. Click on the one that you would like to log and then click Add Entry.
Select the date of the patient encounter you are logging.

Complete the fields for that clinical condition and then click *Submit*. If you have not completed a responsibility (like a history or physical exam) with a patient, you can complete it with an alternative method.

You will see your progress in the symbols on the left, a green check mark for complete and a red dot for yet to be completed.
