ANES8000  Clinical Anesthesiology

Description: Students will work one-on-one with anesthesia faculty and residents to gain further practical experience in all aspects of peri-operative care; improving skills gained in the third year and developing a deeper understanding of the breadth of anesthetic practice. Course is completed at Children's Hospital Colorado and Denver Health.

Course Activities: Students will be expected to perform pre-operative assessment, formulate basic anesthetic plan, and see that plan carried out through the peri-operative period. Students will be under direct supervision by Anesthesiology residents as well as Faculty attendings.

ANES8001  Surgery Intensive Care Sub-I

Description: The goal is to prepare MSIV’s for internship by having them manage ‘their’ patients, present on multidisciplinary rounds, call consults, assist/performing procedures, discuss clinical topics & receive didactics. Honors requires clinical excellence and a written paper.

Course Activities: During the Sub-Internship in Surgical Critical Care at the University of Colorado, students are expected to advance their knowledge, skills and attitudes needed to provide perioperative care for critically ill adult surgical patients. It is expected that students will function more independently during their sub-internship than they did during their Phase 3 training. By the completion of the rotation, the sub-intern should be able to function at or near the level of an intern with respect to the objectives of the rotation. In general, the sub-intern will move beyond the observation and participation phase and into the role of the primary provider.
**ANES8002  ANES Subspecialties**

**Description:** Course exposes students to subspecialty areas in Anesthesiology. Students will attain additional experience in selected areas of anesthetic practice. Options include Acute and Chronic Pain, L&D, Cardiothoracic, Neurosurgery, Transplant and General OR.

**Course Activities:** Students will be expected to perform pre-operative assessment, formulate basic anesthetic plan, and see that plan carried out through the peri-operative period. Students will be under direct supervision by Anesthesiology residents as well as Faculty attendings.

**Duration:** 2 or 4 weeks

---

**DERM8000  Dermatology Clinical Elective**

**Description:** This course is designed to provide a broad overview of medical, surgical, and pediatric dermatology. Students will become familiar with the differential diagnosis and treatment of common skin disease, and procedural dermatology including skin biopsies and cryosurgery.

**Course Activities:** Students will spend 2 week rotation a majority of time at the VA hospital for active involvement in clinics and learn to perform common dermatologic procedures. They will have a more in depth exposure to other areas of dermatology including dermatopathology, pediatric dermatology, and Mohs surgery. Students will give a power point presentation on a topic of their choice and two homework assignments per week.

**Coordinator:** Amina Hashem

Sections Available: Available Section 39-40 only

Accept Visiting Students: MD/ No DO/ No Int’l/ 

Prerequisites / Restrictions: Prior approval by the Course Director and coordinator needed

Description: Learn why the Patient Centered Medical Home is a comprehensive model that will revolutionize primary care of the 21st century. Students will study the evidence behind the main principles of the PCMH and experience them in action at PCMH-certified clinics.

Course Activities: Exposure and education about the Patient Centered Medical Home and how it improves patient care and how to implement it in a working medical practice.

FMMD8016  **Colorado FMRs Sub-I**  
Duration: 4 weeks  
Enrollment  
Min: 1  
Max: 9

Coordinator: Steven Cruse  
steven.cruse@ucdenver.edu  
Course Director: Julie Paranka  
julie.paranka@ucdenver.edu

Sub-I: Yes  
Approval Required: Yes  
Semester Offered: Summer; Fall; Spring  
Semester 2-Wk Offered: 

Grading: Honor/High Pass

Course Format: Clinical

Location: Away

Sections Available: Available in all sections

Accept Visiting Students: MD/ No DO/ No Int’l/ No

Prerequisites / Restrictions: This Sub-I is available at Grand Junction, Greeley, Ft. Collins, Pueblo, Rose, St. Antony, St. Joseph and Swedish FM Residency Programs. Application to and prior approval by the individual residency program is needed.

Description: Sub-Internship level experience in managing inpatient problems common to Family Medicine hospital services at any of the eight ACGME accredited Colorado FM Residency Programs.

Course Activities: As a Sub-Intern students will engage in all patient care and team responsibilities and activities that at the level of an Acting Intern.

FMMD8100  **FMMD Elective Away**  
Duration: 2 or 4 weeks  
Enrollment  
Min: 1  
Max: 99

Coordinator: Steven Cruse  
steven.cruse@ucdenver.edu  
Course Director: Julie Paranka  
julie.paranka@ucdenver.edu

Sub-I: No  
Approval Required: Yes  
Semester Offered: Summer; Fall; Spring  
Semester 2-Wk Offered: All

Grading: Pass/Fail

Course Format: Away

Location: Away

Sections Available: Available in all sections

Accept Visiting Students: MD/ No DO/ No Int’l/ No

Prerequisites / Restrictions: Must work with a family physician. Students must have learning objectives approved by course director. Site training agreement must be in place.

Description: This elective will be held at a site in Colorado or another state. Can be done in private offices or a CO Residency Program if not structured as a Sub-I. All rotations out of state (even if considered a Sub-I at an out-of-state residency program are required to register as FMMD 8100)

Course Activities: Participate in patient care at a Family Medicine clinic and/or inpatient unit at the level of a Phase Four Medical Student.
**FMMD8400  International FM**

**Description:** Management of Family Medicine problems common to countries outside of the United States. Inpatient and outpatient experiences with a family physician are acceptable. Successful International Experiences sessions are required. Arrangements including registering with "Studio Abroad" must be completed 90 days prior to the elective.

**Course Activities:** Participate in a clinical setting while utilizing and expanding a foreign (to English) language, thus improving medical language skills and patient interaction in said language.

**Coordinator:** Steven Cruse  
steven.cruse@ucdenver.edu

**Course Director:** Julie Paranka  
julie.paranka@ucdenver.edu

**Duration:** 4, 8 or 12 weeks  
**Enrollment Min:** 1  
**Max:** 99

**Approval Required:** Yes  
**Semester Offered:** Summer; Fall; Spring  
**Semester 2-Wk Offered:**

**Grading:** Pass/Fail  
**Course Format** Away  
**Location:** Away

**Sections Available:** Available in all sections  
**Longitudinal Course:** No  
**Accept Visiting Students:** MD/ No  DO/ No  Int'l/ No

**Prerequisites / Restrictions:** May not register for final 6 weeks of academic year. Supervising physician MUST be a family physician.

**Description:** Management of Family Medicine problems common to countries outside of the United States. Inpatient and outpatient experiences with a family physician are acceptable. Successful International Experiences sessions are required. Arrangements including registering with "Studio Abroad" must be completed 90 days prior to the elective.

**Course Activities:** Participate in a clinical setting while utilizing and expanding a foreign (to English) language, thus improving medical language skills and patient interaction in said language.

**FMMD8411  Foreign Language Immersion**

**Description:** Must attend an accredited Foreign Language program. 80 hours of language study AND 20 hours of medical foreign language or 32 hours (8 half-days) of clinical required. Successful International Experiences sessions are required. Arrangements and registration with "Studio Abroad" must be completed 60 days prior to departure.

**Course Activities:** Students will immerse themselves in language skills and language use based on their current knowledge with a focus on clinical language and cultural sensitivity towards the populace.

**Coordinator:** Steven Cruse  
steven.cruse@ucdenver.edu

**Course Director:** Julie Paranka  
julie.paranka@ucdenver.edu

### IDPT8000  Foundations Doctoring IV

**Duration:** 1 week for Summer; Fall; Spring  
**Enrollment Min:** 1  
**Max:** 99

**Coordinator:** Meleah Himber  
meleah.himber@ucdenver.edu

**Course Director:** Kristin Furfari  
kristine.furfari@ucdenver.edu

**Sub-I:** No  
**Approval Required:** No  
**Semester Offered:** Summer; Fall; Spring  
**Semester 2-Wk Offered:**

**Grading:** Pass/Fail  
**Course Format:** Clinical  
**Location:**

**Sections Available:** Available in sections 5 and 17  
**Longitudinal Course:** Yes  
**Accept Visiting Students:** MD/No DO/No Int'l/ No

**Prerequisites / Restrictions:** After registering please e-mail Meleah.Himber@ucdenver.edu. For graduation requirements this course counts one week for summer semester and two weeks each for fall and spring semesters.

**Description:** This course continues the established student-preceptor relationship from the FDC course. Students work with their preceptor caring for patients at least 2-3 times per month (8-12 hours.)

**Course Activities:** Students participate in the clinical care of their preceptor's patients and may have experiences of continuity with patients not present in the other clinical exposure. Requirements are 24 hours (6 sessions) for summer semester and 48 hours (12 sessions) for fall or spring semester

### IDPT8001  Tutoring in Foundations

**Duration:** 1 week each for Fall; Spring

**Enrollment Min:** 1  
**Max:** 99

**Coordinator:** Meleah Himber  
meleah.himber@ucdenver.edu

**Course Director:** Wendy Madigosky  
wendy.madigosky@ucdenver.edu

**Sub-I:** No  
**Approval Required:** No  
**Semester Offered:** Fall; Spring  
**Semester 2-Wk Offered:**

**Grading:** Pass/Fail  
**Course Format:** Didactic  
**Location:**

**Sections Available:** Available in sections 5 and 17  
**Longitudinal Course:** Yes  
**Accept Visiting Students:** MD/No DO/No Int'l/ No

**Prerequisites / Restrictions:** After registering please e-mail Meleah.Himber@ucdenver.edu. For graduation requirements this course counts as one week each for fall and spring semesters.

**Description:** Fourth year students are trained how to be tutors and then use their skills with first and second year students learning physical exam, communication, other clinical skills and professional development. Students learn how to facilitate small groups of students, give feedback and evaluate student performance.

**Course Activities:** Students will learn a variety of teaching roles depending upon their participation: small group facilitators, communication coach, physical exam/clinical skills tutors
**IDPT8003  Geriatrics**

**Description:** Geriatrics elective will provide clinic exposure to caring for older adults in the outpatient primary care and home settings. Learning objectives focus on the special needs of frail or chronically ill older adults and resources beyond direct physician care utilized for this population. Students will spend one on one time with geriatricians and focus on communications skills and history taking for medically complicated patients.

**Course Activities:** Approximately 4-half days of clinical activities with a variety of geriatric medicine attendings including outpatient primary care clinic and Home Based Primary Care

---

**IDPT8007  Medicine / Pediatrics**

**Description:** This focus of this elective is to help students discern whether to pursue combined residency training in Internal Medicine and Pediatrics. This course will expose students to possible career paths available for Med-Peds providers within primary and specialty care settings.

**Course Activities:** Clinical Experiences will be primarily outpatient with Med-Peds Providers. Each month of the elective may vary slightly based on the availability of Med-Peds preceptors, but the typical experience will include:
- Primary Care: Denver Health, Adolescent Medicine Clinic, Special Care Clinic, High Street Clinic,
- Specialty Care: Adult Congenital Heart Disease Clinic, Cystic Fibrosis Clinic, Pediatric Pulmonology Clinic, HIV Clinic

Independent Learning & Enrichment:
- At the start of the rotation, students will be asked to create 3-5 learning goals for their rotation.
- Students will be given a list of questions to ask each provider they rotate with, so that they can compile impressions about what Med-Peds physicians can do with their training and how that might fit into the student’s personal and professional goals.
- Students will be given educational resources from the National Med-Peds Residency Association and key articles that highlight the work of Med-Peds physicians.
- Students will be asked to write a 2-5 page reflection paper to be turned in by the end of the rotation to be based on their clinical experiences, learning goals, and impressions from their independent learning activities.
IDPT8011  **Clinical Nutrition**

**Description:** Develop your nutrition assessment skills with this elective, tailored to your needs with adult and/or pediatric inpatients and/or outpatients with a variety of conditions and diseases. Active learning with exceptional mentors is emphasized. Please confirm areas of nutrition interest with course coordinator at least one month prior to start to facilitate scheduling in desired areas.

**Course Activities:** Since this is a clinical elective, time is spent seeing patients with physicians who run nutrition specialty clinics, mid-level nutrition medical providers, and registered dietitians. There are a variety of outpatient nutrition clinics from which to choose, as well as inpatient opportunities. Time can be spent in pediatrics, adult medicine, adolescent medicine, or combinations of those areas learning about the nutrition care for a variety of chronic diseases and issues. There is some self-directed learning time during the elective with suggested readings, online web-based modules, and a brief written assignment.

**Coordinator:** Laura Primak

**Course Director:** Nancy Krebs

**Approval Required:** No

**Semester Offered:** Summer; Fall; Spring

**Semester 2-Wk Offered:** All

**Grading:** Pass/Fail

**Course Format:** Clinical

**Location:** Kaiser in Denver, WIC

**Sections Available:** Available in all sections

**Longitudinal Course:** No

**Accept Visiting Students:** MD/ No DO/ No Int'l/ No

**Duration:** 2 weeks

**Enrollment**

Min: 1  Max: 1

**Prerequisites** Contact laura.primak@ucdenver.edu at least 4 weeks prior to start date with interests in nutrition.

**Additional Information:**

**IDPT8018  Global Health & Disaster**  

**Duration:** 2 weeks  
**Enrollment** Min: 5  
Max: 35

**Coordinator:** Michelle Shiver  
**Course Director:** Stephen Berman

**Sub-I:** No  
**Approval Required:** No  
**Semester Offered:** Fall;Spring  
**Semester 2-Wk Offered:** Fall;

**Grading:** Pass/Fail  
**Longitudinal Course:** No  
**Accept Visiting Students:** MD/Yes DO/Yes Int'l/Yes

**Prerequisites**/Restrictions:  

**Description:** This international health course is a two week training offered once a year as part of the University of Colorado School of Medicine Global Health Track. This course prepares its participants for international experiences and future global health work. The interactive training incorporates readings, lectures, small group problem based learning exercises, technical skill sessions, and a disaster simulation exercise.

**Course Activities:** The global health week of the course is mainly lecture with a splattering of interactive case study review, small group sessions, lab and a labor and delivery workshop. The pediatrics in disasters week of the course is a balance of lecture and break out with a final day of active disaster simulation which we refer to as a field drill.
IDPT8019  
**Team-based Clinical Care**

**Coordinator:**

**Course Director:** Emily Gottenborg  
emily.gottenborg@ucdenver.edu

**Sub-I:** No  
**Approval Required** No  
**Semester Offered:** Fall; Spring  
**Semester 2-Wk Offered:**

**Grading:** Pass/Fail  
**Course Format:** Clinical  
**Location:** UCH

**Sections Available:** Available in section 17  
**Longitudinal Course:** Yes  
**Accept Visiting Students:** MD/No DO/No Int'l/ No

**Prerequisites / Restrictions:**

**Description:** A longitudinal, interprofessional course consisting of three activities including Voice of the Patient (an opportunity to learn about the patient experience in healthcare), Adverse Event Review (an opportunity to analyze a patient safety event), and an Executive Summary Analysis (allowing students to analyze a healthcare system inefficiency and provide actionable recommendations).

**Course Activities:** Three activities as described below:

1) Voice of the patient: Interview 6-8 patients about their healthcare experiences in a team of interprofessional students

2) Adverse Event Analysis: Attend an Interprofessional Case Review or Morbidity and Mortality Conference and analyze the patient safety event using a standardized approach to Just Culture

3) Creation of Executive Summary: Work with a team of interprofessional students to identify a problem or inefficiency in the healthcare system, analyze it using cause & effect analysis and other QI tools, and provide actionable recommendations in the form of an Executive Summary that will be distributed to a functioning QI team within the healthcare system.

IDPT8020  
**Physician as Advisor**

**Coordinator:**

**Course Director:**

**Sub-I:** No  
**Approval Required** No  
**Semester Offered:** Fall; Spring  
**Semester 2-Wk Offered:**

**Grading:** Pass/Fail  
**Course Format:** Didactic  
**Location:** SOM

**Sections Available:** Available in section 17  
**Longitudinal Course:** Yes  
**Accept Visiting Students:** MD/No DO/No Int'l/ No

**Prerequisites / Restrictions:** Must be an Advisory College Student Leader

**Description:** Physician as Advisor teaches fourth year students to advise peer students in an Advisory College Program. It will prepare students for careers in academic medicine by developing skills in advising, leadership, and administration as well as self-assessment.

**Course Activities:** Students will complete MBTI workshop. Students will participate in workshops around resilience, values, planning and goal setting. Student leaders meet monthly to share ideas, trouble-shoot issues, plan activities. Student leaders will submit reflection paper at the end of the course.
**IDPT8021  Costa Rica Spanish Immersion**

**Description:**
This Spanish immersion course in Costa Rica includes home stays, intensive language instruction and public health outreach activities in underserved communities. Students should be passionate about providing care to disadvantaged patients in the U.S. or abroad and committed to improving their Spanish language skills.

**Course Activities:**
This elective includes intensive classroom instruction in Spanish, taught in a medical context. In addition, students will be expected to speak Spanish with their host families, their patients, their colleagues, the course supervisors and with local health care experts and mentors in Costa Rica.

**Duration:** 4 weeks

**Coordinator:** Rory Foster
rfoster@commongroundinternational.com

**Course Director:** Steven Lowenstein
steven.lowenstein@ucdenver.edu

**Sub-I:** No  
**Approval Required:** Yes
**Semester Offered:** Spring

**Grading:** Pass/Fail

**Sections Available:** Available Sections 37-40 only

**Prerequisites:** Open to students at all levels of Spanish proficiency.

/ **Restrictions:** Students who have not studied Spanish in the past should plan to work on improving their Spanish in the months preceding the rotation. Registered students have free access to Common Ground Internation

**IDPT8040  Physician as Healthcare Improver**

**Duration:** 1 week per se  
**Enrollment** Min: 1  Max: 99

**Coordinator:** Meleah Himber  
meleah.himber@ucdenver.edu  
**Course Director:** Wendy Madigosky  
wendy.madigosky@ucdenver.edu

**Sub-I:** No  
**Approval Required** Yes  
**Semester Offered:** Summer; Fall; Spring  
**Semester 2-Wk Offered:**

**Grading:** Pass/Fail  
**Course Format:** Didactic  
**Location:**

**Sections Available:** Available in sections 5, 17 and 19  
**Longitudinal Course:** Yes  
**Accept Visiting Students:** MD/No  DO/No  Int'l/ No

**Prerequisites**  
After registering please e-mail Meleah.Himber@ucdenver.edu. For graduation requirements this course counts one week per semester. Only one semester may be taken.

**Description:** Students complete IHI Open School on-line courses beyond their Basic Certificate of Completion. Course content includes: improvement capability, patient safety, leadership, person and family-centered care, quality, cost and value, and triple aim for populations. Students also reflect on learning and implications for future career.

**Course Activities:** Students pursue self-directed learning using IHI Open School courses beyond those required for the Basic Certification. Students select course work based on their individual learning goals. Students will also submit a reflective writing assignment related to their learning and implications for their future engagement in healthcare improvement.

**IDPT8041  Quality Improvement Practicum**

**Duration:** 2 weeks per se  
**Enrollment** Min: 0  Max: 3

**Coordinator:**  
**Course Director:** Hemali Patel  
hemali.patel@ucdenver.edu

**Sub-I:** No  
**Approval Required** No  
**Semester Offered:** Fall; Spring  
**Semester 2-Wk Offered:**

**Grading:** Pass/Fail  
**Course Format** Research/Scholarly Activity  
**Location:** UCH

**Sections Available:** Available in all sections  
**Longitudinal Course:** Yes  
**Accept Visiting Students:** MD/No  DO/No  Int'l/ No

**Prerequisites** None  
**Restrictions:**

**Additional Information:** This course enables students to obtain knowledge and skills for quality improvement (QI), valued by both GME and CME, and fosters interprofessional communication.

**Description:** Students use the online IHI Open School Quality Improvement Practicum (QI 201) to provide a framework and join an interprofessional team engaged in a quality improvement project.

**Course Activities:** Students use the IHI Open School Quality Improvement Practicum course (QI 201) to guide their experiential learning. Prerequisite IHI Open School courses for the Practicum include QI 101, 102, and 103 which introduce foundational knowledge in Quality Improvement. http://www.ihi.org/offerings/IHIOpenSchool/Courses/Pages/OpenSchoolCertificates.aspx

Students will then be integrated into ongoing quality improvement projects and work with Attending and/or Resident physicians to actively improve clinical processes within the hospital. Examples include reducing inappropriate use of antibiotics or telemetry, refine the discharge process or increase throughput in the hospital to improve patient safety. We will do our best to find ongoing projects that fit the student’s interest. Students do not need to have their own projects nor will they have to find QI projects on their own. Since students will likely join in the middle of active projects, we will update them on progress to date to ensure a complete and thorough educational process. The goal is to provide the best cost effective, efficient and patient-centered care.
IDPT8091  **MSA Phase IV Preparation**

**Description:**
Students work intensively with mentors on their chosen MSA project. Students critically review background literature, define a question/hypothesis, develop and implement methods and study design, collect data, analyze and interpret data.

**Course Activities:**
Students work intensively with mentors on their chosen MSA Project. Students critically review background literature, define a question/hypothesis, develop and implement methods and study design, collect data, analyze and interpret data.

**Duration:** 4 weeks
**Coordinator:** Meleah Himber
**Approval Required:** Yes
**Course Director:** Allan Prochazka
**Semester Offered:** Summer; Fall; Spring
**Sections Available:** Section 45 is the last 4 week block to register for this course.
**Prerequisites & Restrictions:** Prior approval of a Mentor, Course Director and Associate Dean for Student Affairs is required. Section 45 is the last 4 week block to register for this course.
**Course Format:** Research/Scholarly Activity

**Location:** UCH, DHMC, St. Joes, VA

**Approval Required** No  
**Accept Visiting Students:** MD/No  
DO/No  
Int'l/ No

**Sections Available:** Available in all sections  
**Longitudinal Course:** No

**Prerequisites**  
Additional Information:

**Description:** The sub-intern functions as an intern and is responsible for the admission, evaluation, and continuing care of patients under the supervision of a Resident and an Attending. Sub-internships are offered at DHMC, P/SL, UCH, VAMC and St. Joseph’s Hospital.

**Course Activities:** During the Internal Medicine Sub-Internship, students are expected to advance their knowledge, skills and attitudes needed to provide medical care for hospitalized adult patients. It is expected that students will function more independently during their sub-internship than they did during their Phase 3 training. By the completion of the rotation, the sub-intern should be able to function at or near the level of an intern with respect to the objectives of the rotation. In general, the sub-intern will move beyond the observation and participation phase and into the role of the primary provider.
### MEDS8002  
**Hospital Medicine Sub-I**

**Description:** Experience hospitalist medicine first hand by working one-on-one with an attending and developing a quality improvement initiative. You will also gain the skills to excel from the start of intern year by being the primary provider for your patients.

**Course Activities:** Students will be responsible for caring for up to 8 patients at a time on an inpatient medicine service. They will work directly with an attending hospitalist (no residents). This includes 4 nights of cross-coverage with an attending nocturnist (night hospitalist). Students will have a curriculum devoted to learning and practicing high value care including a didactic on the meaning of value in healthcare and they will complete a project looking at laboratory waste from an individual and systems perspective. Students will also be required to complete the standard Sub-Internship requirements as outlined by the School of Medicine.

**Duration:** 4 weeks

### MEDS8005  
**Cardiac Diagnostic Skill**

**Description:** Course is at Exempla St. Joseph Hospital. Goals are to improve cardiac physical diagnosis skills, interpret EKG findings, recognize abnormal heart sounds and murmurs. Includes didactic sessions and home study.

**Course Activities:** Class lasts from 8:2:30 every day. From 8-10am the subject of the day is discussed. From 10-11 the homework from the previous night is discussed (usually about 4 EKG’s a night for homework) and other example EKGs are reviewed. There is a break for lunch and then in the afternoon there is more discussion of EKGs or discussion of heart sounds and murmurs. Students are given a flash drive with example EKGs and articles for reading.

**Duration:** 2 weeks

Revised: 9/7/2016
MEDS8006  Allergy/Clin Immunology

Description: Outpatient Allergy and Clinical Immunology at the UCH adult clinic. Students will encounter conditions including allergic rhinitis, asthma, food allergy, eczema, and immunodeficiency. They will have the opportunity to attend journal clubs, case conferences and Denver Allergy Rounds.

Course Activities: Students will shadow fellows and/or faculty in Allergy clinic for the first few days. After the student is oriented to the clinic, they will interview and examine patients independently, with supervision by fellows and/or faculty. They will present patients to the faculty and participate in formulation of assessment and plans for evaluation and treatment. The elective will include at least 8 half-days of clinic per week and the remaining 1-2 half-days are for library time. Students will also have the opportunity to attend weekly educational conferences including: Allergy/Immunology Journal club, Allergy/Immunology program meetings, which include informal and formal case presentations, and Denver Allergy Rounds, which attracts speakers who are local and national experts in the field of allergy.

Coordinator: Jeanne Kittle  
jeanne.kittle@ucdenver.edu

MEDS8007  Clinical Renal

Description: This elective will provide experience in both inpatient and outpatient-based nephrology. Students will work with the inpatient nephrology consult team at either UCH or DHMC (2 weeks) and participate in a variety of outpatient nephrology, dialysis, and renal transplant clinics (2 weeks). This elective will provide opportunity for students to become more familiar with a variety of renal disorders that commonly include acute kidney injury, chronic and end-stage kidney disease, proteinuria, hematuria, glomerulonephritis, acid base and fluid/electrolyte disorders, and post renal transplant immunosuppression and complications. Students will also participate in weekly attending didactic lectures and daily educational morning conferences.

Course Activities: This elective consists of both inpatient and outpatient nephrology experience. Students will participate in 1) 2 weeks of inpatient renal consult-based medicine at either Denver Health Medical Center or University Hospital where students can expect to perform initial consults and follow up care for frequently encountered inpatient renal disorders as part of a team; and 2) 2 weeks of ambulatory nephrology and renal transplant clinic experience which involves a diverse combination of clinics at DHMC, UCH, and VAMC. Students will also participate in weekly attending didactic lectures and daily educational morning conferences.

Grading: Honor/High Pass or Pass/Fail (<4 wks)  
Course Format Clinical  
Location: UCH

Sections Available: Available in all sections  
Longitudinal Course: No  
Accept Visiting Students: MD/Yes  DO/No  Int'I/ No

Prerequisites / Restrictions:  
Description: UCH, DHMC, and VA Hospital assigned. Hospitalized patients with a variety of infectious diseases are available for study. Students will learn about diagnosis, pathophysiology, immunology, epidemiology, and management of complex ID patients. Antimicrobial use to treat infections is emphasized. Students attend and participate in ward rounds and conferences.

Course Activities:  
Depending on the rotation, students will actively participate in inpatient ID consult service care and/or outpatient care under the direct supervision of an ID attending. The student will complete ID consultations with the supervision of the ID fellow or resident, present the case to the ID attending and participate in the longitudinal management and care of the patient. The student will also participate in ID conferences and didactic opportunities during the rotation.

**MEDS8010  Clin Gastroenterology**

Longitudinal Course: No  
Accept Visiting Students: MD/Yes  DO/No  Int'I/ No

Prerequisites / Restrictions:  
Description: The goal of the Pulmonary Medicine elective rotation is to expose the physician-in-training (Phase IV Medical Students) to patients with pulmonary disease that are encountered in the primary care and acute care hospitalization setting as well as in the subspecialist’s realm.
MEDS8012  Clinical Rheumatology

**Description:** Students will learn how to recognize, diagnose, and treat common rheumatic disorders. Students will attend all formal teaching conferences in the Division of Rheumatology and attend 6 or more outpatient clinics each week at Denver Health, the Denver VA, and the University campus.

**Course Activities:** This is an outpatient clinical experience. The student will assign patients with a broad mix of rheumatic diseases and disease severity. The students attend rheumatology clinics at the University, Denver Health, and the Denver VA resulting in a broad range of socioeconomic society. Students may perform supervised arthrocentesis, soft tissue and bursal injections, and synovial fluid crystal analysis in clinic. In addition, students attend a series of didactic lectures covering major rheumatic diseases, and Division of Rheumatology teaching conferences. Students’ duty hours are typically 40 hours per week. No Rheumatology call or weekend service is required.

---

MEDS8013  Endocrinology

**Description:** Introduction to evaluation and management of endocrine disorders via outpatient clinics and inpatient consults at VAMC, DHMC, UCH. Endocrine-focused history-taking and physical examination with a complete problem-oriented approach to patient care. Multiple conferences and close interaction with fellows and attendings.

**Course Activities:** This rotation will help medical students become proficient in endocrine-focused history and physical exam skills, learn the appropriate selection and interpretation of endocrine-related diagnostic tests, and gain experience in integrating these to develop appropriate management plans for patients with common endocrine disorders referred for outpatient and inpatient endocrine consultation. The student will also be exposed to patients with less common endocrine disorders, and have the opportunity to interact with colleagues in other specialties to manage this patient population. Clinical locations: Denver VAMC, University of Colorado Hospital and Denver Health.

**Coordinator:** Holly Heilman  
holly.heilman@ucdenver.edu

**Course Director:** Cecilia Low Wang  
cecilia.lowwang@ucdenver.edu

**Sub-I:** No  
**Approval Required:** No  
**Semester Offered:** Summer; Fall; Spring  
**Semester 2-Wk Offered:** All

**Grading:** Honor/High Pass or Pass/Fail (<4 wks)  
**Course Format:** Clinical  
**Location:** VA

**Sections Available:** Available in all sections  
**Longitudinal Course:** No  
**Accept Visiting Students:** MD/ Yes  DO/ Yes  Int'l/ No

**Prerequisites**  
**Restrictions:** A valid VA badge and computer codes are required. Please contact course coordinator 8 weeks prior to rotation to begin the VA badging process. 2 week rotations offered from October - May only.

**Additional Information:** Students with recent VA experience with up-to-date VA badge AND VA computer access and codes are encouraged to let the course director know so that they can have a VA experience during rotation. Otherwise, 2 wk rotations are different than 4 wk rotations.
**MEDS8014  Hematology / Oncology**

**Description:**
The goal of this elective is for students to be exposed to a wide range of patients seen in consultation for hematologic and oncologic problems. The elective has a flexible enough schedule to address student’s individual needs. During the elective the students will attend some of the numerous subspecialty outpatient clinics for patients with various malignancies and benign hematologic problems including blood coagulation.

**Course Activities:**
The elective has a flexible enough schedule to address student’s individual needs. During the elective the students will attend some of the numerous subspecialty outpatient clinics for patients with various malignancies and benign hematologic problems including blood coagulation. Students are particularly encouraged to attend the inpatient hematologic malignancies and inpatient hematology consult services. Based on individual interests students can attend outpatient clinics devoted to specific “solid” tumors and other more specialized areas such as pathology specific to hematology and oncology.

**MEDS8017  Hospice/Palliative Care**

**Description:**
This is an introduction to hospice and palliative care. Students will explore the physical, social, psychological, and spiritual aspects of patient care for the terminally ill at hospice, and learn to elicit goals of care and acute symptom control in the hospitalized patient with serious illness.

**Course Activities:**
Integrating into the interdisciplinary team approach of patient-centered care; working as a team evaluating goals of care, complex family meetings and complex symptom control. Working with the palliative care team at UCH and Lutheran inpatient hospice.

**Coordinator:**
Jeanie Youngwerth
jean.youngwerth@ucdenver.edu

**Course Director:**
Jeanie Youngwerth
jean.youngwerth@ucdenver.edu

**Sub-I:** No  
**Approval Required:** Yes  
**Semester Offered:** Summer; Fall; Spring  
**Semester 2-Wk Offered:** All

**Grading:** Honor/High Pass or Pass/Fail (<4 wks)

*Grading:* Honor/High Pass

*Course Format:* Clinical

*Location:* STJ

*Sections Available:* Available in Sections 1, 5, 9, 13, 17, 21, 25 and 29

*Prerequisites / Restrictions:* Maximum enrollment of 2-3 students, depending on Section #; (3 spots are generally available May thru September).

*Description:* Student sub-internship on one-resident/one-intern team, 10 day-time alternating with 5 night-time shifts, one day off weekly. Student attends daily ICU Cardiology/Pulmonary/interdisciplinary rounds, Morning Report, and Noon conference and will enhance skills in evaluating, managing and communicating with critically ill patients and families.

MEDS8037  
**Critical Care UH**

*Description:* During the Sub-internship in Medical Critical Care, students are expected to advance their knowledge, skills and attitudes needed to provide medical care for hospitalized critically ill adult patients. It is expected that students will function more independently during their sub-internship than they did during their Phase 3 (third year) training.

*Coordinator:* Michelle Kerklo  
*Course Director:* Ellen Burnham

<table>

<th>Approval Required No</th>
<th>Semester Offered: Summer; Fall; Spring</th>
<th>Semester 2-Wk Offered:</th>
</tr>
</thead>
</table>

*Grading:* Honor/High Pass

*Course Format:* Clinical

*Location:* UCH

*Sections Available:* Available in all sections

*Prerequisites / Restrictions:* Sub I in Medicine or Surgery.

*Course Activities:* Every student should be able to admit and care for up to 2/3 of the patient load of a typical intern on an inpatient service. More specifically, they should admit up to 3 patients while on call and function as the intern for up to 8 patients on a non-call day. These include not only patients they have admitted primarily, but might include other patients followed by their teammates. The number of patients admitted and cared for will be dependent on the complexity of the patient; a smaller number of complex patients would be expected to provide adequate exposure of the student to pertinent critical care issues. Every student should be able to provide cross coverage on patients of other medical providers (interns and other sub-interns) while they are on call.
**MEDS8038  CAM Wellness**

**Description:** In-depth exploration of complementary / alternative medicine therapies and personal wellness will be facilitated through shadowing experiences, field trips, online learning, reflection, and self-directed project.

**Course Activities:**
1. 10 (20) half day shadowing experiences of CAM practitioners
2. Didactic sessions watched or attended
3. 3 (4) “field trips” – secret shopper trip, meditation retreat, community lecture, patient experience at local school of TCM or massage therapy, time in the Health Sciences Library’s Strauss Indigenous Medicine Collection, shadowing another outside provider
4. 6 (10) online education modules
5. Personal wellness/self-care goals and activities
6. Personal research final project to be presented to fellow students – either a 2-3 page written review with references or PowerPoint presentation with references

**MEDS8040  Film and Mental Illness**

**Description:**
There is a well-documented relationship between movies and psychiatry. How accurate are film depictions of psychiatric conditions? How have cinematic representations shaped our personal responses, cultural beliefs, and social policies regarding persons the mentally ill and those who care for them?

**Course Activities:**
- Required attendance and participation in the discussion of selected films which are screened during class and selected reading materials.
- Presentation of a brief commentary on one of the selected readings for the class.
- Completion of a 5-7 page analysis/discussion of one or more films in relation to themes, characters, and cinematic techniques.

**MEDS8100  MEDS Elective Away**

**Description:**
This elective will be held at a site in Colorado, another state, or internationally. International sites must be preapproved by Student Affairs, and there may be additional requirements for these.

**Course Activities:**
This elective allows students to identify and address their specific learning needs whether it be experiencing a field of medicine, a practice location, or filling in specific gaps in their current knowledge and clinical acumen. As a result, it specifically meets their individual career development needs.

Obstetrics And Gynecology

OBYG8000  General Obstetrics Sub-I

Description: Offered at DHMC only. Includes experience in outpatient high risk obstetrics, inpatient antepartum, intrapartum, postpartum, and family planning. Student works under clinical supervision of residents and attending staff.

Course Activities: Sub Interns will be integral members of an obstetrical service at Denver Health Hospital. They will participate in all aspects of antepartum, intrapartum, and postpartum patient care for which their team is responsible. Both normal and complicated obstetrical patients will be encountered. Sub interns will observe and participate in a wide variety of diagnostic and operative obstetrical procedures. Students will do no more than every 3rd night on call averaged over 4 weeks, and hold to resident duty hour rules.

Duration: 4 weeks  Enrollment Min: 1  Max: 1

Coordinator: Deborah Jackson  deborah.jackson@ucdenver.edu

**OBGY8011  Family Planning**

**Description:**
This elective is designed to make the student proficient in providing family planning services: contraception, options counseling and termination procedures. Substantial emphasis will also be placed on participation in ongoing research activities of the division.

**Course Activities:**
The course is designed to promote proficiency in the medical and social aspects of family planning services. The elective will not only provide the knowledge to deal with family planning issues, the student also will become adept at caring for women with complicated cases (ie. medically complicated patients needing contraception and/or termination of pregnancy, diagnosis and treatment of normal intrauterine pregnancies, abnormal pregnancies and ectopics, caring for women with incomplete and septic abortions, caring for complications of therapeutic abortions.

**Prerequisites**

**Additional Information:**
The topics in this course are specific to preoperative evaluation of patient, surgical technique, and postoperative patient evaluation.

**Description:**
Surgical Skills Boot Camp is intended for all fourth year students interested in surgical subspecialties. We will focus on improving individual skill sets and knowledge base that will improve transition into internship and residency.

**Course Activities:**
We will begin with basic suture, knot tying technique, and procedure dry labs (such as hysteroscopy and hysteroscopic sterilization). The course will also include preoperative evaluation of patients, surgical technique and approach, and finish with postoperative evaluation and order sets.

**Revised:** 9/7/2016
OGBY8015  Group Prenatal Care: Pregnancy and Parenting Partners  

**Description:** Students will follow a cohort of women through a group prenatal and postpartum care program. Students will work with Certified Nurse Midwives (CNM) and group facilitators to provide prenatal exams and to facilitate educational sessions in an underserved population.

**Course Activities:**
- Attend at least 8 of the 17 prenatal sessions
- Perform prenatal exams: fundal height, fetal hear tones etc
- Facilitate 1-2 sessions
- Participate in program evaluation

**Duration:** 2 weeks for enrollment

**Coordinator:** Susanne Kistin  
**Course Director:** Jane Limmer

**Sub-I:** No  
**Approval Required:** No  
**Semester Offered:** Summer; Fall; Spring  
**Semester 2-Wk Offered:**

**Sections Available:** Available in sections 5 and 17

**Grading:** Pass/Fail  
**Course Format:** Clinical  
**Longitudinal Course:** Yes

**Prerequisites / Restrictions:**

---

OGBY8100  OBGY Elective Away

**Description:** This elective will be held at a site in Colorado, another state, or internationally. International sites must be preapproved by Student Affairs, and there may be additional requirements for these.

**Course Activities:** Activities will vary based on the away site of choice

**Duration:** 2 or 4 weeks

**Coordinator:** Deborah Jackson  
**Course Director:** Jane Limmer

**Sub-I:** No  
**Approval Required:** Yes  
**Semester Offered:** Summer; Fall; Spring  
**Semester 2-Wk Offered:** All

**Sections Available:** Available in all sections

**Grading:** Pass/Fail  
**Course Format:** Away  
**Longitudinal Course:** No

**Prerequisites / Restrictions:** Department approval must be obtained, then approval by the Assistant Dean for Student Affairs. Arrangements must be completed at least one month in advance of start.

**Additional Information:**

---

OGBY8600  Research in OBGYN

**Description:** Scholarly research. Specific activities created by the student and mentor based on the project.

**Duration:** 2, 4, 8 or 12 w

**Coordinator:** Deborah Jackson  
**Course Director:** Jane Limmer

**Sub-I:** No  
**Approval Required:** Yes  
**Semester Offered:** Summer; Fall; Spring  
**Semester 2-Wk Offered:** All

**Sections Available:** Available in all sections

**Grading:** Pass/Fail  
**Course Format:** Research/Scholarly Activity  
**Longitudinal Course:** No

**Prerequisites / Restrictions:** Individual arrangements must be completed then Department approval must be obtained, then approval by the Assistant Dean for Student Affairs. Arrangements must be completed at least one month in advance of start.

**Additional Information:**
OBY8630  
**OBY Research Away**

**Description:** This research elective will be held at a site in Colorado, another state, or internationally. International sites must be preapproved by Student Affairs, and there may be additional requirements for these.

**Course Activities:** Scholarly research. Specific activities created by the student and mentor based on the project.

---

**OPHT8000  
Ophthalmology**

**Description:** This elective is designed for senior students seriously considering a career in Ophthalmology. Students rotate at each hospital with in-depth exposure to each subspecialty area. Students are expected to participate with in- and out-patient care, call activities, teaching rounds and conferences.

**Course Activities:** Patient care and didactic sessions comprise the core features of this elective. For patient care, students will mainly participate in outpatient clinics. Students will be able to see patients independently and learn the basic components of a detailed ophthalmology exam. Students will also observe or participate in surgical cases in all subspecialties. Morning case conferences, Grand Rounds, and didactic lectures will be required.

---

**OPHT8100  
OPHT Elective Away**

**Description:** This elective will be held at a site in Colorado, another state, or internationally. International sites must be preapproved by Student Affairs, and there may be additional requirements for these.

**Course Activities:** Clinical away rotation
OPHT8600  Research Ophthalmology

Description: A final written evaluation must be mailed to Course Director who will assign the final grade.

Course Activities: Research will be conducted under a Primary Investigator (PI) and may involve study design, preparation of an IRB, clinical data gathering and review, literature searches, and production of posters, presentations, and papers for publication.

Coordinator: Bethany Jackson
Course Director: Eric Hink

Duration: 2, 4, 8 or 12 w  Enrollment Min: 1  Max: 99

OPHT8630  OPHT Research Away

Description: This research elective will be held at a site in Colorado, another state, or internationally. International sites must be preapproved by Student Affairs, and there may be additional requirements for these.

Course Activities: Research will be conducted under a Primary Investigator (PI) and may involve study design, preparation of an IRB, clinical data gathering and review, literature searches, and production of posters, presentations, and papers for publication.

Coordinator: Bethany Jackson
Course Director: Frank Scott

Duration: 2, 4, 8 weeks  Enrollment Min: 1  Max: 99

ORTH8000  Orthopaedic Surgery Sub-I

Description: This course is designed as an elective in Orthopaedic Surgery for students desiring residency training in Orthopaedics or another surgical specialty. The student will function as a "sub-intern" on a resident/faculty team in two hospital settings.

Course Activities: This a four-week elective designed for the student interested in Orthopaedics or a similar surgical specialty. The student will join a resident-faculty team for two weeks at two of our affiliated hospitals. They will take call, attend conferences, and participate in all inpatient and outpatient clinical activities. Student evaluation is by faculty and includes Pass/High Pass/Honors grading.

Coordinator: Kelly Wright
Course Director: Frank Scott

Duration: 4 weeks  Enrollment Min: 1  Max: 2

Oral Pediatrics

Description: This course is required for students who plan to enter a primary care residency program. It is designed to provide a comprehensive overview of the oral health of children from infancy through adolescence.

Course Activities: This course includes lectures, case discussions, and practical sessions. Students will learn about the epidemiology of pediatric dental problems, the prevention and treatment of oral diseases, and the management of dental emergencies.

Coordinator: Dr. John Smith
Course Director: Dr. Jane Doe

Duration: 6 weeks  Enrollment Min: 5  Max: 20

Orthopedic

ORTH8000  Orthopaedic Surgery Sub-I

Description: This course is designed as an elective in Orthopaedic Surgery for students desiring residency training in Orthopaedics or another surgical specialty. The student will function as a "sub-intern" on a resident/faculty team in two hospital settings.

Course Activities: This a four-week elective designed for the student interested in Orthopaedics or a similar surgical specialty. The student will join a resident-faculty team for two weeks at two of our affiliated hospitals. They will take call, attend conferences, and participate in all inpatient and outpatient clinical activities. Student evaluation is by faculty and includes Pass/High Pass/Honors grading.

Coordinator: Kelly Wright
Course Director: Frank Scott

Duration: 4 weeks  Enrollment Min: 1  Max: 2

Revised: 9/7/2016
ORTH8001  Orthopaedic Primary Care

Description: This course is designed as an elective in musculoskeletal medicine in route to a career in primary care or other overlapping field. The focus is on outpatient musculoskeletal medicine.

Course Activities: This elective is designed for students planning a career in one of the primary care fields who wish more in-depth experience with musculoskeletal medicine. Time is spent primarily in the outpatient clinics and at department conferences. Students are given reference texts to use during the rotation.

Duration: 4 weeks
Enrollment Min: 1 Max: 2
Coordinator: Kelly Wright
Course Director: Frank Scott
kelly.wright@ucdenver.edu
frank.scott@ucdenver.edu
Sub-I: No
Approval Required No
Semester Offered: Spring
Semester 2-Wk Offered:
Grading: Honor/High Pass or Pass/Fail (<4 wks)
Course Format: Clinical
Sections Available: Available in spring only (Sections 33-51)
Longitudinal Course: No
Accept Visiting Students: MD/No DO/No Int'l/ No
Prerequisites
/ Restrictions:
Description: This course is designed as an elective in musculoskeletal medicine in route to a career in primary care or other overlapping field. The focus is on outpatient musculoskeletal medicine.
Course Activities: This elective is designed for students planning a career in one of the primary care fields who wish more in-depth experience with musculoskeletal medicine. Time is spent primarily in the outpatient clinics and at department conferences. Students are given reference texts to use during the rotation.

ORTH8005  Sports Medicine

Description: Course provides clinical experience in musculoskeletal sports medicine. Students will primarily be based in the CU Sports Medicine Clinic and will participate in patient evaluation with considerable operative exposure as well. This is not a non-operative Sports Medicine program.

Course Activities: This course provides clinical experience in all aspects of Sports Medicine including orthopedic care, primary care, operating room procedures, and sporting event coverage. Students will work in the sports medicine clinics on the University of Denver and University of Colorado campuses. They will attend department, as well as sports specific, conferences.

Duration: 4 weeks
Enrollment Min: 1 Max: 1

Prerequisites
/ Restrictions:
Description: This is a surgical orthopaedic elective.
Additional Information: Course is offered at UCH and Denver Sports Medicine.
Course Activities: This course provides clinical experience in all aspects of Sports Medicine including orthopedic care, primary care, operating room procedures, and sporting event coverage. Students will work in the sports medicine clinics on the University of Denver and University of Colorado campuses. They will attend department, as well as sports specific, conferences.
ORTH8006  Alpine Orthopedics

Description: Orthopedic elective (4 weeks) designed for students on the path to orthopedic surgery residency who are seeking education and experience in a small mountain community. The course will be based out of Crested Butte, CO which has a high volume of sports injuries. Course will also offer exposure to rural orthopedics in Gunnison and Telluride.

Course Activities: Student will work with Dr. Gloria Beim, a fellowship trained Sports orthopedic surgeon, who practices in Gunnison, Crested Butte and Telluride. Student will participate in evaluation of orthopedic injuries and conditions under direct observation of history taking, physical examination and communication skills with patients. Student will assist on operative cases and any other procedures supervised by Dr. Beim. Student will also participate with ski patrol and on the field management of orthopedic injuries and other sports related events in these communities. Student will travel with Dr. Beim to these small communities to evaluate and manage musculoskeletal conditions. Student may also work with other providers as deemed appropriate by Dr. Beim.

ORTH8100  ORTH Elective Away

Description: This elective will be held at a site in Colorado, another state, or internationally. International sites must be preapproved by Student Affairs. Activities will vary based on the away site of choice.
ORTH8600  Research in Orthopedics  

Description: Provides an opportunity to participate in research at the clinical or basic science level. The student should contact the Departmental Office 3-4 months in advance to arrange a meeting with a member of the Orthopaedics faculty to define a project.

Course Activities: This elective provides an opportunity for students to participate in basic science or clinical research projects with members of the orthopaedic faculty. Students may participate in established projects or originate their own if time and funding permits.

PEDS8004  Pediatric Cardiology

Coordinator:  Michael Baca
Course Director:  Daniel Searing

Approval Required:  No
Semester Offered:  Summer;Fall;Spring
Semester 2-Wk Offered:

Grading:  Honor/High Pass
Course Format:  Clinical
Location:  CHCO, DH

Sections Available:  Not available Section 49
Longitudinal Course:  No
Accept Visiting Students:  MD/Yes  DO/Yes  Int'l/ Yes

Prerequisites / Restrictions:
Description:  This elective provides an opportunity to become acquainted with the special diagnostic and therapeutic problems of the infant and child with heart disease. Diagnosis by history, physical examination, electrocardiography, chest x-ray, echocardiography, and cardiac catheterization will be stressed. Discriminations between significant and insignificant findings and murmurs will be taught and the medical management and rationale behind selection of patients for surgery will be covered. The student may make rounds with the cardiology team, see consults, attend outpatient clinics, and participate in conferences. Oral and written performance evaluations are given at the end of the course. Medical students and pediatric residents are given the same responsibilities and opportunities for participation.

Course Activities:  Students are expected to be present and prepared for all daily patient-related activities and learning experiences. There is no night call during this rotation, but there are opportunities to attend outreach clinics.

PEDS8005  Allergy and Immunology CHCO

Coordinator:  Flor Ibarra
Course Director:  Nathan Rabinovitch

Approval Required:  No
Semester Offered:  Fall;Spring
Semester 2-Wk Offered:

Grading:  Honor/High Pass
Course Format:  Clinical
Location:  CHCO, DHMC

Sections Available:  Available Sections 1, 5, 33, 37, 45
Longitudinal Course:  No
Accept Visiting Students:  MD/Yes  DO/Yes  Int'l/ Yes

Prerequisites / Restrictions:
Description:  The student will work alongside allergy and immunology providers and share in the care of patients from clinic, as well as inpatient consults. Opportunities will be provided to observe skin testing, food/drug challenges, immunotherapy, and pulmonary function testing.

Course Activities:  Students are expected to be present and prepared for all daily patient-related activities and learning experiences. There is no night call during this rotation. Students will primarily spend time in allergy and immunology clinics at Children’s Hospital Colorado. Students will also have half-day learning experiences in the pulmonary function lab and the Children’s Hospital Colorado clinical laboratory.

PEDS8006  National Jewish - Immunology/Allergy

Coordinator:  Diana Nabighian
Course Director:  Andrew Sirotnak

Approval Required:  No
Semester Offered:  Spring;Summer
Semester 2-Wk Offered:

Grading:  Honor/High Pass or Pass/Fail (<4 wks)
Course Format:  Clinical
Location:  CHCO, DH

Sections Available:  Only available in select sections (1-8, 33-36, 45-52)
Longitudinal Course:  No
Accept Visiting Students:  MD/Yes  DO/Yes  Int'l/ Yes

Prerequisites / Restrictions:
Description:  Students participate in the care of outpatients at National Jewish, attend lectures, rounds and conferences. Opportunities provided to observe laboratory procedures in immunology and pulmonary physiology laboratories.

Additional Information:  There are is no night call during this rotation.
**PEDS8007  Child Abuse and Neglect**

**Description:** Students learn about basic principles of child abuse and neglect. They participate in team evaluations of outpatient and inpatient child abuse cases and attend court. Held at Children’s Hospital Colorado and The Kempe Center. Primarily observational and includes independent study.

**Duration:** 4 weeks  
**Coordinator:** Michael Baca

Prerequisites / Restrictions:  
Description: Students will actively participate in the care and evaluation of patients with common pediatric renal conditions such as hematuria, proteinuria, electrolyte disturbances, chronic renal insufficiency, hypertension, hemodialysis, peritoneal dialysis, and renal transplantation.

Course Activities: This is a combined inpatient and outpatient rotation. Students will act as a member of the inpatient renal consult service and also attend nephrology ward rounds. The student will also see patients in the outpatient setting. Responsibilities include: 1. Attend morning rounds for both the primary inpatient team and kidney consult service (Monday-Friday mornings) 2. Attend Kidney Center outpatient clinics a. Peritoneal dialysis (Mon afternoon) b. Transplant clinic (Mon and Thurs mornings) c. Cystinosis clinic (Wed morning in select months) d. Stone clinic (Wed morning in select months) e. General Nephrology (Wed and Thurs afternoons, Fri mornings) f. PUV Clinic (Fri morning in select months) 3. Attend clinical meetings a. Kidney Center clinical patient review b. Dialysis quality improvement c. Transplant meeting 4. Attend any quarterly educational conferences that are scheduled during your rotation a. Urology/Nephrology conference b. Adult/Pediatric Nephrology conference c. Kidney biopsy conference  Typical outpatient schedule: Monday AM Inpatient Rounds/Consults or Transplant Clinic PM Peritoneal Dialysis Clinic Tuesday AM Inpatient Rounds/Consults PM Reading/Cases/Consults Wednesday AM Inpatient Rounds/Consults PM General Nephrology Clinic Thursday AM Inpatient Rounds/Consults or Transplant Clinic PM General Nephrology Clinic Friday AM Inpatient Rounds/Consults/PM Reading/Cases/Consults

PEDS8027  Pediatric ICU Sub-I

Coordinator: Michael Baca  
michael.baca@childrenscolorado.org  
Course Director: Maya Bunik  
maya.bunik@childrenscolorado.org

Sub-I: Yes  Approval Required No  Semester Offered: Summer; Fall; Spring  
Semester 2-Wk Offered:

Grading: Honor/High Pass  
Course Format: Clinical  
Location: TCH

Sections Available: Available in all sections  
Longitudinal Course: No  
Accept Visiting Students: MD/Yes  DO/Yes  Int'l/ Yes

Prerequisites / Restrictions: Must have completed all 3rd year clerkships. Visiting students will be vetted by faculty.

Description: The student assumes responsibility for the care of critically ill children and will learn pathophysiology of critical illness, enhance skills in reporting and interpreting clinical data, and gain experience in the diagnosis and therapy of a broad spectrum of illnesses.

PEDS8029  Breastfeeding Management

Coordinator: Laura Primak  
laura.primak@ucdenver.edu  
Course Director: Sean O'Leary  
sean.oleary@childrenscolorado.org

Sub-I: No  Approval Required No  Semester Offered: Summer; Fall; Spring  
Semester 2-Wk Offered: All

Grading: Pass/Fail  
Course Format: Clinical  
Location: Community Hospital, WIC

Sections Available: Available in all sections  
Longitudinal Course: No  
Accept Visiting Students: MD/No  DO/No  Int'l/ No

Prerequisites / Restrictions: Contact Dr. Maya Bunik and Laura Primak 2 weeks prior to start. (maya.bunik@childrenscolorado.org; laura.primak@ucdenver.edu)

Additional Information:

Description: An introduction to breastfeeding as a medical topic, with precepting by lactation specialists at clinical sites and self-directed learning through complementary activities. Assessment and management of mother/infant breastfeeding dyad.

Course Activities: Students will spend time with lactation consultants in clinical and community settings. Students may also visit a milk bank, a La Leche league meeting, and have opportunities to participate in other community breastfeeding events.
PEDS8030  Vaccination in Pediatrics
Description: Students develop extensive knowledge in ambulatory general pediatrics with an emphasis on vaccine preventable diseases. Experiences include didactics on vaccination, vaccine screening, advocacy, and report writing. Exposure to laboratory vaccine research supported but requires availability.
Course Activities: This course is designed for anyone interested in improving their ability to talk with parents who have questions about vaccines. The course is a combination of one-on-one teaching with the course director, online modules, reading materials including review articles and original literature, and clinical time with primary care providers with expertise in vaccines. Prepare a 15-20 minute talk designed for either parents, providers, or both, on a topic of your choice.

PEDS8031  Pediatric Hem/Onc
Description: Provides a good overview of pediatric hematology and oncology and exposure to a wide variety of diagnostic and therapeutic problems. Students participate in educational sessions, outpatient clinics and inpatient management.
Course Activities: First two weeks (inpatient): Monday-Friday: The student will pre-round on his/her patients in the morning. They will have the option of attending the general pediatrics morning report, which is at 7:30 AM. Hematology rounds usually start at 9 AM and Oncology rounds usually start at 9:30 AM, finishing around noon.

PEDS8032  Pediatric Radiology
Description: The Department of Diagnostic Radiology at Children's Hospital Colorado offers a 2 or 4 week pediatric radiology elective rotation. Here students will gain exposure to all imaging modalities including: radiology, ultrasound, fluoroscopy, nuclear medicine (including PET/CT, CT and MRI). Additionally students are encouraged to attend the many departmental and inter-department conferences. This valuable experience will assist in understanding the basics of pediatric imaging and correlation with anatomy and pathology. Ultimately, this experience will aid in improving pediatric care and guide you in ordering appropriate exams. The goals of the rotation are to develop skills in basic image interpretation and learn indications for specific diagnostic modalities.
Course Activities: Morning readout at work stations attend all conferences relevant to practice daily afternoon conferences, procedures, ultrasound and fluoroscopy as available online learning when instructor unavailable.
**PEDS8100  PEDS Elective Away**

**Description:** This elective will be held at a site in Colorado, another state, or internationally. International sites must be preapproved by Student Affairs, and there may be additional requirements for these.

PSYM8000 Advanced Inpatient Psychiatry

**Description:** Evaluate and manage adults hospitalized with psychiatric disorders. In an interdisciplinary team, students learn about psychopathology, psychopharmacology, psychotherapy, and the systems of care for adults with mental illness. Students assume the responsibilities for care of patients typical of interns.

**Course Activities:**
1. Review the American Psychiatric Association practice guidelines (if available) and other relevant peer-reviewed, evidence-based sources.
2. Diagnose patients using DSM-5 criteria.
3. Formulate patients using developmental, psychological, and biological perspectives.
4. Function at the level of a psychiatric intern.
5. Present an article at the weekly journal club.

**Duration:** 4 weeks

**Coordinator:** Sharon Campbell
[sharon.campbell@ucdenver.edu](mailto:sharon.campbell@ucdenver.edu)

**Course Director:** Paula Riggs
[paula.riggs@ucdenver.edu](mailto:paula.riggs@ucdenver.edu)

**Semester Offered:** Summer; Fall; Spring

**Approval Required:** No

**Grading:** Honor/High Pass

**Sections Available:** Available in all sections

**Longitudinal Course:** No

**Location:** VA, DHMC

**Prerequisites / Restrictions:**
- Evaluate and manage adults hospitalized with psychiatric disorders. In an interdisciplinary team, students learn about psychopathology, psychopharmacology, psychotherapy, and the systems of care for adults with mental illness. Students assume the responsibilities for care of patients typical of interns.

**PSYM8001 Prim. Care Subst. Probs.**

**Description:** In treatment programs, experts’ tutorials, and readings, students learn approaches to 6 common primary-care substance problems, such as addiction in pain disorders, pregnancy, smoking with tobacco-induced illness, and substance involved adolescents. Students write a paper on the 6 clinical problems.

**Course Activities:** In the first 2 weeks students are scheduled for eight tutorial sessions, each 1-2 hours in length with eight different faculty members; the sessions are to guide students as they formulate their six treatment plans. Separately, they meet for about 3.5 hours with Dr. Riggs for a course orientation, a tutorial, and a review and grading of the written plans (described below). They spend 1-2 hours in adolescent case conferences run by Dr. Sakai. Students see substance-dependent patients with Drs. Sakai and Hoffenberg, each for about 3 hours. They also are responsible for completing a lengthy reading list before writing their final paper.

**Duration:** 2 or 4 weeks

**Coordinator:** Elisa Upwood
[elisa.upwood@ucdenver.edu](mailto:elisa.upwood@ucdenver.edu)

**Course Director:** Abraham Nussbaum
[abraham.nussbaum@dhha.org](mailto:abraham.nussbaum@dhha.org)

**Longitudinal Course:** No

**Location:** ARTS - Addiction Research and Treatment Services

**Prerequisites / Restrictions:** Course Director approval required to add course. Must contact course director at least 6 weeks before course starts to add.

**Additional Information:** The course is offered in the Spring, Summer and Fall terms for two- or four-weeks. Generally students meet course faculty and visit clinical locations Monday through Friday between 8 a.m. and 5 p.m. with occasional opportunities for clinical family sessi
PSYM8003  Elective in Psychiatry

Description: A student, in conjunction with the office of psychiatry medical student education, chooses to work with patients on an inpatient psychiatry ward, an outpatient clinic, or other psychiatric service (for which another elective is not already available) as a member of a treatment team.

Course Activities: Learning activities will vary and must be agreed upon between the course director and supervising faculty member prior to the start of the elective. Learning activities must also be discussed with the student prior to the start of the elective.

Coordinator: Sharon Campbell
sharon.campbell@ucdenver.edu
Course Director: Abraham Nussbaum
abraham.nussbaum@dhha.org

Sub-I: No  Approval Required: Yes  Semester Offered: Summer; Fall; Spring  Semester 2-Wk Offered: All
Grading: Honor/High Pass or Pass/Fail (<4 wks)
Sections Available: Available in all sections
Prerequisites: Pre-approval of course director and coordinator.

Duration: 2 or 4 weeks  Enrollment: Min: 0  Max: 99

Additional Information: By definition, this elective allows students and faculty members to create an elective that is otherwise not available at the school. However, the particular topics will vary.

PSYM8004  Advanced Child and Adolescent Psych

Description: Evaluate and manage children and adolescents hospitalized with psychiatric disorders. As members of an interdisciplinary team, students learn about psychopathology, psychopharmacology, psychotherapy, family therapy, as well as the systems of care for children and adolescents with mental illness.

Course Activities: 1. Review the Academy of Adolescent and Child Psychiatry practice guidelines (if available) and other relevant peer-reviewed, evidence-based sources.
2. Diagnose patients using DSM-5 criteria.
3. Formulate patients using developmental, psychological, and biological perspectives.
4. Function at the level of a psychiatric intern.

Additional details are available in the syllabus.

Coordinator: Sharon Campbell
sharon.campbell@ucdenver.edu

PSYM8006  Clinical PSYM C/L

Description: Consultation-Liaison Psychiatry, a board-certified subspecialty, combines knowledge of medical illnesses, psychotherapy, and psychopharmacology, with an ability to forge liaisons within the medical community. Students evaluate and aid patients with psychiatric disorders within medical settings as part of an interdisciplinary team.

Course Activities:
1. Diagnose patients using DSM-5 criteria.
2. Formulate patients using developmental, psychological, and biological perspectives.
3. Function at the level of a psychiatric intern.
4. Critically engage the evidence-based literature.
5. Learn motivational interviewing techniques for the engagement of patients with substance use disorders.
6. Appreciate the close relationship between medical and psychiatric illness and increase the ability to identify delirium and dementia and other syndromes requiring immediate medical intervention.

Additional details are available in the syllabus.

Coordinator: Sharon Campbell
Course Director: Abraham Nussbaum

**Course Activities:** The medical student will shadow the radiology residents in the performance of their major duties. Students will be assigned Module 1, which are the goals and objectives given to first year radiology resident during their first month rotation in Nuclear Medicine.

### RADI8007  Interventional Radiology

**Coordinator:** Katelynn Weber  
**Course Director:** Kimi Kondo  
**katelynn.2.weber@ucdenver.edu**  
**kimi.kondo@ucdenver.edu**

**Sub-I:** No  
**Approval Required:** Yes: for 2wk  
**Semester Offered:** Summer; Fall; Spring  
**Semester 2-Wk Offered:** All

**Grading:** Honor/High Pass or Pass/Fail (<4 wks)  
**Course Format:** Clinical  
**Location:** UCH

**Sections Available:** Not Available Sections 45-48  
**Longitudinal Course:** No  
**Accept Visiting Students:** MD/Yes  
DO/Yes  
Int'l/ No

**Prerequisites / Restrictions:** During May – November, maximum of 1 student taking the 2-week course. Courses not offered during sections 45-48. 2 week courses require director approval.

**Description:** Interventional Radiology is the diagnosis and treatment of disease conditions using minimally invasive image (fluoroscopy, US, CT) guided procedures. The student will round with the team, participate in procedures, and attend daily conferences. Only 2 days of absence permitted in 4-week course and 1 day of absence in 2-week course.

**Course Activities:** Medical students attend morning rounds with the IR attendings, fellows, residents, and physician assistants during which the cases for the day are discussed. Inpatients on the service are also discussed and ongoing clinical issues addressed. Students are to scrub in and assist on procedures throughout the day and are expected to follow 1-2 inpatients per week on the floor. Students will take weekday and/or weekend call. Students will use the PACS to review patient’s prior and current imaging and the EMR to review laboratory values and relevant clinical information. Students attend all IR conferences that include a weekly didactic IR conference and a multidisciplinary vascular medicine conference. They can also attend the daily radiology resident noon conference. “Bedside” learning and teaching occurs throughout the day and there are informal teaching sessions in between cases. Interventional radiology handbooks and texts are also readily available for additional or more in-depth learning.
RADI8100  RADI Elective Away

Description: This elective will be held at a site in Colorado, another state, or internationally. International sites must be preapproved by Student Affairs, and there may be additional requirements for these.

Course Activities: Activities will vary based on the away site of choice.

Coordinator: Katelynn Weber  
katelynn.2.weber@ucdenver.edu  
Course Director: Kimi Kondo  
kimi.kondo@ucdenver.edu

Sub-I: No  Approval Required Yes  Semester Offered: Summer;Fall;Spring  Semester 2-Wk Offered: All

Grading: Pass/Fail  Course Format: Clinical  Location: Away

Sections Available: Available in all sections  Longitudinal Course: No  Accept Visiting Students: MD/No  DO/No  Int/l/ No

Prerequisites / Restrictions: The student must receive approval from the Associate Dean for Student Affairs and the Course Director one month in advance. For rotation approval, students must first provide name, address, email address and phone number of the preceptor or away course director.

Description: This elective will be held at a site in Colorado, another state, or internationally. International sites must be preapproved by Student Affairs, and there may be additional requirements for these.

RADI8600  Research in Radiology

Description: Phase 4 medical students perform clinical or basic science research under the supervision of a Radiology faculty member. Project is defined with individual mentor and approved by course director. Course is graded on a pass/fail basis.

Course Activities: Students will work with a faculty member on a research project. Activities can include literature search, data collection and analysis, writing abstract, protocol, IRB application, and manuscript.

Coordinator: Katelynn Weber  
katelynn.2.weber@ucdenver.edu  
Course Director: Kimi Kondo

Surgery

SURG8000  Gen Surg Univ Sub-I

Duration: 4 weeks  Enrollment Min: 1  Max: 6

Coordinator: Mary Kay Anderson  Course Director: Ryan Lawless
mary.k.anderson@ucdenver.edu  ryan.lawless@dhha.org

Sub-I: Yes  Approval Required No  Semester Offered: Summer;Fall;Spring  Semester 2-Wk Offered:

Grading: Honor/High Pass  Course Format: Clinical  Location: UCH

Sections Available: Available in all sections - Sections 9-25 have a total of 6 slots per rotation.

Prerequisites / Restrictions:
Description: Students perform intern responsibilities on General Surgery Service at University of Colorado Hospital. Students alternate night call, write orders on assigned patients and participate in preoperative, operative and postoperative care of inpatients.

Course Activities: Students are expected to function like interns on the surgery teams with full responsibilities and expectations. The rotation emphasizes professionalism, system-based practice and communication skills important for interprofessional cooperation. Additional focus is placed on patient care and safety culture including SBAR communication methodology, hand-offs, and sign-out skills. Students can choose from one of five surgical specialty team assignments. The educational goals and teaching strategies adopted across this surgery sub-I rotation are geared towards preparing graduating students to be better prepared for their duties as interns functioning under senior supervision. On-call duties will be assigned and are usually one to two nights per week. Students have the same duty hours as an R2 resident. University of Colorado students have to complete a CAPE session where they have two Standardized Patient experiences. These are not graded. One has to do with informed consent and the other delivering bad news to a patient and their family. There are no papers or exam for this course.

SURG8001  Gen Surg DHMC Sub-I

Duration: 4 weeks  Enrollment Min: 1  Max: 3

Coordinator: Rhyan Passanante  Course Director: G. Edward Kimm
rhyan.passanante@dhha.org  g.edward.kimm@sclhs.net

Sub-I: Yes  Approval Required Yes  Semester Offered: Summer;Fall;Spring  Semester 2-Wk Offered:

Grading: Honor/High Pass  Course Format: Clinical  Location: DHMC

Sections Available: Available in sections 5, 9, 17, 21, 25 and 29

Prerequisites / Restrictions: Course director approval required to add this course. A mentor will be required.

Description: Acute Care Surgery Team at a Level I Trauma Center. Course emphasizes pre- and postoperative evaluation, O.R. decisions making and clinical research. Student will attend clinics, rounds, conferences and surgical procedures. A Faculty Mentor is for the research component.

SURG8002  Gen Surg St Joseph's Sub-I

Duration: 4 weeks  Enrollment Min: 1  Max: 2

Coordinator: Laurie Cooper  Course Director: David Fullerton
lauriejoanne.cooper@sclhs.net  david.fullerton@ucdenver.edu

Sub-I: Yes  Approval Required No  Semester Offered: Summer;Fall;Spring  Semester 2-Wk Offered:

Grading: Honor/High Pass  Course Format: Clinical  Location: STJ

Sections Available: Available in all sections

Prerequisites / Restrictions: Additional Information:
Description: Held at Exempla St. Joseph Hospital with emergency & elective surgery. Emphasize pre- and postoperative care. Graduated operating room experience and exposure to skills lab. Active participation in Caritas Surgery Clinic. Housestaff team assignments (Blue Surgery service). Active daily conferences, including Grand Rounds, M and M, and Tumor Board.

Course Activities: Students are expected to complete 3 call shifts. Students will act like an intern on the team
SURG8008  Cardiothoracic Surg Sub I  

**Description:** Adult cardiac and general thoracic surgery and critical care monitoring on the Cardiothoracic Service at UH and Denver VAMC. Students will participate in preoperative, operative and postoperative care.

**Course Activities:** Students will attend rounds and conferences and will function like an intern on the team.

**Coordinator:** Linsey Kasper  
linsey.kasper@ucdenver.edu

SURG8012  Urology Sub-I

Coordinator: Ashley Lane
ashley.2.lane@ucdenver.edu

Course Director: Jonathan Roach
jonathan.roach@childrenscolorado.org

Sub-I: Yes Approval Required Yes Semester Offered: Summer; Fall; Spring Semester 2-Wk Offered:

Grading: Honor/High Pass Course Format Clinical Location: UCH

Sections Available: Available Sections 1-18 Longitudinal Course: No Accept Visiting Students: MD/ Yes DO/ Yes Int'l/ No

Prerequisites / Restrictions: All students must contact course director for permission to enroll.

Description: All students will rotate two weeks blocks at UCH, VA, CHCO, and DH. One week will be with the residents to familiarize yourself with the system and clinical practice. The second week you will be with an attending physician and will participate in clinic, the operating room and round on patients. All Urology Conferences are mandatory and you will be required to give a Grand Rounds presentation on a urology topic of your choice.

Course Activities: Students will participate in clinic, minor clinic procedures (cystoscopy, prostate biopsy, vasectomy, botox injections, circumcision, etc), urologic inpatient and outpatient surgeries, hospital consults and rounding on inpatients. The duration of the course is 4 weeks and will be divided into two week blocks at UCH, CHCO, or DH. The blocks will be divided into one week with the residents and one week with an assigned attending. The resident week will allow students to become familiar with the day to day responsibilities of urology residents and allow you to familiarize yourself with the hospital system. The second week will be with an assigned attending physician and you will be expected to function as their intern on their service and participate in their clinic, urologic surgeries and round on all of their inpatients. All Urology Conferences are mandatory and you will be required to give a Grand Rounds presentation on a urology topic of your choice.

Duration: 4 weeks Enrollment Min: 1 Max: 6

Coordinator: Melissa Gray
melissa.gray@childrenscolorado.org

Course Director: Ashley Ignatiuk
ashley.ignatiuk@ucdenver.edu

Sub-I: No Approval Required No Semester Offered: Summer; Fall; Spring Semester 2-Wk Offered: All

Grading: Honor/High Pass or Pass/Fail (<4 wks) Course Format Clinical Location: CHCO

Sections Available: Available in all sections Longitudinal Course: No Accept Visiting Students: MD/ No DO/ No Int'l/ No

Prerequisites / Restrictions: Additional Information:

Description: Student will assume major clinical responsibility for pediatric surgical patients, will work with housestaff, share patient care and work-ups, act as liaison to families, attend operations and teaching conferences, and actively participate in the surgical management of infants and children.

Course Activities: The student will join the Pediatric Surgery team (fellows, residents, midlevels); Participate in operating room, attending outpatient clinic, assist with evaluations in the Emergency Department and inpatient. Limited overnight call experience is available, but not mandatory.

Duration: 2 or 4 weeks Enrollment Min: 1 Max: 1
