CDPHE Hepatitis Program (www.colorado.gov/cs/Satellite/CDPHE-DCEED/TEXT/1251607766246)
The Viral Hepatitis Program was established in September 2000 to centralize hepatitis prevention activities in the Disease Control and Environmental Epidemiology Division (DCEED). The Program seeks to prevent the spread of viral hepatitis in Colorado, limit the progression and complications of viral hepatitis related liver disease, and advocate for viral hepatitis policies and resources.

Colorado Association for School-Based Health Care (www.casbhc.org)
CASBHC advocates for health care in schools for Colorado's children and adolescents. They provide policy leadership, training and technical assistance, and quality assurance programs. Their mission is to keep children healthy, in school and ready to learn.

Colorado Coalition for the Medically Underserved (CCMU) (www.ccmu.org)
CCMU is committed to access to affordable, timely, quality health care for everyone in Colorado recognizing that health care coverage should be universal and continuous for individuals and families. CCMU recognizes that only a comprehensive solution will ensure health care for all while controlling costs and promoting quality care and that in the absence of a comprehensive solution, they will embrace policies and programs that improve and expand existing health care access, and protect and strengthen the medical safety net.

Colorado Consumer Health Initiative (www.cohealthinitiative.org)
The Colorado Consumer Health Initiative is a statewide, consensus-based membership organization comprised of over 200 organizational and individual health care consumer advocates, forming a unified voice for consumers in Colorado's health care reform debate.

Colorado Health Insurance Cooperative (www.cohealthop.org)
Colorado HealthOP was established in response to the growing demand for feasible, affordable health care for individuals and small businesses throughout the Rocky Mountain region. Plans will be available through Connect for Health Colorado and independent brokers beginning October 2013, with plans taking effect in January 2014.

Health Teamworks (www.healthteamworks.org)
HealthTeamWorks focuses on continuous quality improvement using a systems approach. Less-than-optimal care rarely arises from lack of medical knowledge, but rather comes from the absence of reliable, efficient processes and systems that make it easy to apply consistent guidelines and protocols. We live by the words of our CEO, Marjie Harbrecht, MD, a family physician who points out that “Knowledge is crucial, but it is only as valuable as the systems used to reliably apply it.”
JFK Partners ([www.jfkpartners.org](http://www.jfkpartners.org))
The mission of JFK Partners is to promote the independence, inclusion, contribution, health, and well-being of people with developmental disabilities and special health care needs and their families through consumer, community, and university partnerships. At the core of this mission is a commitment to family and person-centered, community-based, and culturally competent programs and services. This mission is accomplished through the pursuit of excellence in education and training, consultation, technical assistance, direct service, research, program development, policy analysis, and advocacy.

ONEColorado ([www.one-colorado.org](http://www.one-colorado.org))
One Colorado is a statewide advocacy organization dedicated to securing and protecting equality and opportunity for lesbian, gay, bisexual, and transgender (LGBT) Coloradans and their families. We work toward that goal by effectively advocating for LGBT Coloradans and their families and by lobbying the General Assembly, executive branch, and local governments on issues like safe schools, relationship recognition, and LGBT health and human services. Our vision is a fair and just Colorado.

Urban Peak ([www.urbanpeak.org](http://www.urbanpeak.org))
Urban Peak helps homeless youth and youth at risk of being homeless overcome real life challenges by providing essential services and a safe community, empowering them to become self-sufficient adults.
