Meet Our New MSI Class

Sarah Haeger

I was born and raised in Newark, Ohio and attended Ohio University, where I obtained my Bachelor of Science in Biochemistry and Molecular Biology, with a minor in Chemistry. Following graduation, I moved to Columbus, Ohio and attended The Ohio State University College of Medicine, where I completed the Ohio State University-Massachusetts Institute of Technology Biomedical Engineering Program. After graduating, I moved to Colorado and attended the University of Colorado School of Medicine, where I am currently entering my second year of medical school.

Katie Hogue

I was born and raised in Martinez, CA. I graduated from University of the Pacific with a Bachelor of Science in Chemistry and a minor in Neuroscience. I am currently a second-year medical student at the University of Colorado. My research interests include neuroimmunology, particularly in the context of neurodegenerative diseases. I am also interested in the role of gut microbiota in the development of multiple sclerosis.

Tyler Robin

I was born in New York City and grew up in a family owned business on Long Island. I then attended the University of Pennsylvania, where I received a Bachelor of Science in Chemistry. After graduating, I moved to Philadelphia and attended the Medical University of South Carolina, where I am currently in my third year of medical school. I am interested in the field of neuroimmunology, particularly in the context of multiple sclerosis.

Tomico Thomas

I was born in Barcelona, Spain and grew up in Madrid, Spain. I attended the University of Navarra in Spain, where I received a Bachelor of Science in Biology. After graduating, I moved to the United States and attended the University of Colorado School of Medicine, where I am currently in my first year of medical school. I am interested in the field of neuroimmunology, particularly in the context of multiple sclerosis.
