Scheduling Principles

- 28 Day cycle
- Match schedule, and skill to volume, i.e. level loading
- Match skill to need
- Shift hours < 14 hours
- Staggered shift starts
- No pre-rounding/distribution of tasks
- 10 hours off between shifts
- More faculty involvement
- Scheduling models based on lean interventions
- Team rounding
- Teach faculty to coach
- Remove non-MD tasks
- Standardized/optimized handoff
- Discharge process
- Moonlighting (internal and external will be counted in new duty hour rules)
