To gain access to UCH’s scrub machines, you will need to bring your UCH badge to the ID Access/Badging cubicle, located on the north end of the 9th floor of the Leprino Building.

To use the scrub machines, hold your badge against the scanner (below or to the right of the touch-screen) for a few seconds. It does not matter which direction your badge is facing – the proximity scanner reads a chip inside your badge.

The first time you use the machine, it will ask for your preferred size. This size will save as your default size unless you change your preferred size using the touch-screen menu.

You must return your scrubs to the scrub machines in order to get scrub credits back. If you run out of credits by failing to return scrubs, you will be charged $17 per credit to replace them.

UCH’s scrub machines are located in/on:

- AIP 1st floor, in room 1.2319 near Sterile Processing and Dialysis
- AIP OR, inside the OR Control Room, 2nd floor of the Critical Care Expansion next to the waiting room near the Orange Elevators.
- Outside the Cath Lab, 3rd floor of the Critical Care Expansion (restricted area)
- AOP Day Surgery, 2nd floor of the Outpatient Pavilion (restricted area)
- AIP 4th floor, east side (restricted area)
- AIP Pharmacy on 4th floor (restricted area)

Each time you get a new badge, you will need to have it scanned for access to the scrub system. If you experience problems with access, or if a scrub machine is malfunctioning, please call Dulce Munoz at extension 720-848-4840.
