Note to Incoming GME Residents: Spring is a busy time at DORA with many different types of healthcare professionals graduating and seeking licensure for the first time. To ensure your license is issued before your residency start date, plan to submit a complete application as soon as you accept a residency in Colorado. This is especially important if you need to disclose previous contact with law enforcement that involved drugs or alcohol, or, if you need to disclose a mental or physical condition. These situations may require evaluation prior to the issuance of your license, which may extend application processing times by 10-12 weeks. Remember, you cannot begin your residency without a license or temporary permit issued by the Colorado Medical Board.

1. Program Coordinators must find out from PD what type of license resident must have and who is responsible for paying the cost of the license. Every resident **MUST** have either an active Colorado Medical License ($412) or a Physician Training License ($10) number by the start of the program. Processing time for training licenses takes 8-10 weeks.

2. Program Coordinators must inform the resident as to which license is required and refer resident to the Colorado Medical Board (CMB) website [https://www.colorado.gov/dora/Medical_Board](https://www.colorado.gov/dora/Medical_Board). Applications can be downloaded and/or completed online so long as the Resident is paying the fee, and has all supporting documents available for upload. Refer to [CMB Training License Checklist](https://www.colorado.gov/dora/Medical_Board).

3. If not completed online, the PC must inform the resident if the license application should be mailed back to the PC or sent directly to the CMB. It is the responsibility of the PC to confirm that the resident obtained a license before the start of training and put the information into MedHub under the Resident Demographics – Certifications Tab.

4. Residents should include either the program or a permanent mailing address on the application for licensure.

5. Confirmation of licensure including wallet cards may be e-mailed to Residents from the Department of Regulatory Agencies from the following e-mail address: no-reply@www.colorado.gov.

6. Program Directors do not need to sign every Training License application. Donna Bame at the CMB will accept one signed letter (on program letterhead) from each PD stating that s/he is responsible for the supervision of the new residents with training licenses (list every resident by name).

5. A Letter of Attestation (or Program Statement Form) only needs to be sent to the CMB by the program if the license application is not sent to the CMB in time for processing and Resident needs the 60-day temporary permit. Be sure to indicate the name of the resident, your program name and PC’s phone number.

6. If resident applies for a full license before starting their training at CU, resident must include a letter asking for Exception “D” (Example: “I currently reside outside of Colorado, and claim exemption D set forth in the attached rule. I understand that before I engage in any medical practice in Colorado, I must obtain the required insurance or an acceptable equivalent.”)

“SECURITY OF PATIENT MEDICAL RECORDS – By checking this box, I attest that I have developed a written plan to ensure the security of patient medical records in compliance with C.R.S. 12-36-140.”

Be sure the resident has checked this box as the CMB knows that although residents do not develop these they do follow the facilities’ security plans.

If the resident is a current CU trainee (with an active training license) and applying for a full medical license, they should not claim Exemption D but rather request Proof of Malpractice Coverage to accompany their licensure application by contacting GME@ucdenver.edu.
7. Program Coordinators are to send to Donna Bame at CMB (info below) a list of all Residents who will be applying for a Training License as this will make it easier for her to track the applications.

**Note:** For Continuing Residents with Training Licenses – Training Licenses must be renewed after the first 3 years. Resident should receive notice from CMB but PC is ultimately responsible to make sure resident has current license.

For Transferring Residents – If new program allows resident to have a training license, the resident still needs to apply for a new one as a different PD is now responsible for the supervision and training.

**Send applications and/or PD letter to:**

Donna Bame Licensing Supervisor
