CO Medicaid Enrollment Instructions

Program Coordinators

Enrollment Application Information

- Required for all residents and fellows*.
  *Does not include Instructor/Fellows. CU Medicine enrolls all University of Colorado Instructor/Fellows.
- Trainees must enroll via an online application. Click here to access enrollment details and instructions for trainees.
- If your trainees have questions about the online application and are not able to get the help they need by contacting CO Medicaid directly at the number below, they can email ACECredentialing@cumedicine.us.

NOTE: CO Medicaid is separate from Medicare/PECOS. Information regarding Medicare/PECOS enrollment is available on the GME onboarding website.

Program Coordinator Instructions

1. Ensure ALL Residents and Fellows are enrolled in CO Medicaid. Enrollment can be confirmed via one of two options:
   a. Enrollment Tracking Tool (requires application tracking number and SSN)
   b. Contact CO Medicaid directly at 1-844-235-2387 (requires name, SSN, NPI)

2. As you confirm enrollment, complete the CO Medicaid Enrolled (required) and CO Medicaid Effective Date (optional) fields in the MedHub Demographics tab. It is important that these fields be completed for all applicable new and continuing residents/fellows in your program(s) by the start of the academic year as this is how GME tracks compliance.
   NOTE: PCs can generate a MedHub report on these two fields for all of their Residents/Fellows by going to the Reports tab ➔ Ad Hoc Resident Demographics report ➔ Check boxes for “CO Medicaid Enrollment Status” and “CO Medicaid Enrollment Effective Date” ➔ generate report.

3. Reach out to those applicable Residents/Fellows who are not enrolled instructing them to complete the CO Medicaid Enrollment Application.
