In this document, “Resident” refers to both specialty Residents and subspecialty Fellows.

**Policy:**
To provide procedures for the Residents, Program Directors and Office of Graduate Medical Education in the event of a disaster.

**Residents:** Residents are considered essential personnel and should report to their rotation site as scheduled. If a disaster occurs while at the rotation site, the Resident should remain at the site until further instructions are provided by the Program Director.

Residents should develop a personal/home disaster plan so that if the Resident cannot get home to take care of personal obligations, there is a plan in place regarding child care, pet care, etc.

**Program Directors:** Program Directors must inform their Residents of the program-specific disaster plan. All attempts should be made to provide supervision during a disaster. Program Directors are responsible for providing instructions to the Residents regarding service obligations and patient safety during a disaster.

**The Office of Graduate Medical Education:** GME staff will follow the dedicated planning system at [www.ContinuityCU.com](http://www.ContinuityCU.com) and within a reasonable time after the disaster to review the available information regarding continuation of essential office functions. GME staff will continue to provide administrative support to all affected programs during this period.

**Procedure:**
If an event or set of events causes significant alteration to the residency experience in one or more residency programs, the CU SOM Designated Institutional Official (DIO) and/or GME Committee (GMEC) will follow this procedure:

1. As soon as possible, the DIO will:
   a. The DIO will gather data and information from the affected Program Directors to determine the short-term (days/weeks) and long-term (weeks/months) impact on program functions and/or clinical operations at training sites affected by the disaster and provide information to the GMEC.
   b. If ACGME programs are affected, the DIO will promptly contact the ACGME after the initial GMEC meeting to provide an update on the disaster and initial steps taken by the institution and the GMEC.
      i. The ACGME may invoke the Extraordinary Circumstances Policy if it is determined that the Sponsoring Institution’s ability to support resident education has been significantly altered. ¹
      ii. Within 30 days of the invocation of the Extraordinary Circumstances Policy, the DIO will revise the Sponsoring Institution’s educational program

---

¹ ACGME Policies and Procedures, Subject 21.00
to comply with common, specialty-specific, institutional, and program requirements.²

c. Within 10 days of the invocation of the Extraordinary Circumstances Policy, the DIO will contact the ACGME to receive deadlines for the Sponsoring Institution to:³
   i. Submit program reconfiguration to ACGME; and,
   ii. Inform each program’s residents of the decision to reconstitute the program and/or transfer the residents either temporarily or permanently.

d. The DIO will continue to communicate with the ACGME regularly, as needed, to provide updates on any additional program or institutional issues.

2. The GMEC will meet regularly, as necessary, to continue its assessment of the situation and to make decisions regarding CU SOM training programs.
   a. Issues to be reviewed, assessed, or acted upon by the GMEC include:
      i. Patient safety
      ii. Safety of Residents, Faculty, and Staff
      iii. Supply of available Faculty and Residents for clinical and educational duties
      iv. Extent/impact of damage to the physical plant/facilities
      v. Extent/impact of damage to clinical technology and clinical information systems
      vi. Extent/impact of damage to communication technology (e.g., phones, pagers, intra/internet)
      vii. Changes in the volume of patient activity in the short-term and long-term

3. If the GMEC determines that a program or the institution cannot provide an adequate educational experience for a Resident because of the disaster, both individual programs and the institution will work toward the following options:
   a. Temporarily relocate a Resident to a site of training within the current local affiliate training sites.⁴
   b. Arrange a temporary transfer for a Resident to another ACGME program until the institution can provide an adequate educational experience for the Resident. As best possible at the time of the transfer, the program will inform the Resident being transferred regarding the minimum duration of the transfer and the anticipated total duration of the transfer.⁵
   c. Assist the Resident in a permanent transfer to another program/institution.
      i. The preferences of the Resident will be considered by the transferring institution or program whenever possible.⁶

4. Continuation of financial support in the event of a disaster will be dependent on the short-term and long-term impact on each program and the institution overall. In addition, it will be dependent on current policies related to reimbursement.
   a. For Residents temporarily relocated to an affiliated training site, CU SOM will continue to pay Resident salary and benefits as long as funds are available.
   b. For Residents temporarily assigned to a program at another institution:
      i. CU SOM will continue to pay Resident salary (according to the CU SOM stipend schedule) and benefits as long as funds are available. CU SOM will work with the institution to which the Resident is temporarily assigned to

² ACGME Policies and Procedures, Subject 21.00, Section 21.20 (a)
³ ACGME Policies and Procedures, Subject 21.00, Section 21.20 (c)
⁴ ACGME Policies and Procedures, Subject 21.00, Section 21.20 (c)
⁵ ACGME Policies and Procedures, Subject 21.00, Section 21.20 (c)
⁶ ACGME Policies and Procedures, Subject 21.00, Section 21.20 (c)
negotiate financial support from that site for Residents temporarily assigned there.

c. For Residents permanently transferring to another institution, CU SOM will not cover salary and benefits.

Definitions:

*Disaster (also referred to by ACGME as Extraordinary Circumstances): Circumstances that significantly alter the ability of the sponsor and its programs to support resident education (e.g. hospital closures, natural or man-made disasters, or catastrophic loss of funding).7

a. Within the CU SOM campus, a formal disaster declaration will be made only by the Chancellor of the CU Anschutz Medical Campus.

b. For disasters pertaining to ACGME programs, when warranted and after consultation with the GMEC, the DIO may ask the ACGME Executive Director for the invocation of the Extraordinary Circumstances Policy for a particular program or the entire institution according to ACGME policies and procedures. This information will be posted on the ACGME website.8 This formal declaration under ACGME policies creates significant flexibility for trainees to transfer to other institutions.
