Annual Surveys

Monthly-Quarterly  Training Program MedHub Surveys Faculty/Resident/Rotation Evaluations

**ACGME Faculty Survey**
- Begins November, ends April
- 3 groups of programs, length of survey completion for each group = 5 weeks

January – June  **ACGME Resident Survey** – must have 70% response rate
The ACGME’s Resident/Fellow survey is an additional method to monitor graduate medical clinical education and to provide early warning of potential non-compliance with ACGME accreditation standards. Currently, all core specialty programs (regardless of size) and subspecialty programs (with 4 or more fellows) are surveyed every year between January and June. Aggregate reports will be made available to programs with 4 or more residents if a 70% response rate is reached.

May  **GME Exit Survey**
Data required for the Dean, and all Annual Reports
- Satisfaction with training
- Professionalism
- Graduates future plans
- Demographics
- Debt

May  **Housestaff Association Survey**
The purpose is to communicate resident feedback on their educational and work environment. Data is collated by the Housestaff Association by program and site, and is shared with the Program Directors.

May-June  **Program Annual Program Evaluation**
ACGME requirement V.C. The program must document formal, systematic evaluation of the curriculum at least annually and must monitor and track the following: resident performance; faculty development, graduation performance, and program quality. The GME Office has a template.
