May 1, 2016

Dear JFK Community:

Re: Adult Services

As you may know, JFK Partners (JFK) and Developmental Pediatrics (formerly the Child Development Unit for clinical services) have now merged our two programs for clinical assessments and therapies. All JFK interdisciplinary team diagnostic assessments and all pediatric therapies delivered by JFK psychologists, speech/language pathologists, and occupational therapists now take place at the Children’s Hospital Colorado. Therapies include both individual as well as group treatments. The focus of this letter is on the adult services that we provide.

Although all adult diagnostic and therapeutic services previously have occurred at JFK Partners, beginning May 1, 2016, all adult services will merge with Developmental Pediatrics. That is, JFK providers will see all adult clients under the Children’s Hospital Colorado system. Importantly, the physical location for all adult appointments will be on the first floor of the UPI building on the University of Colorado Anschutz Medical Campus, located at 13199 E. Montview Blvd., near the corner of Montview and Victor. If you are a current JFK client and are interested in continuing to work with a JFK clinician, you need only discuss this with your provider and he/she will get the process started. To determine the fee for your services as we change systems of care, you may call 720-777-5594 to obtain answers specific to your health insurance coverage. Please be advised that you will need your current insurance information and details about what services will be provided (e.g., billing codes) to obtain information about cost.

For our colleagues and community partners who refer families for psychotherapy, speech/language and occupational therapies, the referral process for adult services will transition from JFK to Developmental Pediatrics under the Children’s Hospital Colorado system effective May 1, 2016. Please call Developmental Pediatrics at 720-777-6630 to get the process started or fax a referral to 720-777-7868.

As previously communicated, JFK Partners’ educational programs, community outreach and research / training programs will continue as they are. In addition, the ENRICH early intervention home visiting program will also continue to operate in its current form and referral procedures will not change. Thank you for your patience in this transition. As always, JFK Partners and Developmental Pediatrics are committed to providing the same level of service excellence as we continue to integrate our programs.

Please refer to the numbers below for more information.

- Pediatric Diagnostic Assessments and therapies call 720-777-6630
- Adult Diagnostic Assessments and Therapy call 720-777-6630
- School Consultations call 303-724-7633
- General JFK Partners call 303-724-5266

Sincerely,

Judy Reaven, Ph.D.
