We invite you to join us for a presentation and discussion about transition in the public health setting. The speakers will provide an overview on the key issues regarding the transition of youth with special health care needs from the pediatric health care system to the adult system. Youth with special health care needs have unique considerations as they address their on-going health and health care needs as adults. This webinar will provide a comprehensive overview of this topic, including valuable perspectives from a provider, a national transition expert, and a resource navigator.

**Objectives:**

- Understand the importance of transition and how it exemplifies the medical home approach
- Review transition principles applicable to all youth, with particular focus on youth with special health care needs and their families.
- Identify resources and tangible strategies to support youth and families in the transition process

**Speakers:**

- Paul Dressler, MD, Developmental Behavioral Pediatric Fellow, Children’s Hospital Colorado
- Mallory Cyr, MPH, HCP Program Support - CDPHE
- Teresa Nguyen, Transition Consultant & MPH Student
