

Human Immunology &
Immunotherapy Initiative (HI³)

SCHOOL OF MEDICINE

UNIVERSITY OF COLORADO ANSCHUTZ MEDICAL CAMPUS

2019/2020 Human Translational Immunology Seminar Series

4:00-5:00pm | Research Complex 1-North, 9107

Wednesday, October 23, 2019

Discovery of a new immune dysregulation syndrome: from bedside-to-bench-to-bedside

Cullen Dutmer, MD & Elena Hsieh, MD

Assistant Professors | Children's Hospital Colorado | Pediatrics, Division of Allergy & Immunology
(Hsieh) Assistant Professor | University of Colorado | Department of Immunology and Microbiology

Wednesday, November 20, 2019

Understanding Down Syndrome as an interferonopathy

Joaquin Espinosa, PhD

Professor | University of Colorado | Department of Pharmacology

Wednesday, December 18, 2019

Immune responses to varicella-zoster virus shape the clinical and epidemiologic landscape of VZV infection

Adriana Weinberg, MD

Professor | University of Colorado | Department of Pediatrics, Medicine & Pathology

Wednesday, January 15, 2020

Mechanisms of lymphatic mediated metastasis of breast cancer

Traci Lyons, PhD

Assistant Professor | University of Colorado | Medicine, Division of Medical Oncology

Wednesday, February 19, 2020

The impact of malaria on immune development in children

Rosemary Rochford, PhD

Professor | University of Colorado | Department of Immunology & Microbiology

Wednesday, March 18, 2020

Pathway to prevention of Type 1 Diabetes (T1D)

Peter Gottlieb, MD

Professor | University of Colorado | Department of Pediatrics & Medicine

Wednesday, April 15, 2020

IL-6: novel functions and mechanisms for an old cytokine

Mercedes Rincon, PhD

Professor | University of Colorado | Department of Immunology & Microbiology

Wednesday, May 20, 2020

Immunoengineering more effective cancer immunotherapies

Eduardo Davila, PhD

Professor | University of Colorado | Department of Medicine, Division of Medical Oncology
HI3 Amy Davis Endowed Chair of Human Immunology
