Overweight Women Needed

Would you like to participate in a research study investigating how large body mass makes it more difficult to get pregnant?

How do I know if I can participate?

In order to be eligible you must:

- **Be a healthy woman age 18-40 with a BMI greater than 30.**
- **Have regular menstrual cycles (25-40 days).**
- **Not currently use hormones (like birth control medication).**
- **Be willing to have frequent blood samples drawn.**
- **Be willing to collect urine samples at home.**
- **Be able to wear medication patches on your skin.**

**If you are interested or would like more information please contact:
Jennifer Lesh, Study Coordinator**

303-724-2046

jennifer.lesh@ucdenver.edu

You will be compensated for your time in this research study.

In order to enroll all participants must meet specific criteria. The criteria listed above is only a partial list of all the requirements to participate in this research study. Only a clinical research staff member can determine eligibility.

Estrogen Sensitivity and Ovulatory Dysfunction in Obesity
