

Research Study NJ HS-2166, Approval 7/22/10

Please call 303-398-1443 to learn more about this study.

The Felt Lab for Asthma Research at National Jewish Medical and Research Center is looking for men and women between 18 and 65 years of age with asthma to participate in a research study.

To be eligible, you must be a non-smoker experiencing asthma symptoms or using your rescue inhaler.

Qualified participants will receive at no cost:

- * Study related medications
- * Lung function testing and education
- * Study related medical exams

Financial compensation is provided. Please call 303-398-1443 to learn more about this study.
