

Research Study NJ HS-2581, Approved 6/9/11

Do you have Atopic Dermatitis (Eczema)?

If so, you may be eligible to take part in the NIH funded Registry for the Atopic Dermatitis Research Network (ADRN)

We are looking for:

- Males and females between 3 and 80 years of age who have atopic dermatitis (AD)
- Males and females between 8 months and 80 years or age who have a history of, or an active case of eczema herpeticum (wide-spread herpes skin infection along with AD)

Study Involves:

- One to two visits to the clinic
- Skin swabs and small volume blood draw
- We will also ask if you would like to be contacted in the future for other ADRN studies

If you decide to take part you will receive:

- Study related medical evaluation, including physical exam and test results
- Education and information about AD
- Financial compensation for qualified participants

For more information and to enroll in this study, please call the Clinical Translational Research Center (CTRC) at 303-398-1409
