COMIRB

*ARE YOU PLANNING TO GET LIPOSUCTION
OF YOUR HIPS AND THIGHS?*

HEALTHY WOMEN NEEDED FOR A RESEARCH STUDY

We are looking for women:

- ✓ age 35-60yr
- ✓ planning to get liposuction surgery of the hips and thighs
- ✓ not using hormone therapy
- ✓ non-smokers

Purpose of the study:

To determine whether removing fat by liposuction changes how your body stores the fat you eat during a meal.

Participants will receive:

- testing for diabetes, cholesterol, body fat and bone density
- reduced cost of liposuction procedure
- 24-hr post-operative hospital care
- monetary compensation
